Reader's Guide to the Budget

This guide is meant to help readers understand the various sections of the budget document. This budget is divided into many sections, which are detailed below.

Introduction

The introduction section includes a message from the Village Administrator and Finance Director detailing priorities and initiatives for the upcoming years, economic factors, and narrative on significant budget changes. In addition, this section provides general information on North Aurora, including its elected officials, organizational chart, and a profile of the Village.

Budget Process and Policies

This section describes the general process the Village follows to create the annual budget from start to finish. This section also describes the building blocks to the budget process, including the Villages Strategic Plan, an overview of all Village funds, and various financial and budgetary policies.

Financial Overview and Summaries

This section presents a high-level overview of the annual budget by fund and major revenue and expenditure types. In addition, this section includes long-range financial projections by fund.

Capital and Debt

This section explains the Village's capital improvement program. Included is a listing of projected capital projects over the next five years and detailed descriptions of each project. Also, this section includes information on the Village's current outstanding debt and repayment schedules.

Personnel

This section contains information on the various personnel assumptions used in the budget, changes in staffing levels, authorized positions, and the approved salary step schedule.

Fund Sections

These sections include detailed information for all the Village's funds and departments. This includes a definition of each fund and department, historical account balances, projected current year results, budget summaries, and detail of each budget line item.

Appendix

This section contains miscellaneous statistical information, a glossary of terms, and definitions to acronyms used in the budget document.

March 18, 2024

President and Board of Trustees,

Enclosed is the **Draft Budget for the Village of North Aurora for Fiscal Year 2024-25**. This budget will guide the allocation of resources for June 1, 2024 through May 31, 2025. The total budget for all funds is \$37,418,230. This Budget provides the financial framework that will allow the Village to address the goals and objectives of the Village Board

This Budget:

- Continues to advance numerous capital projects using planned reserves and current funding sources
- Maintains the Village's strong financial standing and position
- Provides a balanced operating budget for the coming year, and
- Addresses goals and objectives identified by the Board through the strategic planning process

Fiscal and Economic Environment Impacting the Village's Budget

Local Economy and Other Factors

The Village's sales tax base has seen significant growth over the past few years, exceeding pre-COVID-19 pandemic levels. The Village's Auto Mall continues to provide strong retail sales and remains an anchor for the Village's tax base. The Village also has solid mix of retail stores, including a large grocery store and well regarded national stores. The overall retail picture for the Village remains positive going forward. Despite threats to brick-and-mortar retailers, the Village has one of the larger sales tax revenue bases in the region for similar size local governments. This has enabled the Village to provide a high level of quality police protection, public works, and general village services to the residents and the community, and enhance the quality of life.

The Village has been seeing steady residential and commercial development over the past few years. Construction of the new Lincoln Valley on the Fox subdivision at the old Fox Valley golf course is nearly complete with its 374 age-targeted single family, duplex, and townhome residential units with amenities. Construction of the remaining vacant lots in the Moose Lake subdivision continues to move forward. The Seasons apartment complex on the far west side of town is nearly complete, with some buildings now open and occupied. New commercial development continues throughout the Village with new businesses along Randall Road, Route 31, and Orchard Road. The Village has seen several warehouse developments over the last few

years that has continued to increase the Village's total EAV. The Village continues to work with developers regarding new mixed-use developments that will bring positive economic impacts.

In 2019, the State authorized the retail sale of cannabis related products for adult recreational use. These sales began in North Aurora on January 1, 2020 (the first day the State authorized the sale of such products) due to the already existing medical dispensary within the Village (making the Village one of the first adult recreational use dispensaries for retail in the State). The Village enacted a 3% sales tax on recreational cannabis sales effective July 1, 2020. This tax has provided significant, additional revenue that has assisted the Village in funding desired service levels and setting aside money for future capital projects. The 3% cannabis sales tax is a revenue of the Village's General Fund and is combined with the normal 1% sales tax for reporting purposes.

The taxable equalized assessed valuation (EAV) of the Village for levy year 2023 is projected to increase by nearly 8.5% to 709,828,618, the ninth consecutive increase in EAV since 2014. Over the last 10 years, new construction EAV has averaged nearly \$7.4 million, or just over \$22 million in market value. Based on current developments under construction it is anticipated that this increase will continue in the near future as the Village not only realizes significant building permit and development fees but realizes increases in its overall property tax base as well.

State and Federal Impacts

In recent years, the State has made many changes to the laws affecting taxes charged on Internet purchases that have a direct effect on the Village. Beginning in 2021, the Village started receiving sales tax directly from online retailers such as Amazon, eBay, and Etsy. Previous to 2021, these retailers charged the State Use Tax on purchases, which is distributed to all municipalities on a per capita basis. Now, the Village receives the destination based 1% local share of Sales Tax from these online retailers. This has, however, reduced the amount of Use Tax the Village has received since the law took effect. Use Tax revenue is expected to remain strong in FY 2024-25, but likely won't reach peak levels of FY 2020-21 due to the changes in State law.

The Local Government Distributive Fund (LGDF), where the Village's share of Income Tax revenue is distributed from, has seen many changes over the years. In 2010, the LGDF share of income tax was 10% of individual and corporate returns. This was reduced to 6.06% for individual returns and 6.85% for corporate returns in 2017. As part of the State's 2018 Budget, these amounts were reduced by 10%, which resulted in local governments receiving an even smaller share of income tax dollars. In the State's 2019 and 2020 Budgets, the LGDF reduction was reduced to 5% of the 2017 local municipality share. These reductions were eliminated with the State's 2021 Budget and reflected the 2017 local municipality share. Going forward, the Village's share of Income Tax revenue could vary in the future depending on the State budget, but we do not expect any further reductions for FY 2024-25.

In 2021, the American Rescue Plan Act (ARPA) was signed into law by the President. Part of this act is intended to provide support to local governments in responding to the impact of COVID-19. Through ARPA, the Village received \$2,457,281 in total funding. These funds must be obligated to a specified use by December 31, 2024 and must be expended by December 31, 2026. Use of these funds is limited to categories specified by the Federal government. As of May 31, 2024, the Village has expended nearly all of these funds on improvements to the water system.

The current economic environment has guided the creation of this Budget that advances key capital initiatives for the community, promotes the efficient and effective provision of services, responds to increasing service demands, and encourages long-term planning of Village resources.

This budget does not significantly alter service levels or programs to the community, but rather provides for the potential to respond to increasing service demand levels and staffing issues in order to meet the on-going needs of the community through increased staffing in Public Works, Administration/Finance, and the Police Department.

Current Year Overview and Accomplishments

The Village accomplished and made progress on many goals during the year, many of which are tied to the Village's strategic plan. Some of the more significant ones that accomplished Village goals and objectives or completed capital projects include:

- ✓ Completed an update to the Village's Strategic Plan.
- ✓ Restructured staffing of the Administration department to better focus on goals of the Strategic Plan, such as economic development and community outreach.
- ✓ Updated Village's Purchasing Policy to help streamline the purchasing process.
- ✓ Received the GFOA Triple Crown Award for the Village's annual comprehensive financial report (ACFR), annual budget, and popular annual financial report (PAFR).
- ✓ Completed the update to the Village's building permit fee schedule.
- ✓ Completed the update to the Village's Comprehensive Plan.
- ✓ Adopted the 2021 International Code Council Building and Property Maintenance Codes.
- ✓ Amended the Zoning Ordinance with regard to commercial vehicles in residential districts.
- ✓ Hired and implemented a new Community Service Officer position to assist with duties and responsibilities that do not require the services of a sworn police officer.
- ✓ Hired and implemented a new Police Management Analyst position to provide administrative support to command staff.
- ✓ Implementation of a police Bicycle Patrol Program to efficiently assist the community, as well as to increase visibility and outreach efforts.
- ✓ Redesign and launch of the new Police and Citizens Together (PACT) program to allow residents and business owners to reach out to the police department with questions and concerns regarding their neighborhood.
- ✓ Collected a total of 2,590 cubic yards of leaves during leaf collection program, which was the second most collect in the history of the program.
- ✓ Moved the Lincoln Highway mural and Gazebo to the Police Department grounds.
- ✓ Completed the 2023 Street Improvement Program, which covered 2.8 miles of Village streets.

- ✓ Continued the design process on a future public works facility.
- ✓ Hired and trained one (1) new Water Laborer/Operator to provide adequate staff for proper system maintenance.
- ✓ Hired a consultant to administer our Lead Service Line Inventory and replacement program as required by the Illinois Environmental Protection Agency (IEPA).
- ✓ Continued redevelopment efforts on Block One.

Overall Budget Highlights for FY 2024-25

As indicated above, the Budget continues the improvement of capital infrastructure within the Village and continues to make adjustments to ensure the continued efficient and effective delivery of services to the community. The following table shows the budget for each fund of the Village for FY 2024-25:

<u>Fund</u>	<u>Revenues</u>	<u>Expenditures</u>
General	\$15,514,090	\$15,463,280
Motor Fuel Tax	859,000	1,548,500
Route 31 TIF	340,000	808,050
United TIF	2,277,000	1,914,550
Insurance	385,000	427,750
Tourism	155,500	165,900
Special Service Areas	97,460	96,330
Sanitary Sewer	172,000	402,105
Capital Projects	2,833,500	5,720,500
Police Station Debt Service	638,675	638,675
Waterworks	3,919,755	7,218,785
Vehicle and Equipment Fund	671,505	1,030,225
Police Pension Trust	3,100,030	1,983,580
TOTAL:	\$30,963,515	\$37,418,230

The following is a summary of some of the more significant budget initiatives in the Village's Budget, many of which are related to the Village's Strategic Plan:

- Develop and issue a long-term capital improvement plan to address future capital needs.
- Update the Zoning Ordinance to modernize the list of uses and coordinate use standards.
- Begin implementation of an online permitting system / software.
- Explore expanded use of technology for mandated officer training, such as purchasing a virtual reality training system.
- Continue the engineering phase for the construction of a new central water tower and move forward with the bidding process.

- Continue working on the Water Works System Master Plan, which will be comprised of multiple studies and will help identify critical needs for the water system's future, and be an aid in strategic decision making
- Complete the 2024 Street Improvement Program, which is projected to cover 3.3 miles of streets.
- Seek out economic development opportunities throughout the Village.
- Continue the redevelopment of Block One.
- Continue to promote the TIF façade grant program to businesses.

Revenues

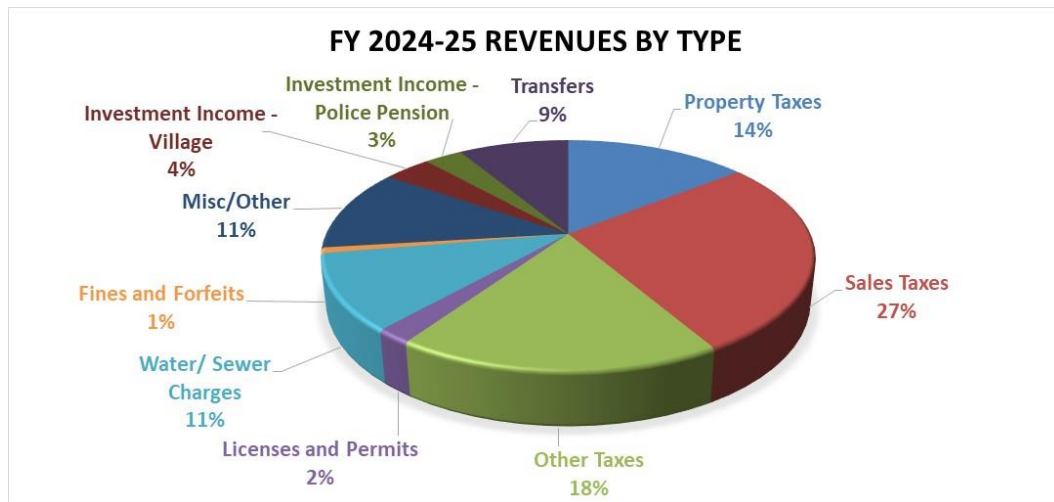

Total Village revenues for the FY 2024-25 Budget across all Village Funds are projected to be \$30,913,515. The chart below shows the composition of all Village revenues by type:

<u>Revenues</u>	<u>FY 2024-25</u>
Property Taxes	\$4,425,000
Sales Taxes	8,406,000
Other Taxes	5,574,350
Licenses and Permits	630,975
Water/ Sewer Charges	3,381,500
Fines and Forfeits	239,250
Misc./Other	3,549,225
Investment Income - Village	1,158,660
Investment Income - Police Pension	920,000
Transfers	2,678,555
TOTAL:	<u>\$30,963,515</u>

Property Taxes

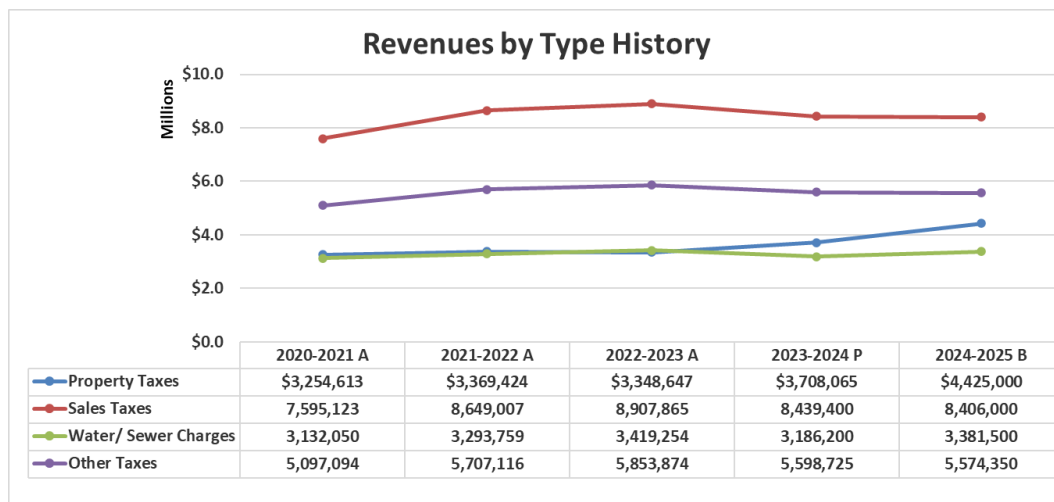

Property Taxes, which represent 14.3% of all revenues, are budgeted at \$4,425,000, an increase of \$716,935, or 19.3%, from the current year projected revenue. Of the budgeted amount, property taxes from increment generated from the Village's two TIF Districts are projected to be \$1,372,000. Property taxes levied within the Village's special service areas are budgeted at \$93,300.

General Fund property taxes levied for specific purposes are budgeted at \$2,491,700, an increase of \$90,600, or 3.8%, from the current year projected revenue. The Village's 2023 tax levy (to fund fiscal year 2024-25) was increased to include a 2.5% CPI increase and the value of new construction coming online.

Sales Taxes

Sales Taxes (both the state shared 1.0%, the 0.50% non-home rule designated for capital, and the local 3% recreational cannabis tax) represent 27.2% of all Village revenues, and are estimated to be \$8,406,000 next year, a decrease of \$33,400, or 0.4% over the current year projected revenue. Sales taxes are projected to decrease slightly due to the leveling off increases realized in past years from post pandemic spending in the areas of vehicle sales at the auto mall, retail activity at grocery and other essential stores, and cannabis taxes due to other dispensaries opening in the near region. As discussed earlier, retail activity and sales taxes over the last year has been very strong due to the mix of businesses operating in the Village. Some sectors of retail will continue to face challenges in the future as more purchases will be made on-line due to convenience, a trend accelerated by the COVID-19 pandemic.

Other Major Taxes

Other taxes which include state-shared income tax, use tax, motor fuel tax (MFT), utility/telecommunication taxes, and other miscellaneous taxes make up 18.0% of all revenues and are budgeted to be \$5,574,350, which is a decrease of \$24,375, or 0.4%, over the current year projected revenue.

State-shared income taxes are budgeted to be \$2,878,000, an increase of \$19,600, or 0.7%, from the current year projected revenue. Current year revenues have been at some of the highest levels that Village has seen, primarily due to an improving labor market, strong corporate tax receipts, and higher than normal individual tax payments. The FY 2024-25 budget assumes that many of these items will continue at similar levels. The Village's population increased with the 2020 Census, which increases the per capita distributions. Some uncertainty still exists with potential reductions to income tax LGDF allocations by the State in future years, however, no reductions are anticipated in the current budget.

Motor fuel taxes (MFT) (both regular allotments and transportation renewal fund distributions), which are restricted for road-related maintenance and other related projects, are budgeted at \$809,000 total, a decrease of \$22,850, or 2.7%, from the current year projected revenue.

Utility taxes (telecommunications, electricity, and gas) are budgeted at \$710,500, a decrease of \$2,850, or 0.4%, from the current year projected revenue. The Village has been seeing declines in telecommunications tax over the past few fiscal years as landline phones are becoming less popular. Electricity tax and gas tax are volatile from year to year as they are typically weather dependent. Electricity and gas tax revenues are recorded in the Capital Projects Fund and telecommunications tax is allocated to the General Fund.

Use tax revenue is budgeted at \$694,000, a decrease of \$2,500, or 0.4%, from the current year projected revenue. As mentioned earlier, Use tax revenue has varied significantly the past few fiscal years due to changes in State laws. The Supreme Court's decision in the *Wayfair* case allowed the State to pass the Marketplace Fairness Act in 2018 requiring use tax collections on out-of-state companies for on-line sales. This change saw substantial increases in use tax revenue until the "Leveling the Playing Field for Illinois Retail Act" of 2021. With this act, much of the revenue previously reported as use tax changed to destination-based sales tax. As a result, the Village saw a decrease in use tax from the peak year of FY 2020-21, however, this has been offset by an increase in sales tax. Revenues in FY 2024-25 are expected to remain strong, however, less than revenue of a few years ago.

Water and Sewer Charges

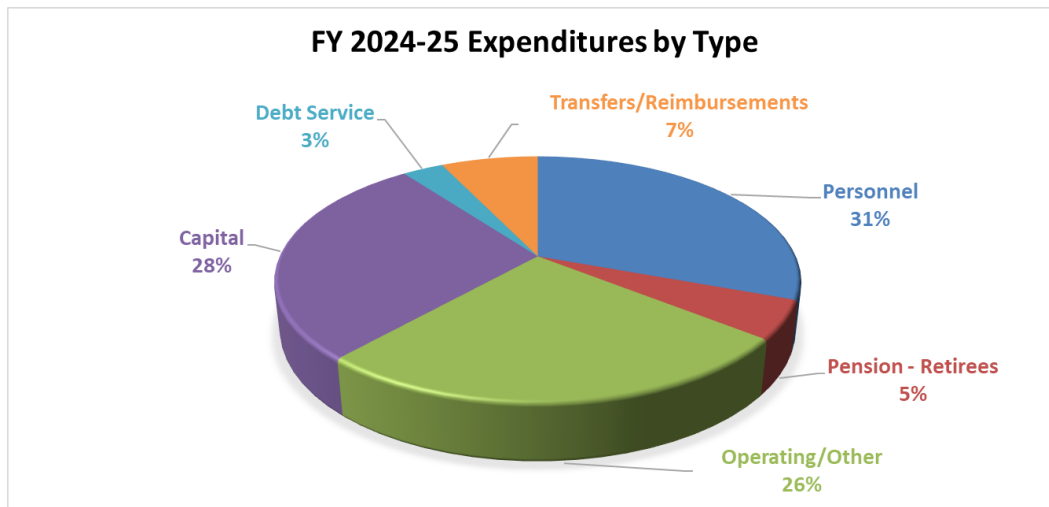

Water and sewer charges are budgeted at \$3,381,500, which is an increase of \$195,300, or 6.1%, from current year projected revenue. A 12.5% water rate increase effective June 1, 2024 is projected for this year's budget. This would increase the per 1,000 gallons rate from \$4.26 to \$4.79 (after a \$16 bi-monthly base charge including the first 3,000 gallons).

Expenditures

Total Village expenditures across all funds are budgeted to be \$37,435,230. The charts in this section show the composition of all Village expenditures and a history of Village expenditures by type.

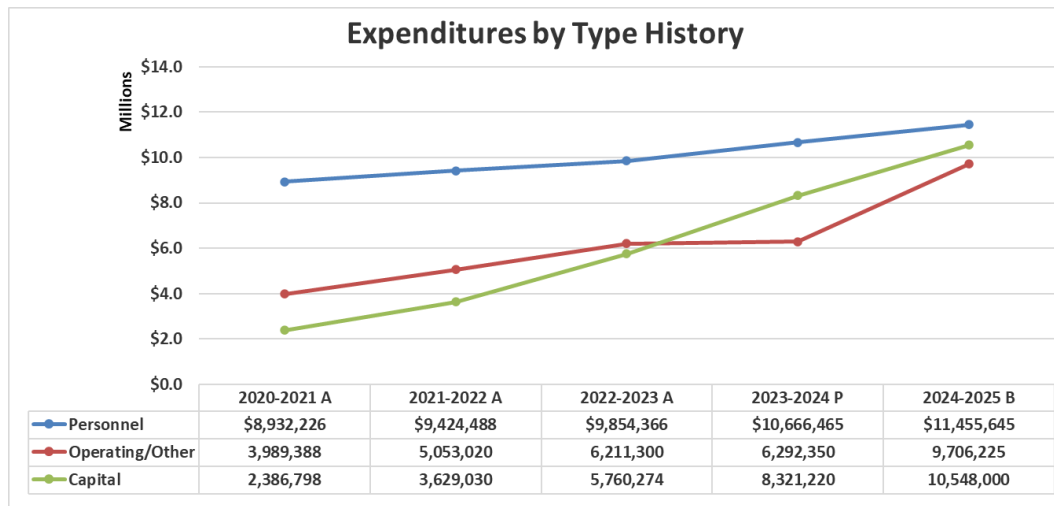

Expenditures

Personnel	\$11,455,645
Pension – Police Retirees	1,896,480
Operating/Other	9,706,225
Capital	10,548,000
Debt Service	1,133,325
Transfers/Reimbursements	2,678,555
TOTAL:	\$37,435,230

Personnel

Personnel expenditures, which represent 30.6% of all expenditures, are budgeted at \$11,455,645, an increase of \$789,180, or 7.4%, from the current year projected expenditures. The Budget includes an increase in staffing of approximately 1.5 full-time equivalents (FTE's), to a total of 74.63 FTE's. The increase is comprised of: increasing a part-time IT Assistant to full-time and the addition of a Lead Water Operator position. The Village continues to analyze and recommend staffing levels in all departments to ensure effective staffing levels exist that continue to provide necessary services through vacancies, absences or other issues. The Village has three (3) collective bargaining agreements (CBA's) with Police Officers, Police Sergeants, and Public Works/Water Laborers. The Police Officer's contract expires May 31, 2025 and the Police Sergeants and Public Works/Laborers contracts expire on May 31, 2024. Non-union employees are budgeted to receive a pay adjustment of 3.0% effective June 1, 2024. Police Officers are set to receive a 4.25% pay adjustment per contract effective June 1, 2024. Increases for the Police Sergeants and Public Works contracts are not known at this time. Step increases are provided for employees who meet eligibility and who are not at the maximum step in their salary range.

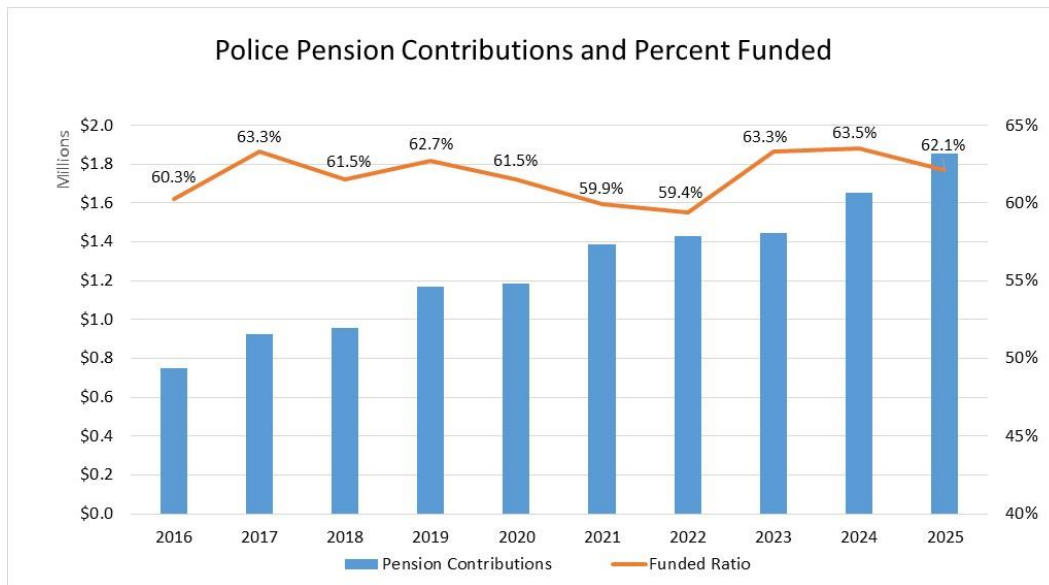

Personnel - Benefits

The Village continues to procure and maintain a competitive benefit package at reasonable rates for eligible employees. The Village joined the Intergovernmental Personnel Benefit Cooperative (IPBC) a pool of more than 130 local governments effective January, 2018 in order to more efficiently provide cost-effective health, dental, life, and other benefits to employees. All employees currently pay an 8% (HMO) or 20% (PPO/HSA) contribution to the cost of their coverage. After employee contributions, total Village costs of employee insurance coverage is budgeted to be \$974,230. The cost of employee health plans has fluctuated little over the last few years. The medical HMO plan is projected to increase by 5.7% and the PPO/HSA plan is projected to decrease 0.8% at the July 1, 2024 plan start date. The dental HMO plan is projected to remain the same and the PPO plan is projected to increase 7.9% at the July 1, 2024 plan start date.

Pension costs for employees in the Illinois Municipal Retirement Fund (IMRF) have been relatively stable. The current 2024 employer rate is 9.63% of gross salary, and the 2025 rate is projected to increase to 11.0%. Employer IMRF costs are currently budgeted to be \$382,800 for upcoming fiscal year and covers 40 full-time and 2 part-time employees who are working the minimum 1,000 hours a year.

Employer required police pension contributions for the Village's thirty-two (32) authorized sworn officers are budgeted to be \$1,852,530 based on the May 31, 2023 actuarial valuation of the police pension fund. Through its adopted Police Pension funding policy, the Village remains committed to a 100% funding goal of the accrued liabilities in the fund by 2040. The last actuarial valuation of the pension fund indicated that it was funded at 62.1%. The chart below shows the history of Village contributions and percent funded. The Village has updated many of its assumptions for the police pension valuation over the last several years, most notably its investment return assumption from 7.0% to 6.5%. These changes have lowered the funded ratio and increased the required contribution as illustrated in the graph below. The Village regularly evaluates making additional contributions to the fund if possible.

Other Operating/Expenditure Trends

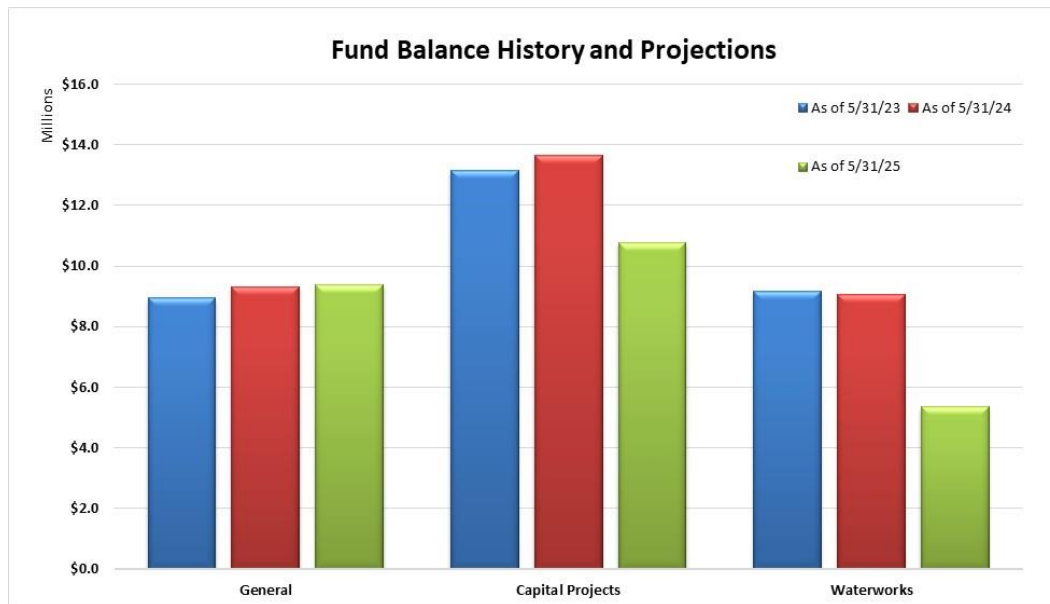

Operating and other costs are budgeted at \$9,706,225, an increase of \$770,145, or 8.6%, from the prior year budgeted expenditures. This is primarily due to the carryover of numerous engineering and architectural services for projects, primarily related to the public works facility. The Village has also seen additional increases in operating/maintenance costs associated with Village facilities as they age and systems requiring more substantive repair or replacement, especially in regards to mechanical and electrical systems. In addition, the Village has many water system related studies budgeted for FY 2024-25, including the water system master plan, pressure zone analysis, lead service lines, and capital project engineering.

Fund Balance and Net Position

This Budget is in compliance with the Village's Budgetary and Fiscal Policies and Fund Balance policies as detailed in the Process and Policies section of the budget. The schedule Summary of All Funds (first page of the Financial Overview tab) shows total revenues (less the Police Pension Trust Fund) of \$27,813,485 are less than total expenditures of \$35,434,650 by \$7,571,165. This is due to the planned use of cash reserves in specific funds for capital projects or the spending of bond proceeds received in the prior year to be spent on various capital projects. Significant decreases in fund balance/net position are as follows:

- \$689,500 in the Motor Fuel Tax Fund due to the start of a major capital project.
- \$468,050 in the Rt. 31 TIF Fund due to an equity transfer to the United TIF Fund.
- \$2,887,000 in the Capital Projects Fund due to road improvements, the new Public Works facility planning, and various facility upgrades.
- \$3,299,030 in the Waterworks Fund due to various capital projects that were delayed in prior years and an increase in repairs and maintenance.

- \$358,720 in the Vehicle and Equipment Fund due to the delay of vehicles order during FY 23-24 and the related vehicle outfitting.

Fund balance in the General Fund is budgeted to increase \$50,810 to \$9,369,630, which is 62.2% of expenditures and transfers out for debt payments at May 31, 2025. The reserve level exceeds the Village's requirement of at least a 40% to 50% fund balance reserve for the General Fund.

Strategic Planning

The goals and objectives of the Village's Strategic Plan were adopted by the Village Board on May 16, 2022. The plan has been incorporated into the final budget document. Where practical and meaningful, linkages between those goals found in each Department or Fund have been made.

Capital Planning and Funding

The Village continues to plan for future capital projects utilizing a variety of resources. Staff updated the long-term road and infrastructure improvement plan and continues to plan for other capital improvements to infrastructure and facilities in the next several years. Details of future capital projects can be found in the Capital and Debt section of this document.

As the Village continues to identify needed capital projects for consideration those projects may need to be prioritized given the current level of dedicated and supplementary pay-as-you-go funding in the Capital Projects Fund and resources available in the Motor Fuel Tax Fund. The Village has been closely monitoring capital needs of the Village into the future which has resulted in one-time resources being assigned for future capital projects over the last several years. An increase in MFT revenues, through the TRF fund, has increased the MFT funds available to assist with future capital projects.

As the Village moves ahead with planning for the next design phase for an expanded Public Works facility, a combination of funds on hand or issuance of bonds may be considered as the project moves further along. The Village has also identified water main segments that will need to be replaced over the next ten-year period. Planning discussions to determine the priorities for replacement, as well identification of funding on-hand or that which will be accumulated in future years will be underway in the coming year.

Long-Term Financial Planning

The Village maintains long-term financial projections for all funds, which help to assist in identifying financial risks, opportunities, and potential financial challenges the Village may face. These projections also provide the ability for the Village to plan for capital projects, which can vary significantly in cost from year-to-year, and the Village can also model certain scenarios to determine what adjustments may need to be taken in the event of an economic downturn. Projections are done using historical information, current trends, and forward-looking economic indicators.

Long-Range Financial Summaries for each Village operating fund (excluding the Police Pension Fund) can be found within the Financial Overview and Summaries section. Financial results for each fund are projected five years out based on current service levels, expected capital spends, and assumed inflationary increases. Future year projections should be viewed as estimates only, therefore, any significant decreases in resources will be further reviewed in later fiscal years.

Acknowledgements

We would like to extend our appreciation to all the Department Heads and Village staff for their input and assistance during this process. We would also like to thank the President and Board of Trustees for recognizing, encouraging, and supporting the implementation of sound fiscal management policies and financial planning processes which have guided the Village for many years.

Sincerely,

Steve Bosco

Budget Presentation
Award*

PRESENTED TO

**Village of North Aurora
Illinois**

For the Fiscal Year Beginning

June 01, 2023

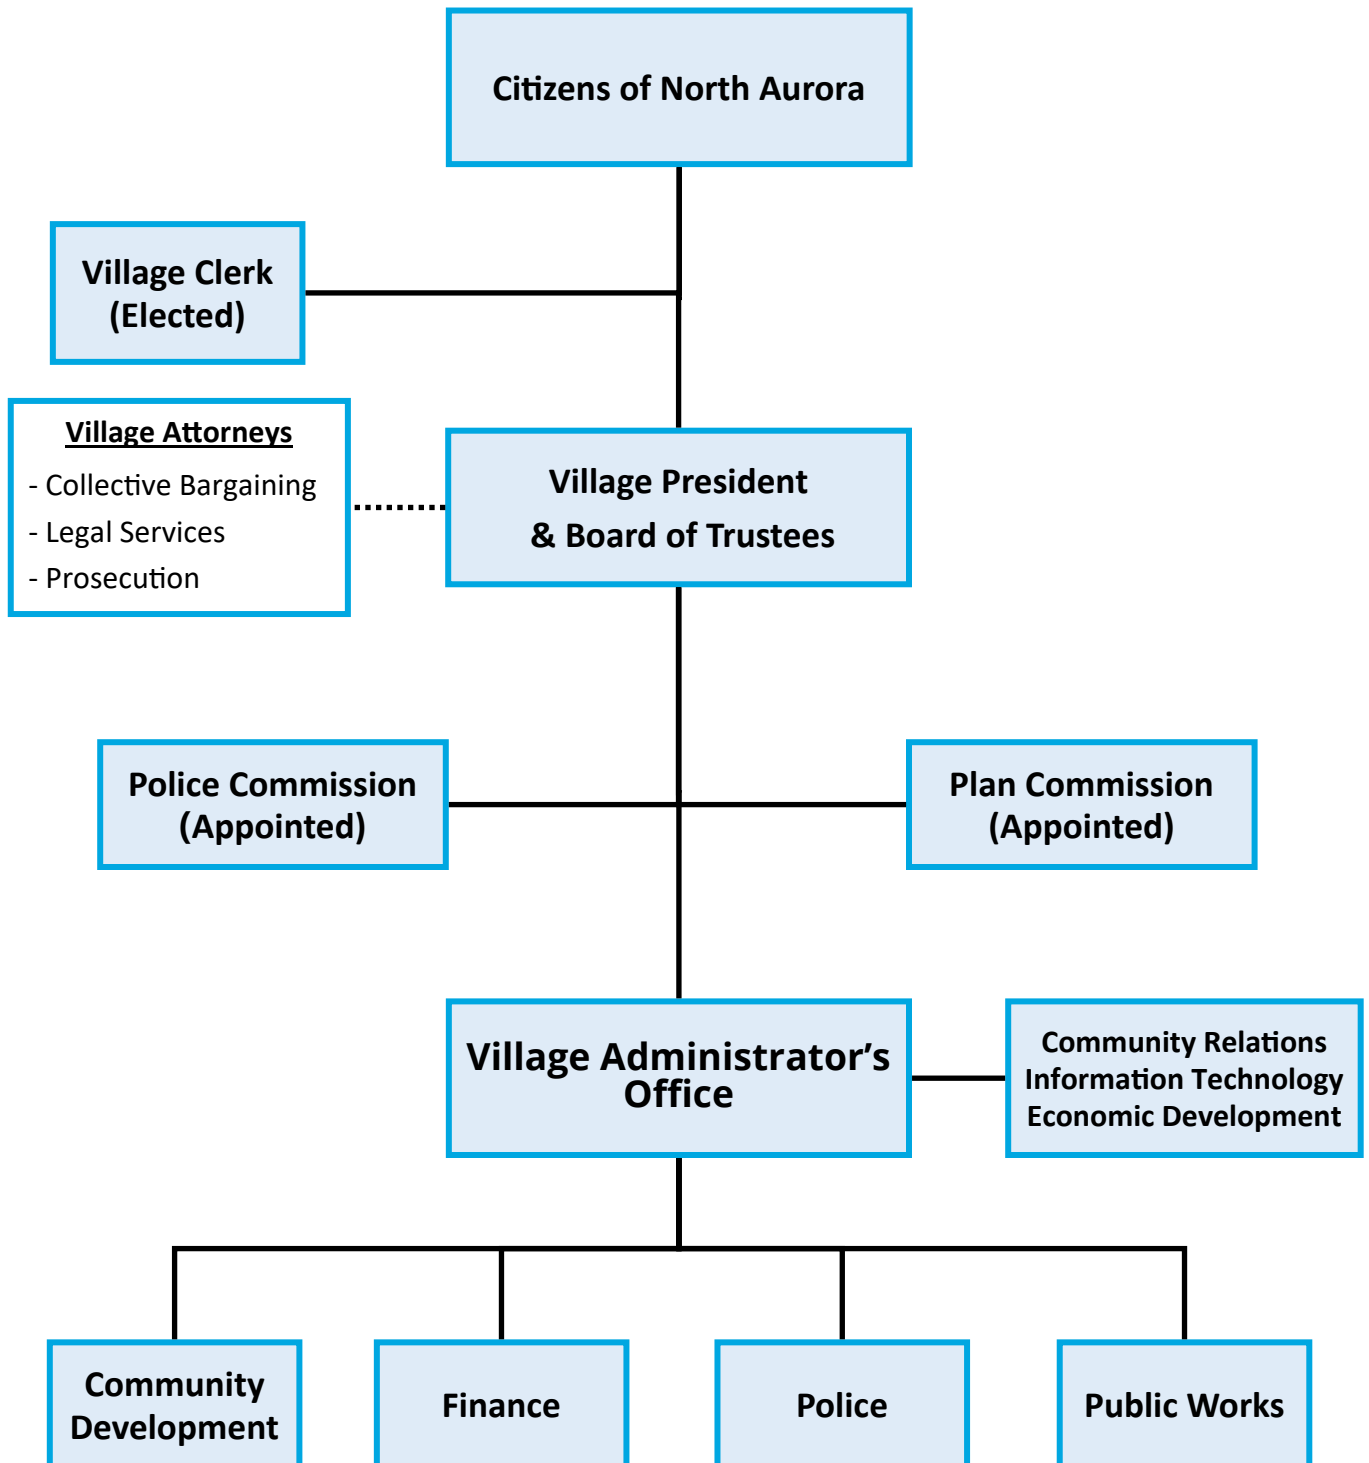

Christopher P. Morill

Executive Director

The Government Finance Officers Association of the United States and Canada (GFOA) presented a Distinguished Budget Presentation Award to the **Village of North Aurora, Illinois** for its annual budget for the fiscal year beginning **June 1, 2023**. In order to receive this award, a governmental unit must publish a budget document that meets program criteria as a policy document, as an operations guide, as a financial plan, and as a communications device.

This award is valid for a period of one year only. We believe our current budget continues to conform to program requirements, and we are submitting it to GFOA to determine its eligibility for another award.

Organization Chart

Village Profile

Early History

Originally known as Schneider's Crossing, North Aurora began with the arrival of two adventurous brothers who decided that their search was over when they reached this particular place. John Peter and Nicholas Schneider left their home near Frankfurt on-the-Rhine (in Germany) to set off on a great adventure. They secured passage on a ship to America, and reached Philadelphia, Pennsylvania, in 1824. The brothers found work as carpenters and millwrights.

In 1832, John Peter and his family traveled westward via rivers and Lake Michigan to the state of Michigan. They took up their journey again in 1833, and got as far west as what is now called Naperville. Nicholas joined his brother shortly thereafter, and they built a sawmill at the mouth of Blackberry Creek near Yorkville. Nicholas remained on the property, but John continued on into the Fox River Valley, settling with his family on the east side of the river on a hill near the site of the present Village Hall. In 1837, a dam was constructed to provide power to the mill John Peter had built. The commercial activity surrounding the mill attracted more families to the area. By the turn of the 19th century approximately 300 people lived in town. On October 26th, 1905 North Aurora was incorporated as a village.

In the early 20th century, Aurora became a hub of industry and railroading. Some of the railroad workers chose to live in North Aurora, triggering the Village's moderate but steady growth until the 1960s. The 1960s ushered in an era when the character of the whole Fox River Valley changed; it transformed from a relatively local, freestanding economy where residents lived and worked into a more suburban experience where residents commuted to job centers located east of the valley. At first, residents had access to jobs through the commuter train system. Later they drove to jobs that had moved out of the metropolitan core and to areas surrounding the expressways. Several manufacturing and commercial areas also began to develop. Residential annexations during the 1990s and 2000s brought significant growth as the population chart below shows. This growth has and is expected to continue, albeit at a more moderate pace over the next several years.

Village Profile

Location and Climate

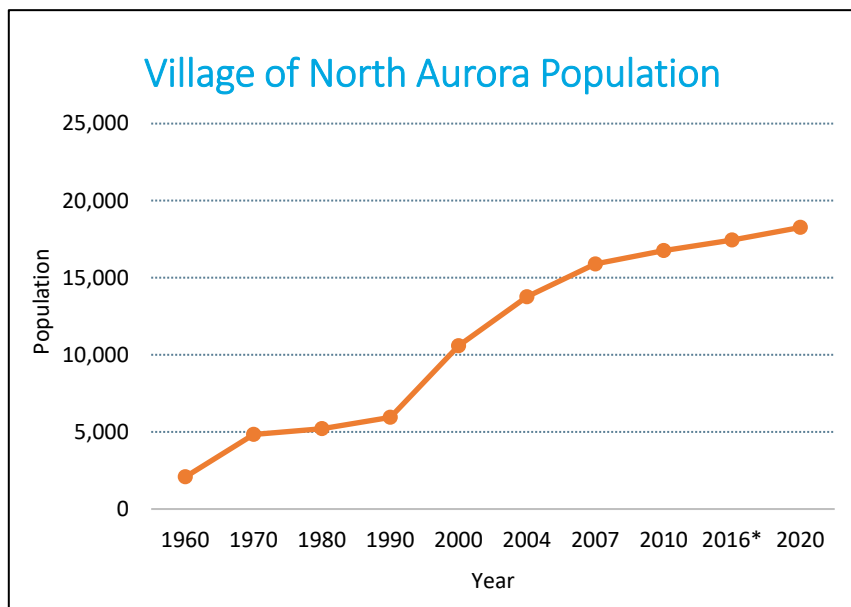

Located in the heart of Chicago's western suburbs, North Aurora is quaintly situated along the Fox River in Kane County. Only 40 minutes west of the City of Chicago, residents of North Aurora enjoy direct access to I-88, Route 31, Route 25, Route 56 (Butterfield Road), Randall Road, and Orchard Road. The proximity of these major suburban routes makes for easy traveling around town and into Chicago's metropolitan center.

While definitely a Midwestern climate, North Aurora is far enough south to avoid the blistering cold temperatures found further north. Residents experience snowy winters ranging from about 20° to 30° Fahrenheit. Summers are warm with temperatures ranging from 70° to 80° Fahrenheit. Precipitation ordinarily peaks in the month of August which averages about 4.3". January is the peak month of snowfall averaging up to 11" of snow.

Population Trends and Forecasts

The Village of North Aurora has tripled its population over the past twenty years. This is primarily due to the annexing of land by the Village for residential, industrial, and commercial uses. Currently, the official population is 18,261 based upon the 2020 Census of the Village.

Year	Population	% Change
1960	2,088	126.7%
1970	4,833	131.5%
1980	5,205	7.7%
1990	5,940	14.1%
2000	10,585	78.2%
2004	13,764	30.0%
2007	15,893	15.5%
2010	16,760	5.5%
2016*	17,441	4.1%
2020	18,261	4.7%

Village Profile

Labor Market and Educational Statistics (Continued)

Batavia School District Number 101, West Aurora School District Number 129 and Kaneland School District Number 302 serve the Village and have a combined enrollment of approximately 21,460 as of the 2020-2021 school year. There are no private schools in the Village. Nearby Aurora is home to the Illinois Mathematics and Science Academy (IMSA), drawing students from throughout Illinois, with a current enrollment of approximately 651 as of the 2020-2021 school year.

Continuing education, college transfer courses and trade programs are available through Waubonsee Community College District Number 516, which has a current enrollment of approximately 13,696. Waubonsee's main campus is located in Sugar Grove. In addition, Aurora University has a current enrollment of approximately 5,833 and offers undergraduate and graduate courses.

State

Route 25, 31, 56

The Interstate 88 East-West Tollway forms much of the Village's southern boundary, with some areas of the Village extending south of the Interstate. Major regional roads intersecting the Interstate in the Village include the north-south Illinois Routes 25 and 31 straddling the Fox River, the east-west Route 56 (Butterfield Road) and the north-south Randall and Orchard Roads.

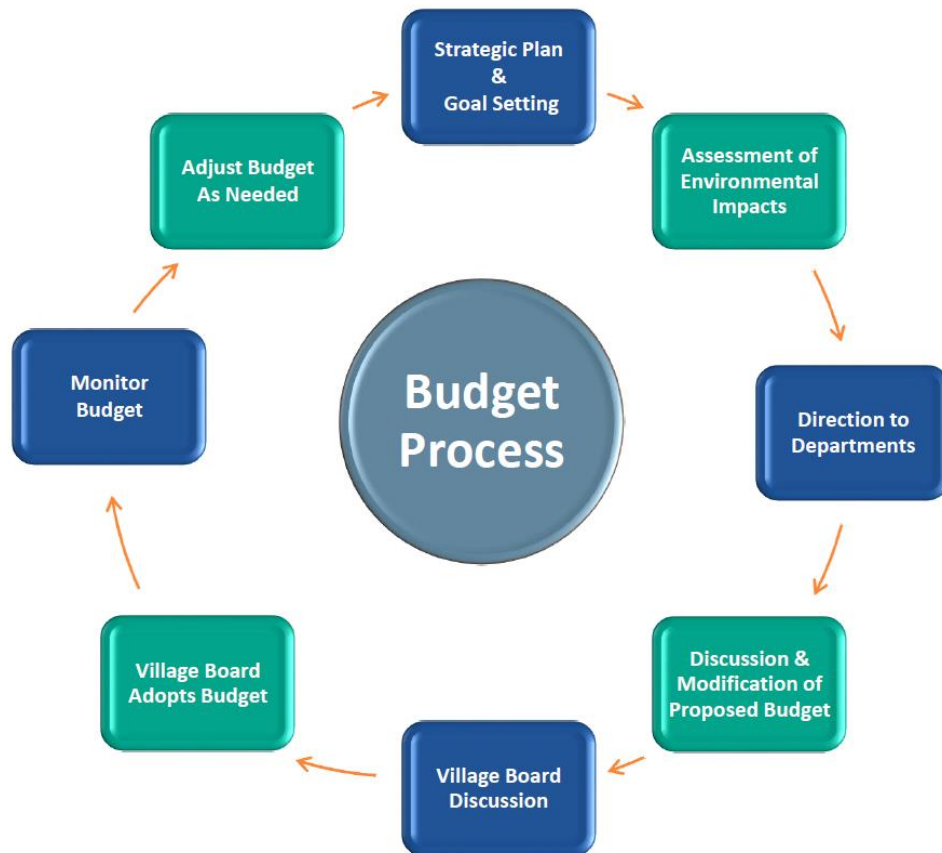

Air transportation is available from Midway and O'Hare International Airports, which are served by major national airlines and commercial air freight companies. Both airports are located approximately 35 miles from the Village. The DuPage Airport provides charter and air freight service in the area, and is located approximately seven miles from the Village in West Chicago. In addition, the Aurora Airport also provides charter and air freight service, and is located approximately seven miles southwest of the Village.

Commuter rail service is available from the Burlington Northern Santa Fe (Metra) Line in nearby Aurora. Travel time to the Chicago "Loop" is approximately 76 minutes local and 55 minutes express. Additional commuter rail service is available from the Union Pacific/West Line in Geneva. Travel time to the Chicago "Loop" is approximately 67 minutes local and 61 minutes express.

Budget Process and Financial Planning

General Description

The budget process for the Village of North Aurora involves the citizens, the Village President and Village Board, Village Administrator, Department Heads, and many other individuals throughout the organization. Each person plays a critical role in the development of the budget for the upcoming year. Although much of the time and effort in developing the budget occurs between the months of January and May, the development, implementation, monitoring and review of the Village's annual budget is part of a comprehensive process that occurs throughout the entire year.

Budget Process

The Village's annual budget is prepared on a June 1 through May 31 fiscal year basis. The Village has chosen to operate under the Budget Act. As such, the Act requires the appointment of a Budget Officer. The Village's current budgetary control is at the fund level for all funds except the General Fund, which is at the Department level. The Finance Director, who is appointed as the Budget Officer, may authorize budget transfers within all funds, and within departments for the General Fund.

During the first quarter of the fiscal year, Finance begins monitoring the Village's revenues and expenditures for the current year and discussing and resolving any significant variances with each department. In January, the Village Finance Director updates preliminary revenue projections not only

Budget Process and Financial Planning

for the current fiscal year but for next fiscal year as well. These projections provide a basis to formulate guidance to all departments as they prepare their budgets. In addition, guidance is given to Departments based on feedback received or issues that have been brought up over the past year from residents, business and any other related stakeholders. At times, the Village will also consider input received from surveys or other public input processes that have been recently done.

Budget worksheets and instructions are given to the Departments, along with instructions for compiling operating and capital needs over a multi-year time frame as appropriate. In addition, strategic planning sessions held by the Board are held during this time to provide further guidance as the budget develops. Departmental meetings are held with the Village Administrator and Finance Director regarding the proposed budgets and changes are made based on those discussions. Preliminary budget information is presented and at the Committee level during the budget process providing input and direction as necessary. Finance then finalizes revenue estimates for the following fiscal year, and then prepares and submits a Draft Budget to the President and Board of Trustees.

The Village Board holds Committee of the Whole meetings in April to discuss the Draft Budget which are open to the public. A formal public hearing on the budget is held in early May and the final budget is approved in May before the beginning of the fiscal year in June as required by the Budget Act.

Amending the Budget

If necessary, the annual budget may be amended by the Village Board during the year. Budget transfers between Departments in the General Fund and any increase in the total budget of a fund must be approved by the Village Board as a budget amendment. Budget amendments require a two-thirds vote of the corporate authorities then holding office to take effect. These amendments are necessary if anticipated expenditures are expected to exceed the total amount budgeted at the fund level due to changing priorities or unexpected occurrences. The Finance Director may authorize budget transfers within all funds, and within departments for the General Fund.

Long-Term Financial, Operating and Capital Planning

The Finance Department maintains a long-term (typically 10 years) projection of future major operating and capital expenditures comprised of input from every department. This list is used in conjunction with long-term projections of all current revenues and expenditures to determine the extent that the Village can or can not continue to provide current service levels within current revenues. This also assists in determining what capacity exists to expand services, or what revenues, if any, are needed to provide the desired service levels or capital projects to the community.

The Village also projects fund balances and cash reserves into the future to ensure the Village's financial position does not deteriorate. These projections have assisted in identifying any structural financial deficiencies that may occur in the future, or opportunities, and maintain the strong financial condition of the Village. Examples including identification of key points in the future when sales tax rebate agreements expire and debt service obligations are satisfied which will help the Village continue to meet its operating and capital needs as well as its long-term pension obligations. The Village can also identify when certain significant changes may occur in revenues, such as short-term grants from the State

Budget Process and Financial Planning

expiring, changes in per capita distributions due to changes in the Village's official population, expiration of TIF Districts and model the fiscal impacts that a recession or other economic disruption may have on Village revenues.

Strategic Planning

Strategic planning and goal setting by the Village Board provides input into long-term planning that can guide the development of the budget process and establish priorities. The Village Board regularly completes updates to its strategic plan every couple of years. The goals and objectives of the Village that are set will guide the development of future operating and capital budgets into the future. Periodic review and update of these goals also ensures that the objectives remain timely and relevant, and that action plans can be developed to carry out the objectives in an efficient and effective manner. Some other processes which have had a direct effect on the development of the budget include:

Other Processes Impact on the Budget

Below are other factors impacting the 2024-25 budget and future years:

- The Long-Term Road and Watermain Improvement Program (*a Pavement Condition Index (PCI) study was updated in 2021 and has been used as an instrument to program future infrastructure projects to be included in the budget*)
- The Comprehensive Land Use Plan and TIF Redevelopment Plan (*these documents provide overall guidance for development within the Village as a whole and redevelopment within the Village, specifically the Route 31 TIF District; an update of the Comprehensive Plan was completed in FY 2023-24 and has historically provided guidance for the use of "focal points" for key areas along the river, including the study regarding the re-use of the Silo*)
- Riverfront Park 2017 Improvement Plan (*This plan provided a framework to begin discussions on improvements to be made to Riverfront Park which the Village acquired from the Park District in 2016 and for which initial improvements are planned for in the budget*)

Budget Calendar

Date	Description of Activity
December 4th	Distribution of Budget Directives, Forms and Other Materials
January 15th	Committee of the Whole Meeting - Mid-Year Financial Update Presentation to Board
February 2nd	Department Heads Submit Annual Budget Requests, Long-Term Capital and Operating Items, and Other Required Information to Finance Director and Village Administrator
February 12th - 23rd	Discussion and Review of Department Budget Submissions and Other Information
March 4th	Committee of the Whole Meeting - Update on Budget Development - Preview
March 13th	Draft Budget Completed
March 15th	Village President and Board receive Draft Budget and Draft Budget Available for Public Inspection on Website (Must be Available for at Least 10 Days Before Passage)
March 18th	Committee of the Whole Meeting - Budget Presentation
April 1st	Committee of the Whole Meeting - Budget Discussion Follow-up
April 2nd	Notice of Public Hearing to Newspaper
April 5th	Notice of Public Hearing Published in Newspaper on this Day (At Least 1 Week Prior to Hearing)
April 15th	Official Public Hearing on Budget
April 15th	Committee of the Whole Meeting - Budget Discussion Follow-up If Needed
April 26th	Deadline to Post Compensation Packages Greater Than \$150,000 on Website (PA 97-0609)
May 6th	Board Approval of Budget
May 13th	Deadline to Post Compensation Packages Greater Than \$75,000 on Website (PA 97-0609)
May 20th	Board Approval of Library Appropriation
May 31st	Budgets and Applications Submitted to GFOA
June 1st	Deadline to File Certified Copy of Budget and Certificate of Estimate of Revenues with the County Clerk (30 Days After Approval, Certified by the CFO)

Summary Village Board Strategic Goals and Objectives

General Description

The Village completed a workshop to review the Village’s strategic plan during fiscal year 2023-24 to update the previous goals set by the Village Board. The process focused on special areas of discussion the Village plans on addressing in the short-term future.

At the conclusion of the update, five (5) main policy goal categories were confirmed to properly categorize the many goals and objectives that were articulated and confirmed as still being active and relevant. Those broad categories are listed below:

Strategic Plan

Finally, the broad objectives identified through the process were grouped under the six main policy goals categories illustrated above. A complete listing of each goal and each objective under that goal is listed on the following page. These goals and objectives, many of which have been identified in previous years, have influenced the development of this budget. Those linkages are noted within the document within each section of the budget. Specific action steps are identified that guide the Village towards achieving the goals and objectives under the strategic plan.

Summary Village Board Strategic Goals and Objectives

Strategic Plan

GOAL: COMMUNITY VITALITY

1. Promote more local / community identity in School District including establishing intergovernmental dialogue with School District
2. Pursue opportunities for green initiatives
3. Establish a dog park in North Aurora
4. Explore opportunities to create and increase community events and activities

GOAL: ECONOMIC DEVELOPMENT

1. Review zoning use classifications for all non-residential districts
2. Explore options for the use of vacant Village properties
3. Enhance the Towne Centre Development
4. Facilitate economic and business development activities

GOAL: EFFICIENT AND EFFECTIVE DELIVERY OF CORE SERVICES

1. Continue long-term financial planning to meet evolving capital and operating needs for infrastructure and monitor threatened shared revenues
2. Review potential opportunities for a future Village Hall site
3. Enhance resident communication options and methods to improve information distribution channels internally and externally for village services and activities
4. Enhance and develop governmental understanding and awareness
5. Explore procurement opportunities for expedited equipment acquisition and collaborative purchasing
6. Facilitate community outreach in Police Department, enhance crime prevention programs and interactions, and explore expanded use of technology and methods
7. Undertake biennial strategic planning goal update meetings

GOAL: CONTINUE MAINTENANCE AND CAPITAL RESOURCE PLANNING FOR VILLAGE INFRASTRUCTURE

1. Take advantage of state and federal funding programs to improve the Village's transportation corridors
2. Stabilize existing water supply and storage
3. Continue design and building of new Public Works facility
4. Continue long-term evaluation of annual infrastructure maintenance programs

GOAL: REVITALIZE THE ROUTE 31 CORRIDOR AND CREATE A COMMUNITY FOCAL POINT

1. Explore redevelopment options to create a focal point of the Route 31 Corridor between John and Oak Street and between Route 31 and Route 25
2. Evaluate alternate uses and partnerships for the silo on the Fox River
3. Develop amenities along the riverfront and enhancements to North Aurora Riverfront Park
4. Remove Fox River dam
5. Monitor progress, visible indicators and accomplishments of redevelopment on Route 31, including streetscape improvements and/or private redevelopment
6. Utilize Village TIF districts for redevelopment projects
7. Coordinate efforts with Illinois Department of Transportation (IDOT) on corridor enhancements

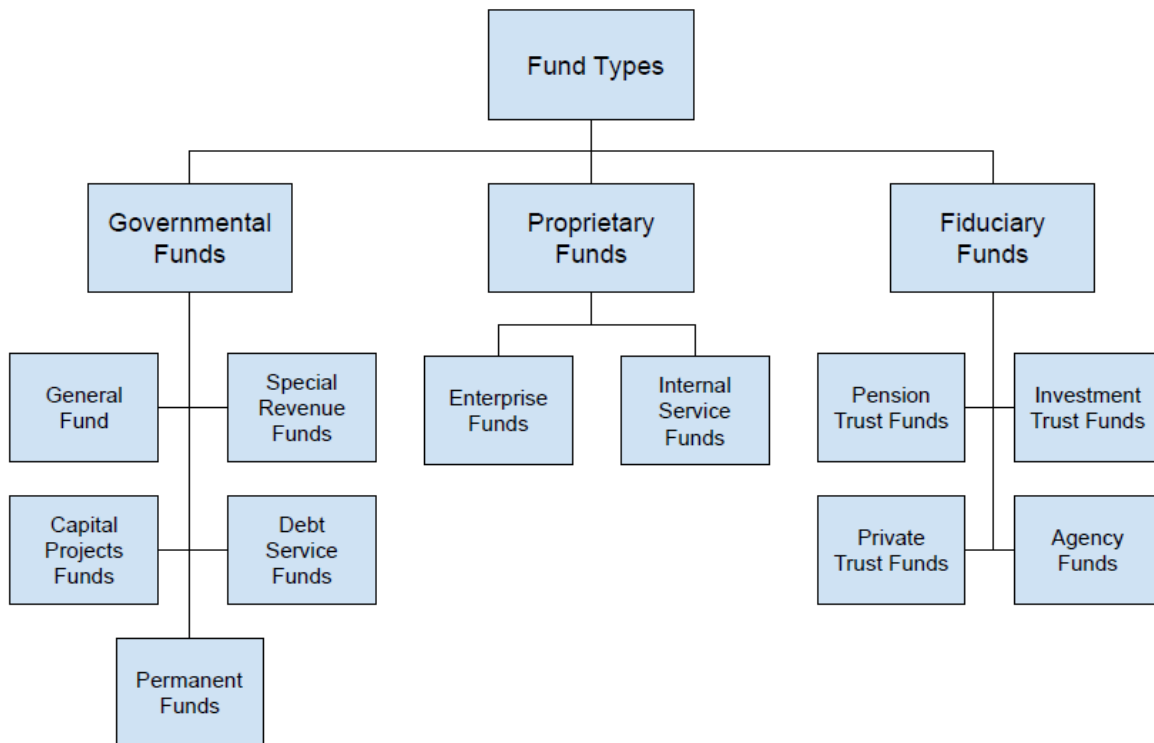

Overview of the Village's Fund Structure

General Description

For accounting purposes a state or local government is not treated as a single, integral entity. Rather, a government is often viewed from a financial perspective as a collection of smaller, separate entities known as "funds." Funds used by a government are traditionally classified into one of eleven "fund types." The eleven fund types can also be grouped into one of three broad classifications: governmental funds, proprietary funds and fiduciary funds. The Village does not utilize all eleven governmental fund types.

In addition, governmental financial reporting for state and local governments classify individual funds as either "Major" or "Nonmajor." The impact of this distinction is that the financial activity of nonmajor funds is reported in certain instances in the audited financial statements in a consolidated format while major funds are reported separately. Generally, the General Fund, Capital Projects Fund, Rt. 31 TIF Fund and Waterworks Funds are reported as Major Funds. All other funds are considered to be "Nonmajor" Funds (see Glossary for definition of these terms).

It is useful to provide an overview of the Village's fund structure since the budget is prepared, organized and presented on a fund basis. The following fund types, and each fund *budgeted for by the Village for the upcoming year* which fall into that fund type classification, are further described:

Overview of the Village's Fund Structure

Governmental Funds

1. **General Fund:** The General Fund is the largest fund of the Village and accounts for most of the expenditures traditionally associated with local government including police protection and investigations, street maintenance, snow removal, parkway tree maintenance, community and economic development, administrative and finance, legal services and legislative. Most general revenues not restricted or committed for specific purposes are allocated to this Fund.
2. **Special Revenue Funds:** Special Revenue Funds are used to account for and report proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects. Special Revenue Funds of the Village include:

Motor Fuel Tax Fund: The Motor Fuel Tax Fund is used to account for the Village's per capita share of gasoline taxes collected by the State and distributed by the Illinois Department of Transportation to fund street maintenance programs and other capital projects as authorized by the State.

Route 31 TIF District Fund: The Route 31 TIF Fund is used to account for the tax increment financing revenues and redevelopment expenditures within the Village's Route 31 TIF District.

United TIF Fund: The United TIF Fund is used to account for the tax increment financing revenues and redevelopment expenditures within the Village's United TIF District.

Insurance Fund: This fund accounts for liability and workers compensation insurance coverages purchased by the Village and the payment of miscellaneous insurance claims and other expenditures. Funding is provided through a special property tax levy and transfers from other funds.

Tourism Fund: This fund accounts for the collection of revenues from the Village's hotel tax and revenues and expenditures from the annual North Aurora Days festivities. Ninety-percent of the hotel taxes are remitted to the Aurora Area Convention and Visitors Bureau and the remaining fund are used for local events.

Special Service Areas Fund: This fund accounts for the activities of the Village's special service areas which provide for maintenance activities not provided by the homeowner's associations or property owners.

Sanitary Sewer Fund: This fund accounts for the collection of sanitary sewer user charges and connection fees to fund improvements and maintenance to the sanitary sewer system.

3. **Capital Project Fund:** Capital Project Funds are used to account for and report financial resources that are restricted, committed or assigned for capital outlays, including the acquisition or construction of capital facilities or other capital assets.

Capital Projects Fund: This fund accounts for various tax revenues restricted or committed for roads, infrastructure, capital assets or other purposes as defined by statute as well as impact

Overview of the Village's Fund Structure

fees and other contributions. This fund accounts for most expenditures related to the Village's annual road improvement program, or capital projects related to village facilities or various right-of-way/pedestrian infrastructure improvements.

4. **Debt Service Funds:** Debt Service Funds are used to account for the payment of principal and interest on debt service and revenues levied or pledged to pay the debt.

Police Station Debt Service Fund: This fund accounts for the payment of interest and principal on the General Obligation Alternate Revenue Source Bonds, Series 2008 issued to substantially fund the construction of the new police station, which were advance refunded in 2014. Village sales tax revenues were pledged as the funding source for the bonds and sales tax revenues are transferred monthly from the General Fund to this fund for future debt repayment.

Proprietary Funds

5. **Enterprise Funds:** Enterprise Funds are Proprietary-Type funds. Proprietary-type funds are used to account for a government's business-type activities (activities which receive a significant portion of their funding through user charges and fees and where the full cost of an activity is desired to be captured in one Fund). The operations of Enterprise Funds are accounted for in such a manner as to show a profit or loss similar to comparable private enterprises. Enterprise Funds established by the Village include:

Waterworks Fund: This fund accounts for the revenue and operating and capital expenditures associated with the provision of water service to residents and businesses in the Village.

6. **Internal Service Funds:** Internal Service Funds are also Proprietary-Type funds and are used by state and local governments to account for the financing of goods and services provided by one department to another department, and to other governments, on a cost-reimbursement basis. Internal Service Funds established by the Village include:

Vehicle and Equipment Fund: This fund accounts for the purchase and replacement of vehicles, equipment and information technology infrastructure which have reached their useful life or new purchases. Funding for this fund is provided through transfers from Village departments and funds.

Fiduciary Funds

7. **Trust Funds:** Trust Funds are used when a government holds or manages financial resources in an agent or fiduciary capacity. The Village budgets for one Trust Fund:

Police Pension Trust Fund: The Police Pension Trust Fund is used to account for the accumulation of resources to pay police officer pension costs. Monies are contributed by police members at rates fixed by state statutes and by the Village through a contribution determined annually by an actuary.

Overview of the Village's Fund Structure

Other Funds Not Budgeted

The Village also maintains several Funds or sub-funds for which the Village does not establish an annual budget.

Budgetary and Fiscal Policies

General Description

The Village of North Aurora has a tradition of sound municipal financial management. This Annual Budget incorporates policies adopted by the Village Board which are followed in managing the financial and budgetary affairs of the Village. These policies will allow the Village to maintain its strong financial condition and ability to respond to changing financial circumstances and prioritized needs. ***These policies also contain in some cases, if appropriate, a bolded and italicized description of how this budget or projected financial status meets each criteria.***

Policies Revised and Adopted by the Village Board on: January 21, 2019

A. Revenue Policies

1. The Village endeavors to maintain a diversified and stable revenue base which would assist in minimizing the economic effects that short-term fluctuations in any one revenue source would have on the Village's short and long-term fiscal standing. The revenue mix combines elastic and inelastic revenue sources to minimize the effect an economic downturn or other economic event will have on the ability of the Village to provide services while maintaining a sound financial position.

In the Village's General Fund, 71.3% of revenues are elastic and 28.7% are inelastic. Elastic revenues are strongly based on the strength of the local, state and national economy and inelastic are more stable on a year-to-year basis. Over time, a greater mix of non-elastic revenues will provide more stability on a year-to-year basis.

2. Through the Village's economic development initiatives, the Village will take into consideration of mix of land uses which will strengthen and expand the Village's tax base and economic well-being of the community.

The Village undertakes a proactive economic development program through planned development of commercial and industrial areas, redevelopment through TIF Districts, rebates and incentives where appropriate, and maintaining active communication with existing businesses. The Business and Administrative Services Manager's primary focus is economic development.

3. Existing and potential revenue sources will be examined annually during the budget process in order to determine if changes to existing revenues or implementation of new revenue sources should be considered in order to meet the service and capital goals and objectives of the Village.

During the current budget process, the Village examined the need to increase various revenue sources. Due to the implementation of the 3% cannabis tax effective July 1, 2020, no increases in revenue rates or establishment of new revenue sources for the General Fund were recommended. A planned 12.5% water rate increase is included in this budget.

Budgetary and Fiscal Policies

4. The Village will maintain a revenue monitoring system to assist in trend analysis and revenue forecasting on a long-term basis.

Finance maintains long-term projections of every revenue source and adjusts these projections throughout the year based on actual changes in the local, state and national economic environments. These adjustments provide the basis for recommendations on the ability of the Village to fund future operating and capital costs on a long-term basis.

5. The Village will oppose State and/or Federal legislation that will mandate costs to units of local government without providing a new or increasing an existing revenue source to pay those costs.

The Village has continued to oppose legislation either directly or through its membership in IML or Metro West that would have a negative impact on the Village, either through decreased revenues or increased expenditures and liabilities.

6. The Village will set fees and user charges for the Waterworks Fund at a level that fully supports the cost of regular operations, provides for adequate debt service coverage and accumulates resources for the funding of capital outlays over time.

During the budget process, the Village reviewed its long-term operating and capital needs of the Water Fund. As a result, it was determined that a rate increase was necessary to fund future projects. Effective June 1, 2024, a 12.5% rate increase is proposed, increasing the per 1,000 gallons charge from \$4.26 to \$4.79. We will continue to monitor rates in the future or possible adjustments.

7. The Village will not use one-time revenues for continuing expenditures. All new and continuing expenditures will be funded based on known and slightly conservatively projected revenue sources. The identification of new, but one-time revenues will be used to fund one-time expenditures such as capital equipment purchases, capital improvement projects or as additional employer contributions to the Village's pension systems, as examples.

It is anticipated the FY 2023-24 budget will be amended to increase the budgeted transfer to the Capital Projects Fund from \$600,000 to \$2,000,000 due to strong revenue collections. These funds will be utilized for future capital needs.

B. Expenditure Policies

1. The Village will maintain a level of expenditures for programs, operations and capital projects which will provide for the public well-being and safety of the businesses and residents of the community, in accordance with the goals and objectives of the Village Board, in a manner that promotes both optimal efficiency and effectiveness for both service delivery and ongoing capital improvements.

Budgetary and Fiscal Policies

The Village has proposed budgets which continue to provide high service levels for the community and needed capital projects in an efficient and effective manner.

2. Budgeted expenditures will be within the confines of available revenues for the year. Use of reserve funds shall be appropriate when part of a long-term strategy to accumulate resources for specific projects while keeping within the confines of the Village's reserve policies or a one-time use of funds for a particular purpose.

The Budget does not propose to expend more than is available either through current revenue sources or available fund balance. Use of fund balance in any funds is due to planned capital projects using accumulated reserves (such as the Rt. 31 TIF Fund, MFT Fund, Capital Projects Fund, Water Fund, etc.).

3. The Village will forecast expenditures on a long-term basis as part of the annual budget process.

The Finance Department maintains a long-term projection of all expenditures, including potential changes in operating needs and capital improvement needs and the ability of the Village to fund those needs within current revenue sources. Summaries can be found in the Financial Overview and Summaries section of this budget.

4. A competitive employee compensation package based on both internal and external equity and consistent with sound economic policies of the Village of North Aurora is maintained to recruit and to retain qualified employees

The budget includes a 3.0% cost of living adjustment for non-union employees effective June 1, 2024. Union employee scale adjustments are set by contract and include a 4.25% increase for Police Officers. Increases for the Police Sergeants and Public Works union employees are unknown as their contracts expire May 31, 2024.

C. Debt Policies

1. When necessary, the Village will consider the issuance of debt for the construction of capital assets with a useful life that meets or exceeds the repayment schedule of the debt issuance. The Village will strive to finance a significant portion of its capital assets with pay-as-you-go financing through various revenue sources restricted or committed to the Capital Projects Fund.

All recent debt issuances financed construction of assets with a useful life longer than the repayment term of the debt issuance. The 2017 General Obligation Alternate Revenue Source 2017 issuance included a fifteen-year debt service schedule and most of the assets including the new water wells, watermain, and water tower will have at least a twenty to fifty year life, and in some cases longer than that. All other capital improvement projects in the Budget are funded with pay-as-you-go financing utilizing current year revenues or accumulated, planned reserves from prior years.

Budgetary and Fiscal Policies

2. The Village will maintain good communications with bond rating agencies about its financial condition and will establish and maintain policies and procedures which not only seek to maintain the Village's bond rating but increase it as well, if possible. The Village will follow a policy of full disclosure on every financial report by preparing and filing annually an audited comprehensive annual financial report, preparing and filing within all deadlines any continuing disclosure requirements per the Securities and Exchange Commission (SEC) Rule 15c2-12 and any Event Notices as may be required or within good disclosure to file with the Municipal Securities Rulemaking Board (MSRB) as amended from time-to-time.

The Village complied fully with its debt service requirements including providing sufficient debt coverage, making all debt service payments on-time, providing all of its required continuing disclosure, and communicating regularly with its bond rating agency. The Village received confirmation of its AA+ underlying bond rating in March 2017 issued by Standard and Poor's. The Village has held this rating since 2014 which is one rating under the highest rating possible.

3. Every project proposed for financing through general obligation debt, alternative revenue source debt or any other type of debt instrument should be accompanied by a full analysis of the future operating and maintenance costs associated with the project.
4. When possible and based on a cost-benefit analysis, debt will be retired early. The Village will also evaluate refinancing opportunities for its existing debt to determine if meaningful savings can be achieved, or to determine if it would be in the Village's best interest to alter characteristics of certain bonds such as call provisions, payment dates, maturity schedules, etc.

There currently are no refunding opportunities with any of the Village's outstanding debt obligations.

5. The Village will issue alternative revenue source type debt, or other types of debt instruments not pledged primarily by general obligation property taxes such as debt certificates, only after a thorough analysis by the Village provides reasonable assurances that the anticipated debt coverage ratios can be met throughout the life of the debt repayment schedule and an analysis of the risks associated with the issuance of alternate revenue source debt has been performed.
6. The Village has previously passed a Resolution regarding post-issuance compliance procedures R13-02-04-03 for tax-exempt bonds and the Village will follow said procedures on an on-going basis.

D. Cash Management

1. The Village has in place a separate investment policy, adopted by the Village Board and amended from time-to-time, which provides guidelines for the prudent investment of

Budgetary and Fiscal Policies

Village funds in order to obtain a competitive return on investments while minimizing risk and complying with the applicable state statutes.

During the current year, the Village invested reserve and idle funds and achieved a return on its portfolio that exceeded its benchmark per the Investment Policy while minimizing unnecessary interest-rate risk.

2. The cash management system is designed to accurately monitor and forecast expenditures and revenues, thus enabling the Village to invest funds to the fullest extent possible. The Village attempts to match funds to projected disbursements.
3. In order to maximize interest earnings, the Village commingles the cash of all funds excluding the Motor Fuel Tax Fund and the Police Pension Fund. The interest revenue derived from commingled cash is allocated to the participating funds monthly based on the relative cash balance of each fund.
4. The objectives of the Village's investment activities and order of priority are:
 - i. Safety. Safety of the principal is the foremost objective of the investment program. Investments of the Village shall be undertaken in a manner that seeks the preservation of capital and the mitigation of credit and interest rate risk in the overall portfolio.
 - ii. Liquidity. The Village's investment portfolio will remain sufficiently liquid to enable the Village to meet all operating requirements that may be reasonably anticipated. This is accomplished by structuring the portfolio so that securities mature concurrent with cash needs to meet anticipated demands. Furthermore, since all possible cash demands cannot be anticipated, the portfolio should consist largely of securities with active secondary or resale markets. Alternatively, a portion of the portfolio may be placed in money market mutual funds or local government investment pools which offer same-day or short-notification liquidity for short-term funds.
 - iii. Return on Investments: The Village's investment portfolio shall be designed with the objective of attaining a market rate of return throughout budgetary and economic cycles, taking into account the Village's investment risk constraints and liquidity needs. Return on investment is of least importance compared to the safety and liquidity objectives described above. The core of investments are limited to low risk securities in anticipation of earning a fair return relative to the risk being assumed.

E. Accounting, Auditing, Budgeting and Financial Reporting Policies

1. The Village will establish and maintain a high standard of accounting practices in conformance with Generally Accepted Accounting Principles (GAAP) for governmental entities as promulgated by the Governmental Accounting Standards Board (GASB).

Budgetary and Fiscal Policies

The Village has fully complied with and implemented all GAAP.

2. Where possible, the reporting system will also provide monthly information on the total cost of specific services by type of expenditure and, if necessary, by Fund.

Monthly reports by Fund and Department/Program are generated for expenditures for regular reporting.

3. The Village, following the budget act in ILCS, will annually adopt a balanced operating budget under normal financial circumstances which funds current expenditures with current revenues. Use of fund balance in a given year to balance the operating budget will be specifically disclosed.

The Village has prepared a balanced operating budget and has disclosed the planned use of reserves in various funds, if appropriate.

4. Capital budgets, which fluctuate, will be projected on a long-term basis and adopted annually for the upcoming year based on updates to the long-term capital improvements plan to ensure that the proper mix of revenues, grants, reserves or other funding sources are available to fund the capital program. Use of fund balance and cash reserves to fund capital projects may be appropriate when planned appropriately. Any proposed capital projects should always be accompanied with a projection on future operating and maintenance costs associated with the project.

Capital budgets have been proposed in the context of long-term capital financial planning, and projections on future operating costs have been disclosed.

5. An independent firm of certified public accountants will perform an annual financial and compliance audit according to Generally Accepted Auditing Standards (GAAS) and will publicly issue an opinion which will be incorporated in the Annual Comprehensive Financial Report.

The Village completed the audit of the Village's financial statements as of May 31, 2023 and the auditor's opinion was incorporated into the Village's Report.

6. The Village will annually apply for the GFOA Certificate of Achievement for Excellence in Financial Reporting Program and the GFOA Distinguished Budget Award Program.

The Village received the Certificate of Achievement award for the year ending May 31, 2022 (22nd consecutive year), and received the Distinguished Budget Presentation Award for the FY 2023-24 Budget (18th consecutive year).

7. The Village will use the modified accrual basis of accounting for its governmental funds (general, special revenue, capital projects and debt service funds). Revenues are

Budgetary and Fiscal Policies

recognized in the accounting period which they become available and measurable. Expenditures are recognized in the accounting period in which the liability is incurred.

8. The Village will use accrual basis accounting for its proprietary funds (enterprise and internal service funds). Revenues are recognized in the accounting period they are earned and become measurable. Expenses are recognized in the accounting period in which the liability is incurred.
9. The Village will promote full disclosures in its annual financial statements and its bond presentations.

F. Police Pension Trust Fund

1. The Village of North Aurora, by separate Resolution, has adopted criteria for the funding of the actuarial accrued liabilities for the Police Pension Trust Fund.
2. The Village will calculate and provide funding to the Police Pension Trust Fund based on a 100% funding goal for the Police Pension Trust Fund consistent with GAAP amortization requirements and sound funding practices.
3. The Village will use a 30-year closed amortization period ending 2040 and entry-age normal actuarial method. The Village will periodically review all assumptions in the actuarial valuation in consultation with the actuary to determine if any assumptions need to be updated based on past experience and future projections.
4. In the event the minimum required funding contribution as required by current State law is higher than the amount calculated using the above assumptions the Village will use the higher amount for determining the contribution required.

The Police Pension Trust valuation as of May 31, 2023 was completed, and calculations were made to ensure that the above parameters adopted by the Village were not only used to calculate the future contribution and incorporated into the annual budget but exceeded the minimum standards established by the State.

Fund Balance and Other Reserve Policies

Policies Revised and Adopted by the Village Board on: January 21, 2019

Definitions

Fund Balance: The difference between assets and liabilities in a Governmental Fund.

Nonspendable Fund Balance: The portion of a Governmental Fund's fund balances that are not available to be spent, either short or long term, in either form or through legal restrictions.

Restricted Fund Balance: The portion of a Governmental Fund's fund balances that are subject to external enforceable legal restrictions.

Committed Fund Balance: The portion of a Governmental Fund's fund balances with self-imposed constraints or limitations that have been placed at the highest level of decision making.

Assigned Fund Balance: The portion of a Governmental Fund's fund balances to denote an intended use of resources.

Unassigned Fund Balance: Available expendable financial resources in the General Fund or a deficit fund balance in another governmental fund that are not the object of tentative management plan (i.e. assignments).

Flow of Funds and Assignment

In order to properly classify fund balance at year end, the Village spends the most restricted dollars before less restricted, in the following order:

1. Restricted,
2. Committed,
3. Assigned,
4. Unassigned.

Responsibility for the assignment of fund balance is delegated to the Finance Director with the approval of the Village Administrator and communicated through the annual budget or via memorandum to the board of trustees.

General Fund

The Village requires a minimum fund balance be maintained for the General Fund of 40% to 50% of annual expenditures and transfers of resources out of the General Fund for the purpose of debt repayment. This fund balance requirement excludes any nonspendable portions of fund balance. This level of fund balance shall provide the capacity to:

- i. Offset unexpected downturns in elastic revenues due to fluctuations in the local, state and national economies or the loss of a major sales tax contributor(s)
- ii. Offset negative fiscal changes brought about by action or legislation of another unit of government or agency

Fund Balance and Other Reserve Policies

- iii. Ensure the continued, timely repayment of debt obligations that the Village may have in the event of a financial downturn
- iv. Provide a sufficient cash flow for daily financial needs at all times
- v. Provide a funding source for unanticipated expenditures or emergencies that may occur

In the event that the fund balance for the General Fund falls below the targeted minimum, the Finance Director shall present a plan to restore the fund balance to the required minimum range within a reasonable period, depending on the specific circumstances at the time.

Funds in excess of the minimum may be considered for the funding of one-time, nonrecurring expenditures, assigned for future capital activities or used for the funding of other long-term obligations. Any use of fund balance or reserves will be considered in the context of maintaining a strong level of overall budgetary flexibility and liquidity for governmental funds in total.

This Budget projects fund balance as defined for the General Fund to be \$9,369,630 at May 31, 2025 which is 62.2% of applicable expenditures and transfers of resources out for debt service in the General Fund.

Motor Fuel Fund

The Village will maintain a minimum fund balance in the Motor Fuel Tax Fund of 25% of typical, annual operating expenditures in order to provide sufficient cash flow and an adequate reserve.

The projected fund balance for the Motor Fuel Tax Fund at May 31, 2025 is \$1,430,544 which is about 169.7% of average historical annual operating expenditures.

Capital Projects Fund

The Village will plan appropriately and maintain a sufficient reserve in the Capital Projects Fund in order to meet the long-term capital planning and infrastructure needs of the Village and projected cash flow requirements.

The Village maintains a reserve in the Capital Projects Fund for cash flow purposes, funding of the annual capital improvement/road program which also accounts for variations in cost on an annual basis, major projects in the future such as village facility improvements and other unanticipated costs. The projected fund balance at May 31, 2025 is \$10,781,278.

Waterworks Fund

The Village will maintain a working capital level in the Waterworks Fund of at least 25% of operating expenses taking into account typical capital outlays. For the purpose of this policy working capital will be defined as current assets (excluding restricted cash and equivalents, if any) less current liabilities. Working capital over and above this level will be met if an operating or capital investment activity financed with reserves is planned. This level will:

Fund Balance and Other Reserve Policies

- a. Provide resources in the event of a loss of a significant water usage customer or decrease in usage from customers
- b. Ensure adequate resources for annual fluctuations in capital investment activities necessary to support operations.
- c. Provide sufficient cash flow during the year based on the timing of expenditures and receipt of payments from customers.

The projected working capital level of the Water Fund at May 31, 2025 exceeds the required amount.

Basis of Accounting and Basis of Budgeting

General Description

The **modified accrual basis of accounting** is used for all **governmental fund types** (General Fund, Special Revenue Funds, Debt Service Funds and Capital Project Funds) and agency funds. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e. when they become measurable and available).

The **accrual basis of accounting** is utilized by **proprietary fund types** including enterprise funds and internal service funds, and **pension trust fund types**. Under this method, revenues and additions are recorded when earned and expenses and deductions are recorded at the time liabilities are incurred.

Both the modified accrual basis of accounting and the accrual basis of accounting are consistent with generally accepted accounting principles (**GAAP**).

Basis of Budgeting

The budget for the Village is prepared on a basis **consistent with GAAP** as described above except for the following major exceptions described and identified below as the budgetary basis:

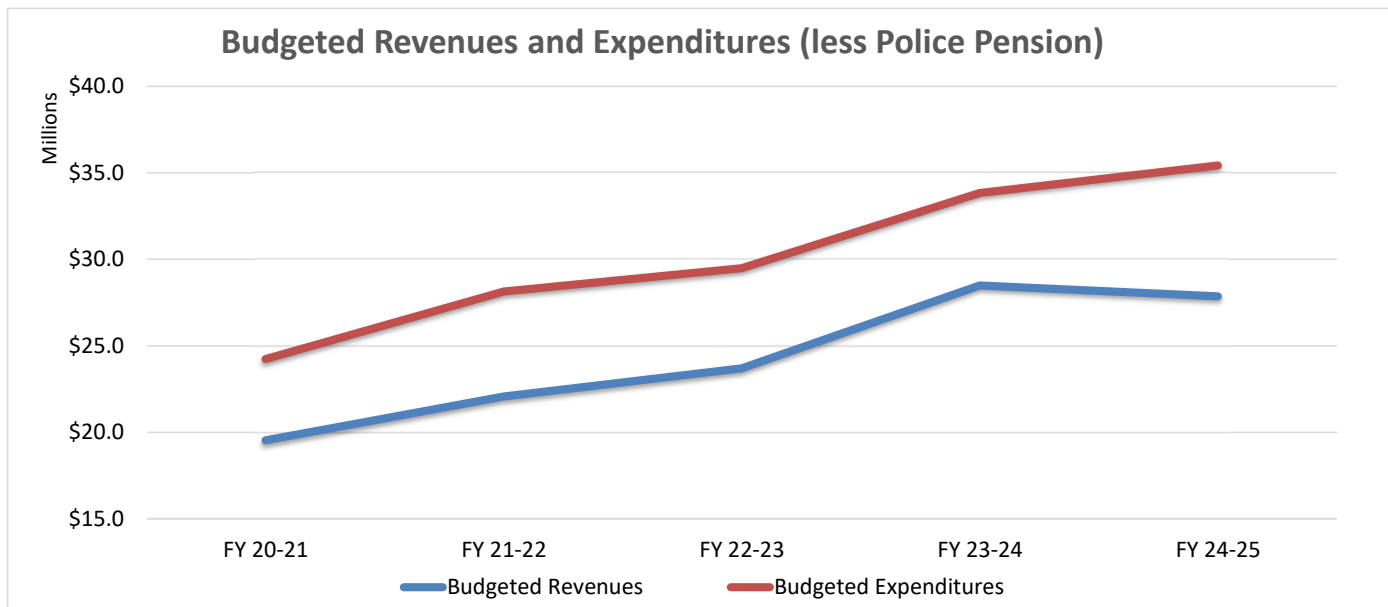

1. Capital outlay and expenditures within the proprietary fund-types are capitalized and recorded as assets on a GAAP basis (if the threshold is met), but expensed annually on the budgetary basis. In addition, depreciation expense is not shown on the budgetary basis for the proprietary fund-types since capital outlay is expensed and not depreciated. The budgetary basis provides a more accurate description of the actual capital outlays and cash flows made and planned for during the year for the proprietary fund-types.
2. Loan/bond proceeds in Enterprise funds are shown as revenues for the budgetary basis, and assets on a GAAP basis. Likewise, principal payments are shown as expenditures on a budgetary basis but reflected as a decrease in long-term debt payable on a GAAP basis. Under GAAP, loan/bond proceeds for proprietary funds would be shown as an asset and offset with long-term debt payable. Interest payments are shown as expenditures when due during the year whereas under GAAP interest is accrued to the amount payable at the end of the year.
3. Reimbursements from Other Funds which are normally shown as a reduction of expenditures on a GAAP basis are shown as a revenue source to that fund on the budget basis.
4. Pension expense and OPEB expenses are shown as expenses on the GAAP basis in proprietary fund-types but are not shown as expenses on the budgetary basis.

Summary of All Funds

Fund	Projected Fund Balance As of 5/31/24	FY 24-25 Budgeted Revenues	FY 24-25 Budgeted Expenditures	Revenues Over/(Under) Expenditures	Projected Fund Balance As of 5/31/25
General	\$ 9,318,820	\$ 15,514,090	\$ 15,463,280	\$ 50,810	\$ 9,369,630
Motor Fuel Tax	2,120,044	859,000	1,548,500	(689,500)	1,430,544
Route 31 TIF	773,193	340,000	808,050	(468,050)	305,143
United TIF	192,877	2,277,000	1,914,550	362,450	555,327
Insurance	352,644	385,000	427,750	(42,750)	309,894
Tourism	75,492	155,500	165,900	(10,400)	65,092
Special Service Areas	206,374	97,460	96,330	1,130	207,504
Sanitary Sewer	1,751,670	172,000	402,105	(230,105)	1,521,565
Capital Projects	13,668,278	2,833,500	5,720,500	(2,887,000)	10,781,278
Police Station Debt Service	297,492	638,675	638,675	-	297,492
Waterworks	9,126,271	3,919,755	7,218,785	(3,299,030)	5,827,241
Vehicle and Equipment Fund	1,828,471	671,505	1,030,225	(358,720)	1,469,751
Police Pension Trust	26,818,355	3,100,030	1,983,580	1,116,450	27,934,805
TOTAL ALL FUNDS:	\$ 66,529,981	\$ 30,963,515	\$ 37,418,230	\$ (6,454,715)	\$ 60,075,266
Less					
Police Pension Trust	\$ (26,818,355)	\$ (3,100,030)	\$ (1,983,580)	\$ (1,116,450)	\$ (27,934,805)
REVISED TOTAL:	\$ 39,711,626	\$ 27,863,485	\$ 35,434,650	\$ (7,571,165)	\$ 32,140,461

The following funds are projected to have fund balance changes greater than 10%:

Motor Fuel Tax - \$689,500 (31.8%) **decrease** projected due to the start of a major capital project.
Route 31 TIF - 468,050 (60.5%) **decrease** projected due to an equity transfer to the United TIF.
United TIF - \$362,450 (187.9%) **increase** projected due to an equity transfer from the Route 31 TIF and an increase in incremental property tax revenue.
Insurance - \$42,750 (12.1%) **decrease** projected due to the use of fund balance to cover insurance policy increases.
Tourism - \$10,400 (13.8%) **decrease** projected due to the use of fund balance to assist with North Aurora Days and fireworks.
Sanitary Sewer - \$230,105 (13.1%) **decrease** projected due to sanitary sewer improvements and televising.
Capital Projects - \$2,887,000 (21.1%) **decrease** projected due to road improvements, Public Works facility planning, and facility improvements.
Waterworks - \$3,299,030 (36.1%) **decrease** projected due to various capital projects that were delayed in prior years.
Vehicle and Equipment - \$358,720 (17.7%) **decrease** projected due to the delay of vehicles ordered during FY 23-24 and related outfitting.

Major Revenue Descriptions and Analysis

GENERAL FUND

Property Taxes

Property Taxes represent approximately 17.2% of General Fund revenues. The Village is a non-home rule municipality and is also subject to the Property Tax Extension Limitation Law (PTELL). As such, the Village is limited in the amount of the increase in property taxes the County will extend over last year's total extension to the annual increase in the rate of inflation based on the increase in the Consumer Price Index (CPI-U) for the previous year or 5.0%, whichever is lesser. However, the Village is allowed to "capture" the value of new construction within the tax cap formulas so the actual increase in total property taxes that is extended includes the assessed valuation of new construction. The graph below shows the history of the CPI as it is applied to the allowable increase in property taxes, as well as a three-year average of the CPI. The most recently confirmed CPI is 3.4%, which will be eligible for consideration to be included in the future 2024 levy, to be collected in FY 2025-26.

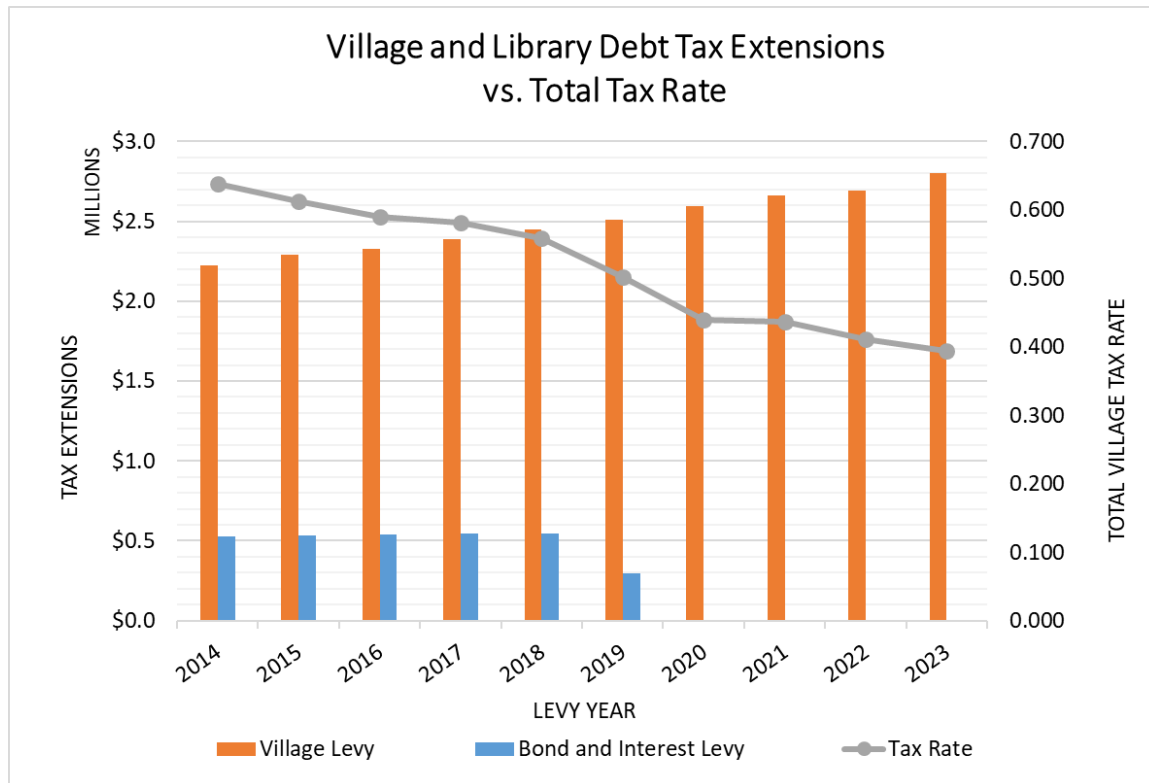

The following chart shows a history of the Village's tax rate versus the amount of property taxes extended by the County for both Village operating, and the bonds and interest for the Messenger Public Library. Increases and decreases in the equalized assessed value of property within the Village by the townships and County impact what the actual calculated property tax rate. As property values have stabilized and begin increasing within the Village the actual property tax rate has begun to decrease once again. This is reflected in the following chart as the gradual increases in the Village's EAV starting in 2015 resulted in an overall more stable property tax rate that is decreasing.

For FY 2024-25 (based on the 2023 levy), \$2,491,700 in property tax revenue is budgeted in the General Fund from the various individual levies that support general village services, such as police

Major Revenue Descriptions and Analysis

protection, public works, and pension obligations, and \$295,000 is budgeted in the Insurance Fund to support the costs of liability and workers' comp coverage. The property tax levy to pay for bonds and interest ceased after the 2019 levy as the final payment was made on the GO Library bonds during FY 2020-21.

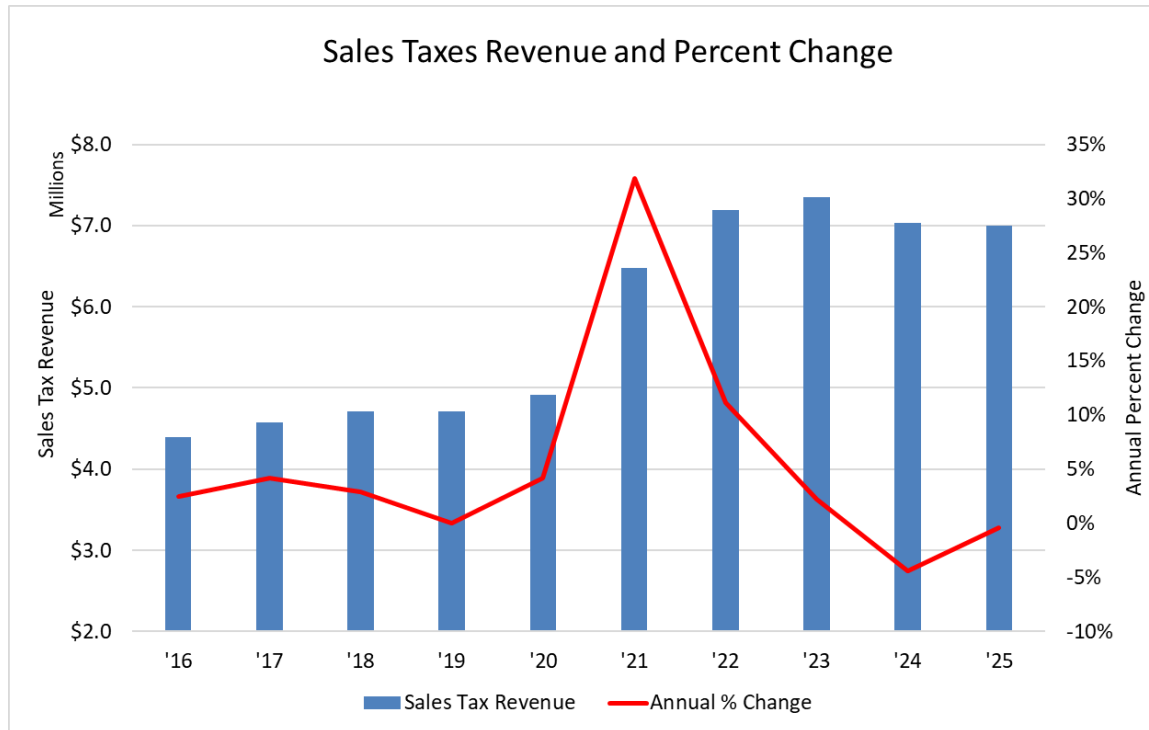

Sales Taxes (1% Municipal Share and 3% Local Cannabis Tax)

The Village directly receives 1.00% of the 6.25% State sales tax on general merchandise (or 1% of gross sales). In addition, the Village receives 100% of the revenue generated by the 1.00% State sales tax on food and qualifying food and drugs (also 1% of gross sales). The revenue received is based on sales made within the Village and is allocated to the General Fund. The total sales tax rate within the Village for general merchandise is 7.5%, titled vehicles is 7.0%, and qualifying food and drugs is 1.75%.

The Village has also passed a 3.0% sales tax on recreational cannabis that became effective July 1, 2020. Amounts from this tax is combined with sales tax and is reflected in the budgeted numbers and history.

Sales taxes represent approximately 45.1% of General Fund revenues. The following chart shows a history of the gross sales tax collections. The chart below shows sales tax revenue for the last eight actual fiscal years, current fiscal year 2023-24 projected, and budgeted year 2024-25. A portion of the sales taxes shown below are rebated to businesses and developers per various rebate agreements. The rebates, budgeted for next year to be \$395,000, total approximately 5.6% of the total sales tax revenues budgeted to be received next year.

Major Revenue Descriptions and Analysis

Sales tax revenue has increased steadily over the last 14 years since the great recession. The current year projection for FY 2023-24 reflects a decrease in total sales tax revenues from FY 2022-23 of \$323,562, or 4.4%, due to an overall softening of the economy. For the 2024-25 Budget, sales taxes are projected to slightly decrease due to a projected declines as the economy adjusts back to a more normal, traditional allocation of sales activity, new and used car sales begin to level off, and new cannabis dispensaries in other towns begin to open which will start to decrease sales from the dispensary within North Aurora. FY 2024-25 total sales tax revenues are expected to decrease to \$6,998,000, down \$29,400, or 0.4%, from the FY 2023-24 projected amount.

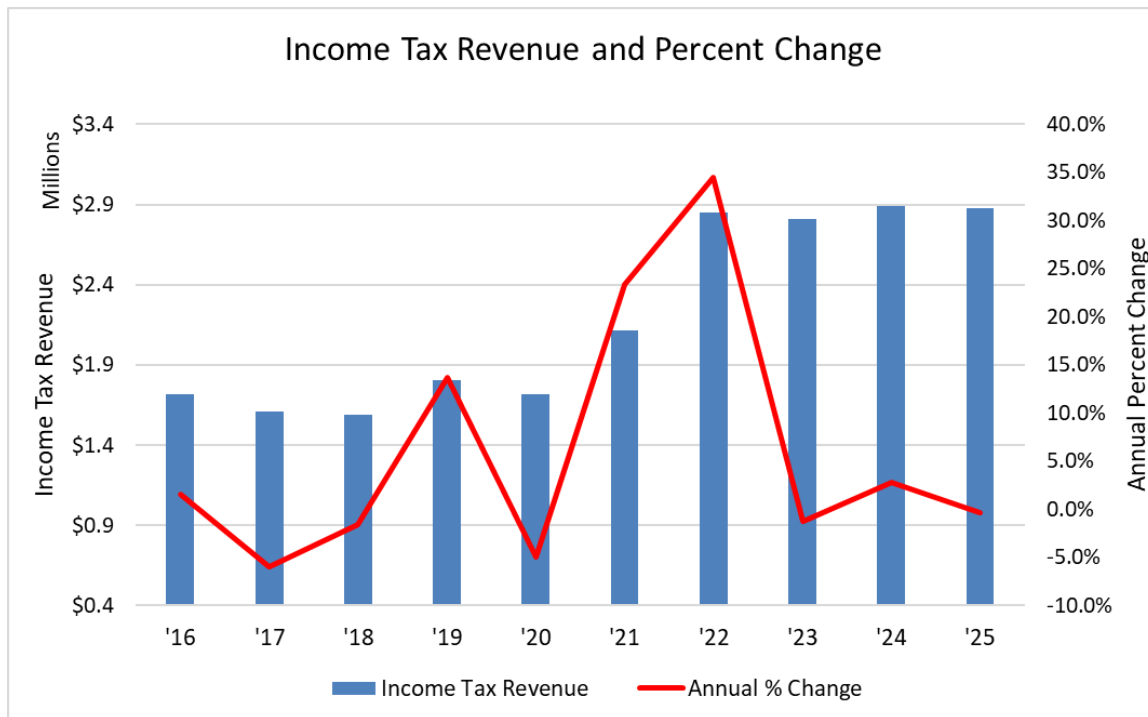

Income Tax

The State of Illinois maintains an income tax on individuals and corporations. This income tax was increased by the State effective July 1, 2017 from 3.75% to 4.95% for individuals and 5.25% to 7.00% for corporations.

Historically, the State has shared its income tax revenue collections with municipalities and counties by distributing a portion of it into the Local Government Distributive Fund (LGDF) which are distributed to municipalities and counties based on their percentage of the State's official census population (per capita). Prior to 2011, the amount that went into the LGDF was 10% of the total collections (when the individual rate was 3.0% and the corporate rate was 4.8%). When the income tax rate was increased in 2011 and then partially allowed to automatically decrease in 2015 the LGDF share was also adjusted so that no additional revenue derived from the income tax revenue changes went into the LGDF. Effective with the new income tax rate of 4.95% for individuals and 7.0% for corporations the percentage deposited to the LGDF is shown in the table below:

Major Revenue Descriptions and Analysis

<u>State Income Tax Rate</u>	<u>2010</u>	<u>2011</u>	<u>2015</u>	<u>2017</u>	<u>2023</u>
Individual	3.00%	5.00%	3.75%	4.95%	4.95%
Corporate	4.80%	7.00%	5.25%	7.00%	7.00%
<u>LGDF Share</u>					
Individual	10.00%	6.00%	8.00%	6.06%	6.47%
Corporate	10.00%	6.86%	9.14%	6.85%	6.85%

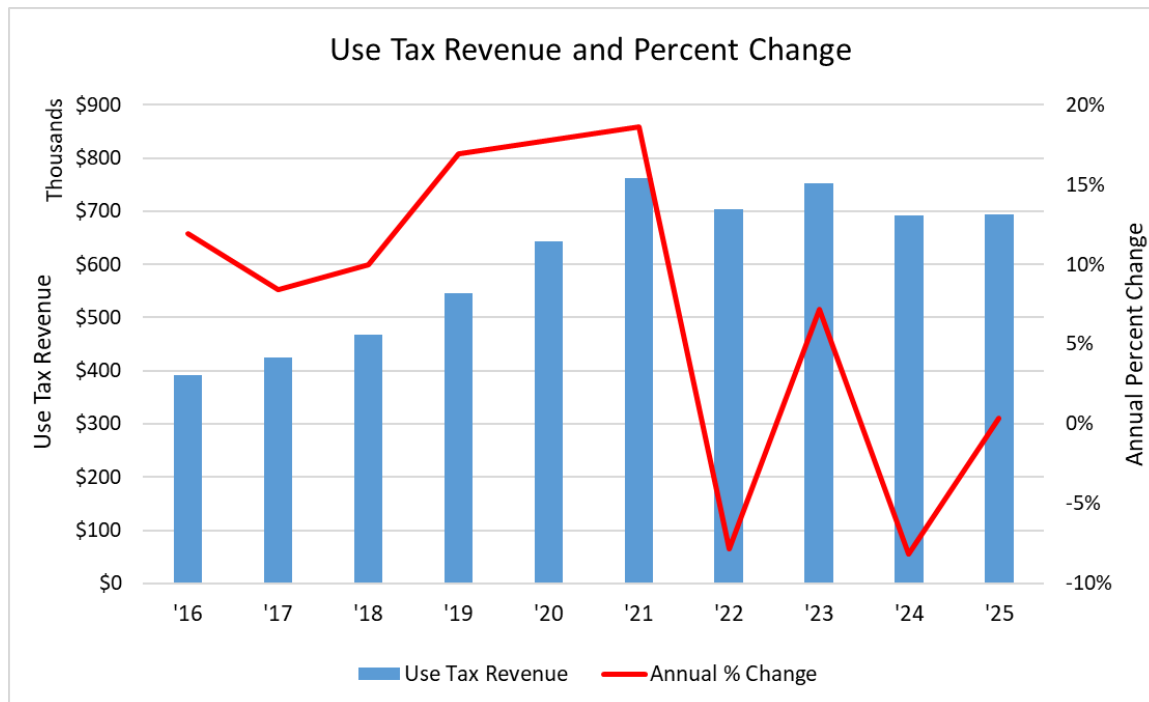

There are no restrictions on the types of expenditures that a municipality may fund with their share of income tax revenues. This is a very elastic revenue source that fluctuates significantly based on the performance of the national economy and local share allocations by the State of Illinois. Revenues for the 2024-25 budget are projected at \$2,878,000, an increase of \$239,000, or 9.1%, from the 2023-24 budget. The 2024-25 Budget represents an increase of \$19,600, or 0.7%, from the 2023-24 projected revenue of \$2,858,400. Over the past several months, income tax revenue has seen many strong factors: an improving labor market, strong corporate income tax receipts, and higher than expected individual tax payments.

Use Tax

Use tax is the sales tax a purchaser owes on items that are purchased for use in Illinois. If the seller of an item does not collect at least the 6.25% sales tax, the purchaser must pay the difference to the Illinois Department of Revenue as part of their annual personal tax return. Historically, the most common purchases in which the seller does not collect the tax owed are purchases made over the Internet, mail order catalogs, or items purchased out of State at a lower rate than what would have been charged in Illinois. Use tax revenue collected by the State is then distributed to municipalities on a per capita basis, based on the official population of the municipality from the last Census.

Major Revenue Descriptions and Analysis

In 2010, Illinois passed a law making it easier for individuals to report unpaid use tax on their tax return to enhance self-reporting. This law began to significantly increase use tax revenue collections and subsequent distributions to municipalities. In 2015, Amazon and other e-commerce companies began collecting sales tax from on-line purchasers in the State due to having a physical presence in the State, which continued to increase use tax collections. The 2018 Supreme Court decision in South Dakota vs. Wayfair resulted in the State passing legislation effective October 1 requiring any out-of-state retailer with a sales volume over a certain threshold to begin collecting use tax.

The “Leveling the Playing Field for Illinois Retail Act,” effective January 1, 2021 requires out-of-state retailers to pay the 6.25% Retailer’s Occupation Tax plus any locally imposed sales taxes instead of the 6.25% use tax which is distributed by the State on a per capita basis. The net effect has resulted in a decrease in use tax revenue, but the Village has started to see destination based 1% sales tax collections from sellers such as Amazon, eBay, and Etsy.

Additional efforts by the State to collect applicable use tax are being made. These increased efforts at collection, and a continuing, greater shift in people purchasing on-line versus traditional retail are continuing to result in significant increases in use tax remitted to the Village on an annual basis.

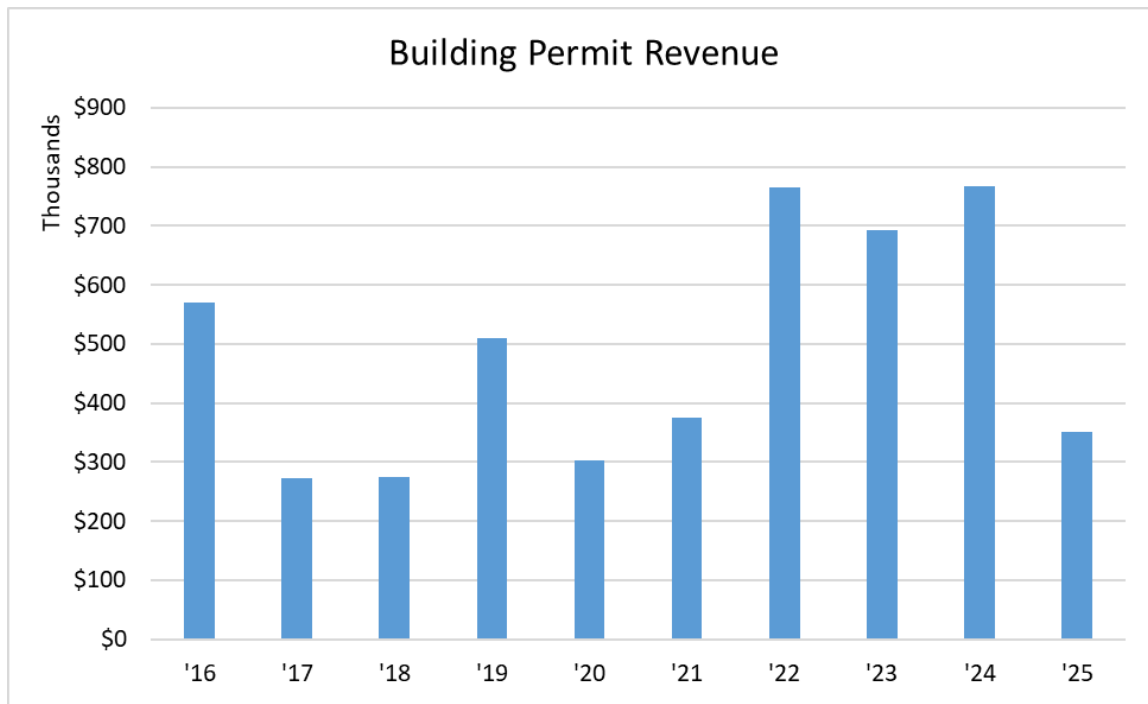

Use tax collections have been volatile over the past few years due to law changes. Use tax collections increased significantly during the pandemic due to online sales, but has seen a decrease recently due to the “Leveling the Playing Field for Illinois Retail Act”. Revenues for the 2024-25 budget are projected at \$694,000, a decrease of \$18,000, or 2.5%, from the 2023-24 budget. However, the 2024-25 budget represents an increase of \$2,500, or 0.4%, from the 2023-24 projected revenue of \$691,500.

Major Revenue Descriptions and Analysis

Building Permits

Building permit revenue varies considerably based on the number and pace of residential and commercial development as the chart below illustrates.

During years 2014-15 and 2015-16, building permit revenue increased significantly due to completion of several residential subdivisions, completion of several industrial warehouse buildings, a new apartment complex in the Village, and roof and siding replacements due to major hail storm event. Revenue for 2016-17 and 2017-18 reflected a year with consistent residential and commercial activity but nothing out of the ordinary. For the 2018-19 fiscal year, revenue was \$509,152 due to one-time revenues related to a hail storm event, large commercial projects and continued residential build-out. Revenue for 2019-20 and 2020-21 also reflected years with consistent residential and commercial activity, but no significant permits issued due to the COVID-19 pandemic. Revenues for the FY 2021-22 came in at \$764,807 due to a significant commercial permit issued and the Lincoln Valley subdivision construction. Permit activity for FY 2022-23 was another strong year due to the continuation of the Lincoln Valley subdivision and Seasons apartment complex. FY 2023-24 is projected to be another strong year as the Opus Valley Green redevelopment continues, construction of the Park 88 development, and continued residential development. Revenue for FY 2024-25 has been budgeted conservatively at \$350,000, but could surpass this amount depending on potential development projects.

Utility Tax – Telecommunications

The Village has a 4.0% telecommunication tax on all telecommunications services. Of this tax, 1.0% used to be allocated to the General Fund to support general operations and 3.0% was allocated to the Capital Projects Fund for local road improvements and other infrastructure projects. This allocation

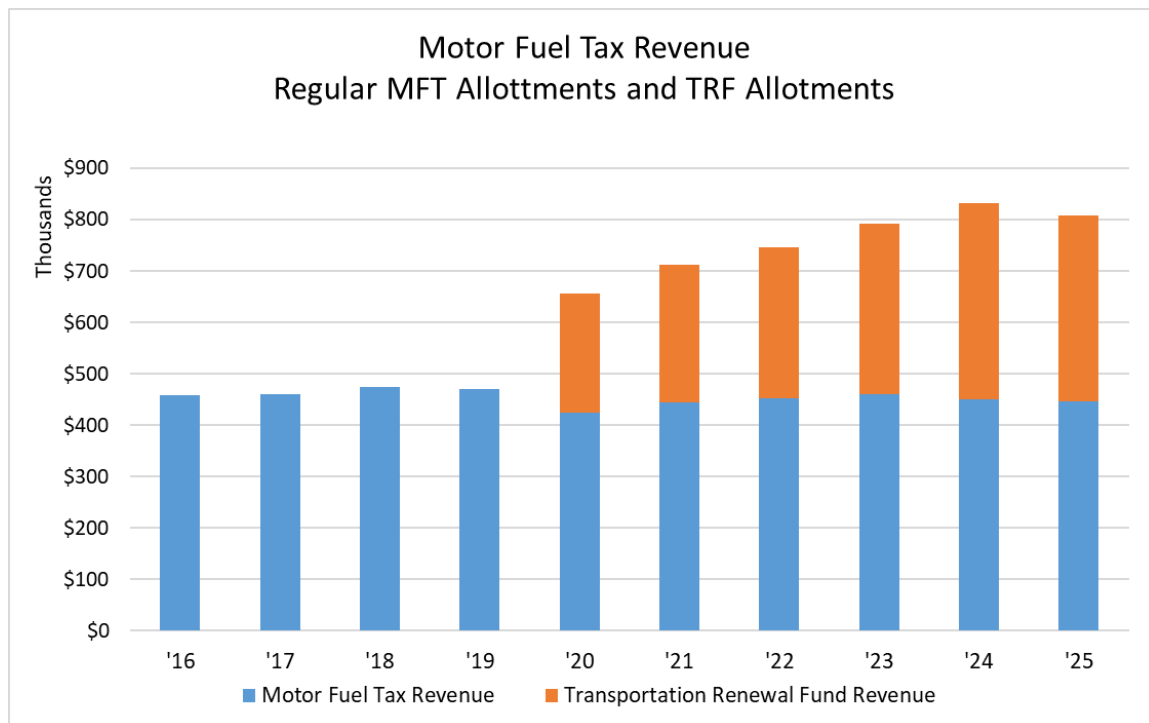

Major Revenue Descriptions and Analysis

was temporarily reallocated for FY 2018-19 and FY 2019-20 as follows: 1.5% in the Capital Projects Fund and 2.5% in the General Fund. In order to provide greater flexibility for use of the funds, the entire 4.0% telecommunications tax began to be allocated to the General Fund beginning in FY 2020-21. The maximum rate for this tax allowed by State statute is 6.0%. Revenues from this tax in total have been steadily decreasing over the last few years as the price of telecommunication services decreases due to competition, business consolidation, and technological advances. Revenues are projected to be \$120,000 in the 2024-25 budget, a decrease of \$6,750, or 5.3%, from current year projected revenue.

MOTOR FUEL TAX FUND

Motor Fuel Tax

The State historically collected a 19-cent tax on gasoline and 21.5 cent tax on diesel fuel. A portion of this revenue is distributed to municipalities on a per capita basis. Effective July 1, 2019, the State increased the taxes from 19 cents to 38 cents per gallon of gasoline and 21.5 cents to 45.5 cents per gallon of diesel. The State also established the Transportation Renewal Fund (TRF) to account for the new tax rate increases. Per law, municipalities receive 26.71% of the net MFT receipts that were historically collected while receiving 15.71% of the TRF receipts. The municipal share of TRF receipts will be distributed in a similar manner as a separate payment to municipalities and increase the monies available for eligible costs and projects. Increases and decreases in the consumption of gasoline affect the total revenues collected by the State and the amount subsequently distributed to municipalities on a monthly basis. Increases in the official population count of the Village through a census will increase the Village's share of its revenue.

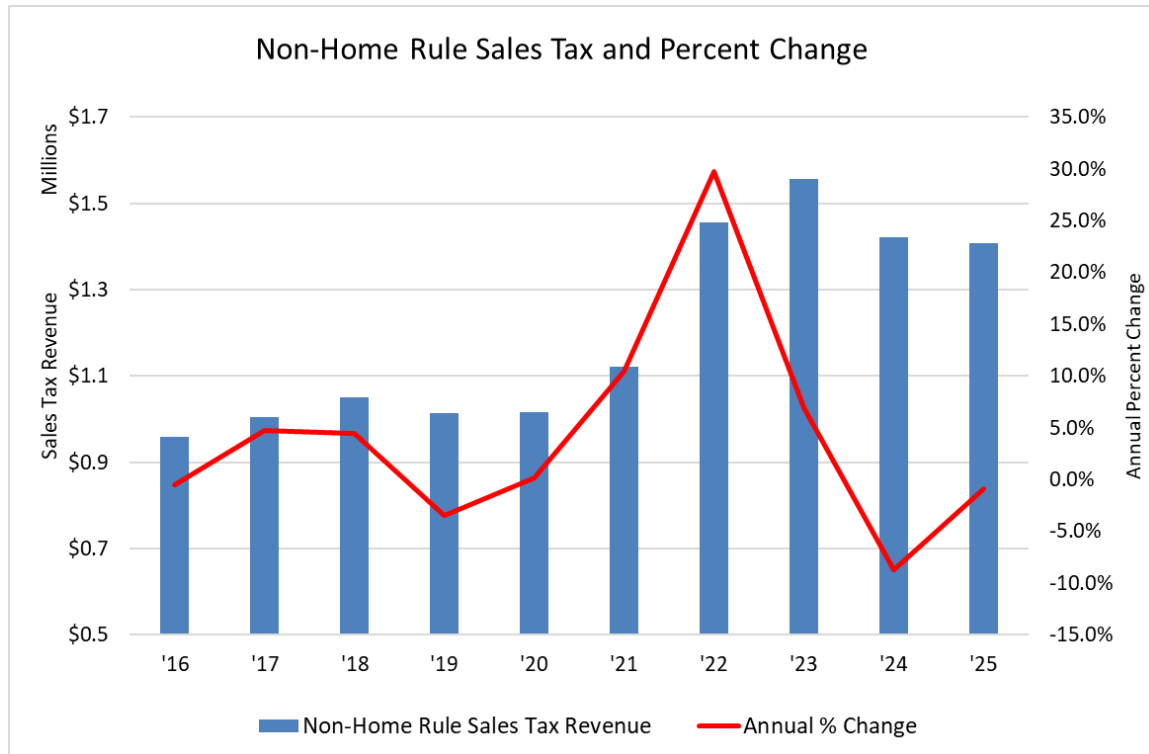

Major Revenue Descriptions and Analysis

The chart provides a history and projection of MFT revenue. Revenues (both the regular MFT allotments and the new TRF distributions) for FY 2023-24 are projected to be \$831,850. For FY 2024-25, revenue is expected to decrease to \$809,000, a reduction of \$22,850, or 2.7%. These projected estimates have significant variability to them due to the current process by which certain expenditures, payments, and transfers are made out of these funds by the State prior to distribution to municipalities.

CAPITAL PROJECTS FUND

Non-Home Rule Sales Tax

Effective January 1, 2004, the Village implemented a non-home rule sales tax of 0.50% on general merchandise. The tax was approved via a referendum. The tax is not applicable to sales of food not prepared for immediate consumption, prescription drugs, and titled vehicles. Proceeds from this tax are restricted for public infrastructure and other purposes as defined by Statute.

For the FY 2024-25 budget, revenue is projected at \$1,408,000, a slight decrease of \$4,000, or 0.3%, as the economy adjusts back to more normal, traditional retail sales activity due to the current interest rate environment.

Utility Tax – Electricity and Gas

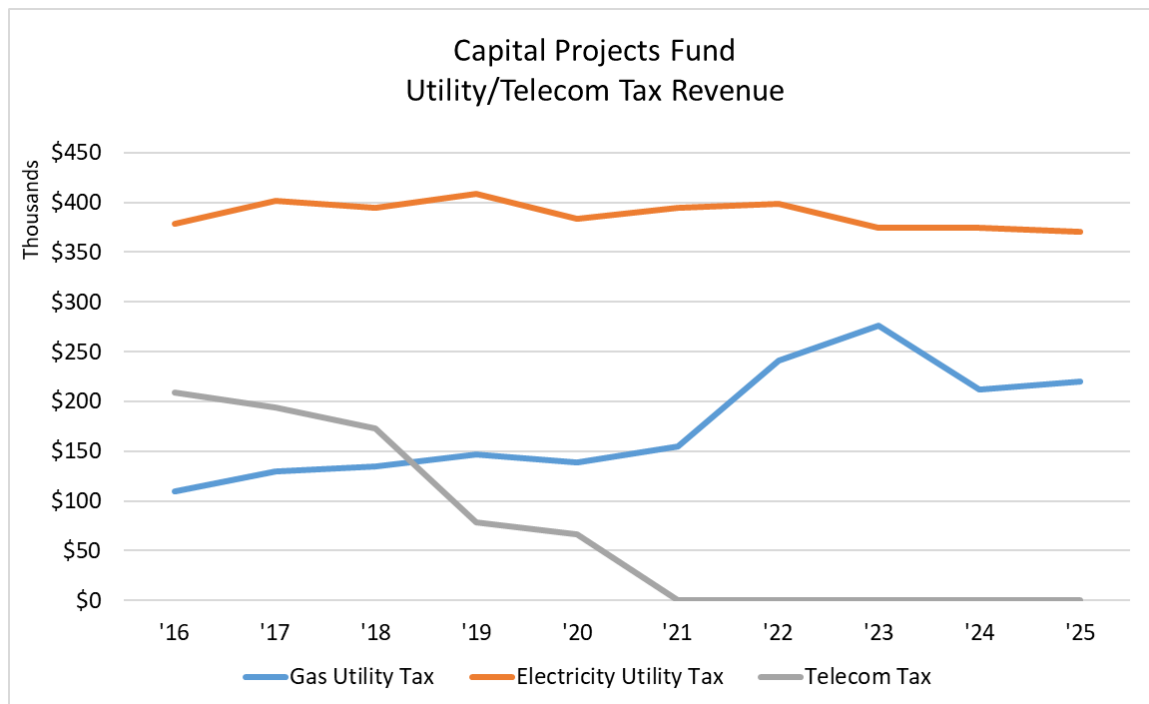

The Village implemented a 1.50% utility tax on electricity and gas on April 1, 2004 in order to fund road and related improvements within the Village. Based on updates to the long-term road and infrastructure program, the tax was increased to 3.0% in 2009. Both taxes are formally committed by the Village Board for roads, infrastructure and capital projects. The tax on natural gas is based on the

Major Revenue Descriptions and Analysis

gross receipts and is influenced significantly by increases and decreases in the price of natural gas. The tax for electricity is based on the number of kilowatt-hours used and is actually not a percent-based tax but a cents per kilowatt-hour used tax based on a total percent-equivalency from 1999 as follows:

<u>Monthly Kilowatt-Hours Used</u>	<u>Cents Per Kilowatt-Hour</u>
For the 1 st 2,000 kilowatt-hours used	0.334
For the next 48,000 kilowatt-hours used	0.220
For the next 50,000 kilowatt-hours used	0.198
For the next 400,000 kilowatt-hours used	0.192

For FY 2024-25, revenues from the electricity tax are budgeted to be \$370,500, a slight increase of \$4,400, or 1.2%, from the FY 2023-24 projected revenue. Variances occur year to year due to weather extremes, i.e. a hot or mild summer. Revenue from the gas tax are budgeted to be \$220,000 in fiscal year 2024-25, up \$8,300, or 3.9%, from the FY 2023-24 projected revenue. Gas tax is also variable from year to year depending on natural gas costs and weather. The chart below reflects the reallocation of the Telecommunications tax to the General Fund (partially in '19 and '20 and fully reallocated to the General Fund in '21 as described earlier in this section.

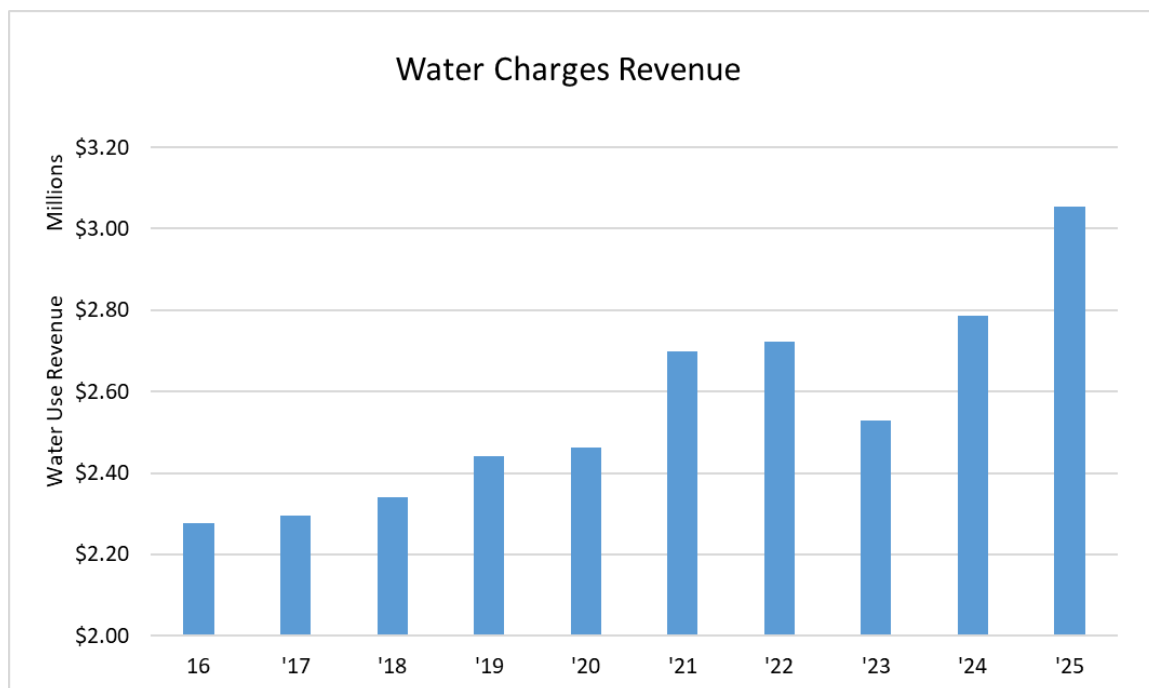

Major Revenue Descriptions and Analysis

WATER FUND

Water Collections

The Village charges bi-monthly for water use within the Village to support the operations, capital improvements, and debt obligations of the Water Fund. The FY 2024-25 Budget includes a proposed water rate increase of 12.5% effective June 1, 2024, increasing the water usage charge from \$4.26 to \$4.79 per 1,000 gallons for all usage over 3,000 gallons bi-monthly.

The FY 2024-25 budget projects revenue of \$3,054,500, an increase of \$269,500, or 9.7%, over the FY 2023-24 projected revenue. The increase in revenue reflects the proposed 12.5% water rate increase effective June 1, 2024. Revenues vary annually based on water use, which is typically affected by the temperature, amount of rainfall during the summer months, and operations of large commercial users. Revenue in FY 2023-24 is projected to be lower than budgeted due to less water being billed to customers.

Transfers and Reimbursements

Below is a summary of interfund transfers budgeted for fiscal year 2024-25. Transfers are one-time payments between funds that are not expected to be repaid in the future.

Fund Transferred From	Fund Transferred To	Amount	Purpose
General	Capital Projects	\$ 400,000	Fund capital expenditures
General	Police Station Debt Service	627,725	Fund annual debt obligation
		<u>\$ 1,027,725</u>	

Below is a summary of interfund reimbursements budgeted for fiscal year 2024-25. Reimbursements are made to pay back funds for general administrative costs.

Fund Reimbursed From	Fund Reimbursed To	Amount	Purpose
Sanitary Sewer	General	\$ 51,015	Personnel and other administrative costs
Sanitary Sewer	Water	16,385	Personnel and other administrative costs
Special Service Areas	General	9,975	Personnel and other administrative costs
Waterworks	General	228,000	Personnel and other administrative costs
General	Vehicle and Equipment	518,760	Future capital purchases
Sanitary Sewer	Vehicle and Equipment	21,705	Future capital purchases
Waterworks	Vehicle and Equipment	61,040	Future capital purchases
Waterworks	Insurance	40,000	Liability insurance coverage
Sanitary Sewer	Insurance	6,000	Liability insurance coverage
		<u>\$ 952,880</u>	

Long-Range Financial Summaries

The Long-Range Financial Summaries are intended to provide the community with a future projection of the Village's financial condition for each of the funds that comprise the budgetary financial structure of the Village. These projections assume the continuation of current service levels and maintaining those levels in all future years presented. As a result, future years may include losses or deficit balances. The forecast provides a foundation for discussion and policy decisions the Village may face in the future.

Each fund in the Village's financial structure is a separate financial entity. The presentation for each fund includes a summary, revenue projections, a general long-range operating budget, and a capital improvement program, if applicable. The Capital Improvements Program focuses on all vehicles and all capital items that are over \$5,000. The summary for each fund reflects the revenue and expenditure projections and presents a rolling five-year operating statement, beginning with fund balance as of June 1, 2023 as reported in the audited financial statements as of May 31, 2023.

GENERAL ASSUMPTIONS

The principal assumptions for the Long-Range Financial Summaries involve rates for general goods and services inflation, personnel inflation (salaries and fringe benefits), investment interest rates, the rate of growth in sales tax base (the principal revenue source of the Village), and projected increases for other revenue sources. The general assumptions used include:

- Inflation for the purchase of goods and services and operational and contractual services are projected at 2.5% to 3.5%.
- Personnel inflation (including salaries, benefits, pension) is factored at a 3.5% increase per year.
- Interest earnings on invested funds range from 0.2% to 2.0% annually, depending upon the fund, the type of investment utilized, and length of investment.
- Sales tax receipts are projected to increase 1.5% annually. Receipts from the non-home rule sales tax are projected using the same assumptions as the growth in general sales tax receipts. The Village's sales tax base is also adjusted in years where we have identified businesses entering or leaving the Village.
- Most other revenue sources are projected to increase from 0.0% to 3.0% each year.

In future projected years, the long-range operating budget projections are adjusted by an experience factor intended to consider normal positive variances in expenditures across the hundreds of accounts that make up the Village's financial structure and to partially offset the effects of compounding of the inflation assumptions in the later years.

Long-range capital expenditures are projected based on current plans. Projections may vary from year to year due to changes in priorities, funding sources, or delays in projects. Any changes to the long-term capital plan will be updated in subsequent budget documents.

Capital Overview

The Village maintains a long-term capital plan for facilities, infrastructure, and vehicles. Each year, the Public Works department works with the Finance department to determine how capital expenditure requests align with revenue estimates. Although capital requests are tentatively planned for the next several years, only the projects scheduled to happen in the current year of the plan are budgeted for. Future capital projects are subject to change during subsequent budget processes as more information becomes available and projected resources are determined. Common capital priorities (in general order of importance) are: life safety, preventive maintenance, operating cost reduction, basic comfort, and aesthetic improvement.

The Village makes every effort to meet its capital needs each year. The cost of a project is weighed against the impact that doing nothing would have on public safety and services. The cost of not funding capital needs on schedule often leads to increased maintenance costs and staff time in the future.

The Village's intention is to fund capital expenditures with current revenue sources or available fund balance/net position. Capital projects planned in the FY 2024-25 budget are funded with current year revenues and reserve balances (pay as you go).

Impact on Operating Budget

There is a direct correlation between the Village's capital improvement plan and its annual operating budget. Capital projects are evaluated based on any additional costs or savings that would be added to future operating budgets. Any future operating costs or savings from a capital project are normally captured within the user department's operating budget. Typically, any annual recurring projects would have a nominal effect on future operating budgets.

For example, replacing an existing vehicle with a comparable vehicle should not have a significant impact on future budgets. In fact, replacing an old vehicle may actually reduce the operating budget, as a newer vehicle will require less maintenance and repairs in the near term. However, adding a new vehicle and increasing the fleet size would result in increased maintenance costs and staff time to perform routine servicing of the vehicle. Similarly, annual street repaving projects or water main replacement projects may save money on maintenance in future operating budgets as less will be spent fixing potholes or repairing water main breaks. Building or acquiring a new facility would result in increased operating costs related to supplies, maintenance, or utilities.

Vehicle costs include purchase price and related outfitting. Replacement assumptions were made based on current vehicle life. Actual replacements will likely vary in future years depending on actual vehicle conditions.

Equipment purchases vary from year to year. Estimates were used in future years based on historical annual spends.

Long-Term Capital Improvement Program

Project Description Worksheet

Project Number

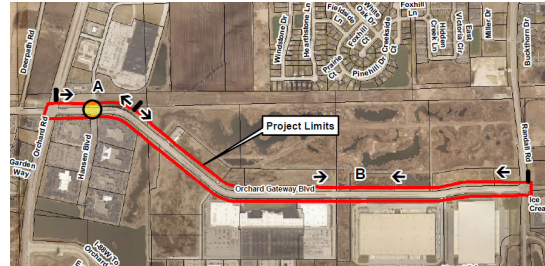

CIP-1

Project Name

Orchard Gateway Blvd. Roadway Improvements

Location

Orchard Gateway Blvd. (Orchard Rd. to Randall Rd.)

Project Scope

The project includes pavement rehabilitation of Orchard Gateway Boulevard from Orchard Road to Randall Road. The scope also includes the installation of a traffic signal and roadway widening at the intersection of Hansen Boulevard and Orchard Gateway Boulevard. Additional work in the program may include storm sewer repair, curb repair/installation and sidewalk repair/installation.

Justification & Comments

Orchard Gateway Boulevard will be due for pavement rehabilitation based on the existing and expected deterioration. At the intersection of Hansen Boulevard and Orchard Gateway Boulevard there is an existing four-way stop which experiences heavy traffic volume and has had a significant amount of accidents the past few years. A traffic signal is warranted for this intersection which will help improve traffic flow as well as safety.

Impacts on Operating Budgets

This project is not anticipated to significantly impact the annual operating budget and will prevent future road maintenance repairs.

Cost & Funding

Project Costs	2024-25	2025-26	2026-27	2027-28	2028-29	Total

Long-Term Capital Improvement Program

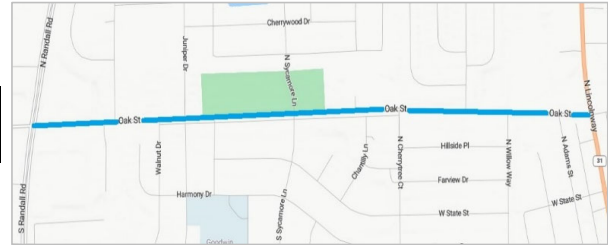

Project Description Worksheet

Project Number

CIP-2

Project Name

Oak Street Resurfacing

Location

Route 31 to Randall Road

Project Scope

The project includes the resurfacing of the pavement from Lincolnway (IL 31) to Acorn Drive to maintain a smooth surface on a high volume traffic corridor. The length of the project is 5,015 linear feet and an urban cross section width of approximate 43 feet measured back of curb to back of curb. The project will include restriping of the pavement, minor curb and gutter and sidewalk repairs, the adjustment and the repair of sanitary, storm, and water structures as they are encountered. At the conclusion of the project all disturbed areas will be restored.

Justification & Comments

The Oak Street corridor has an ADT average daily traffic volume of 11,850 vehicles. It is important to maintain the pavement on a scheduled basis to avoid the higher costs of a full reconstruction.

Impacts on Operating Budgets

This project is not anticipated to significantly impact the annual operating budget and will prevent future road maintenance repairs.

Cost & Funding

Project Description Worksheet

Project Number

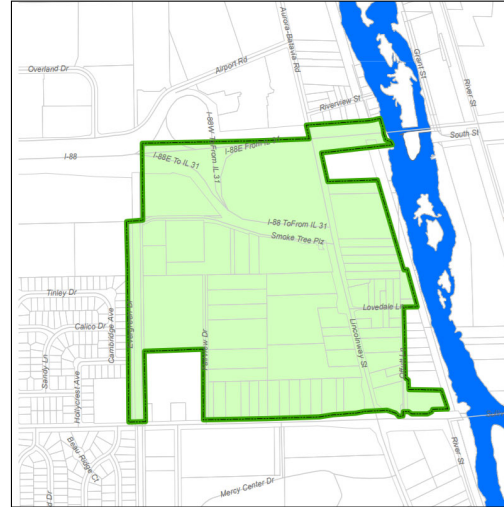

CIP-3

Project Name

Property Purchases

Location

Areas within the Rt. 31 TIF

Project Scope

As various properties and land become available within the TIF, the Village considers purchasing for future redevelopment. Funds are designated each year for the acquisition of property within the TIF should anything become available.

Justification & Comments

Redevelopment of the area will lead to increased property values, new businesses, and potential revenue sources for the Village.

Impacts on Operating Budgets

The purchase of property may result in costs associated with appraisal and maintenance, depending on the acquisition.

Cost & Funding

Project Costs	2024-25	2025-26	2026-27	2027-28	2028-29	Total

Long-Term Capital Improvement Program

Project Description Worksheet

Project Number

CIP-4

Project Name

Intersection of Airport Road/Route 31

Location

Intersection of Airport Road/Route 31

Project Scope

The intersection geometrics have been redesigned to accommodate the appropriate curves at the intersection corners, which will allow for additional clearance between the turning trucks, edge of pavement and opposing traffic. The adjacent sidewalk will need to be modified to maintain both pedestrian crossing across IL Route 31 and the bus stop pad. With the extension of the sidewalk a new pedestrian crossing can be implemented across Airport Road. The geometric improvements to the intersection will require that the existing traffic signal be modified. Most of the existing signal will not be reused and the existing installation does not meet the current IDOT of federal signal head standards, all new equipment should be used.

Justification & Comments

The subject intersection is signalized where Airport Road tees into IL Route 31 (from the west). Airport Road indirectly connects with Randall Road through the use of Alder Dr. The intersection serves the Tollway Park of Commerce and PACE bus route 802 which runs on Airport Road and IL Route 31. The intersection geometrics do not allow for fluid movement of truck traffic to/from IL Route 31. More specifically, the eastbound to southbound right-turn for semi-trucks cannot be made if there are vehicles present in the northbound left turn lane. Semi-trucks cannot make the northbound left turn from IL Route 31 to westbound Airport Road if vehicles are queued in the eastbound left turn lane.

Impacts on Operating Budgets

This project is not anticipated to significantly impact the annual operating budget.

Cost & Funding

Project Costs	2024-25	2025-26	2026-27	2027-28	2028-29	Total

Long-Term Capital Improvement Program

Project Description Worksheet

Project Number

CIP-5

Project Name

Route 31 Sidewalk Extension

Location

Various Locations along Route 31

Project Scope

The project entails the installation of concrete sidewalk along Route 31 in locations where gaps exist. This also includes restoration of grass and paved areas adjacent to the sidewalk installation. Six gaps exist for a total length of 2,500 feet.

Justification & Comments

Route 31 through the Village has a significant amount of pedestrian activity due to the retail, restaurant, library, and senior housing along the corridor. At times pedestrians are seen walking in the street due to no existing walking routes along sections of the corridor. Though the roadway is under the jurisdiction of the State, they do not have funding for the installation of sidewalk along State routes. The Village installation the sidewalk will improve safety for pedestrians and improve access to Village businesses. Engineering is planned to be completed by Village staff.

Impacts on Operating Budgets

This project is not anticipated to significantly impact the annual operating budget.

Cost & Funding

CIP-6

Project Name

Property Purchases

Location

Areas within the United TIF

Project Scope

As various properties and land become available within the TIF, the Village considers purchasing for future redevelopment. Funds are designated each year for the acquisition of property within the TIF should anything become available.

Justification & Comments

Redevelopment of the area will lead to increased property values, new businesses, and potential revenue sources for the Village.

Impacts on Operating Budgets

The purchase of property may result in costs associated with appraisal and maintenance, depending on the acquisition.

Cost & Funding

Annual Road Program

Location

Various

Project Scope

The 2024 annual road program includes the pavement replacement of 19 streets for a total of 3.3 miles of improvements. The 2024 program includes the Windstone Place and Oak Hill subdivisions, as well as other miscellaneous streets throughout the Village. Each year, the Village reviews the condition of its street inventory and makes recommendations for replacement.

Justification & Comments

The purpose of the annual maintenance program is to maintain a safe and functional road network for emergency response vehicles, residents, visitors, and transportation of goods. Annual maintenance programs target streets in disrepair and rehabilitates them to a higher level of service.

Impacts on Operating Budgets

This project is not anticipated to significantly impact the annual operating budget and will prevent future road maintenance repairs.

Project Name

Police Department RTU Replacements

Location

Police Department

Project Scope

The 2024-25 budget includes the replacement of two roof top units at the Police Department facility. Future replacements are scheduled to occur based on condition and age.

Justification & Comments

Replacing Roof Top Units (RTU) on a planned schedule is part of preventative maintenance to ensure the HVAC system continuously functions properly at the police station.

Impacts on Operating Budgets

The future cost of breakdowns and emergency repairs is expected to decrease with newer units.

Boiler Replacement

Location

Police Department

Project Scope

This project would remove and replace the existing boiler to continue to provide a controlled environment in the Police Department.

Justification & Comments

The boiler is getting old and could fail at any time. The boiler is the critical component of maintaining a comfortable climate during cold weather.

Impacts on Operating Budgets

Replacement is expected to result in lower repair and maintenance costs.

HVAC System Replacement

Location

Village Hall

Project Scope

This project involves the replacement of the aging HVAC system within Village Hall.

Justification & Comments

The Village Hall HVAC system is nearing its replacement cycle. As the system has aged, it has become less reliable and is more prone to breaking down.

Impacts on Operating Budgets

Replacement is expected to result in lower repair and maintenance costs.

BAS Upgrades

Location

Village Hall, Police Department

Project Scope

The Building Automation System (BAS) is used to regulate the temperature in the Village Hall and Police Department. A new BAS would combine both systems into a platform that could be utilized by employees to examine both systems, regulate temperatures, and troubleshoot problems as they arise.

Justification & Comments

The BAS can be used by staff and contracted repair professionals to diagnose and resolve HVAC issues at public facilities remotely reducing the costs of on site service calls.

Impacts on Operating Budgets

This project may lead to reduced maintenance and utility costs in future operating budgets.

CIP-15

Project Name

Riverfront Park

Location

Between the Village Hall and Fox River Trail

Project Scope

On behalf of the Village, Teska and Associates created the Riverfront Park Landscape Master Plan in 2017. The enhancements are designed to help utilize the park for a community gathering space as well as offer amenities for passive recreational uses. The project includes options such as creating a public seating/viewing plaza, entertainment pavilion, boardwalk, pathways, public art improvements, hillside seating and upgrades to the Water Wonders feature currently in the park.

Justification & Comments

This project coincides with the Village's strategic plan goals to make improvements to Riverfront Park and create a community focal point near the Fox River. The park has been recently utilized for Independence Day Fireworks and North Aurora Days. Phase One of the Riverfront Plan includes the design and implementation of the park plaza, which is intended to create an enhanced entrance to the park a space that's mindful of the natural site features, with fluid lines meandering through the park connecting various nodes and comfort features. Features would include a fireplace, fishing pole holders, stone seat walls, tables and chairs and boulder outcroppings.

Impacts on Operating Budgets

The Village anticipates the maintenance costs for improvements to Riverfront Park to be approximately \$10,000 annually depending on the improvements and features to be included, as well as upkeep and maintenance, and annual costs could trend to be more.

Future Watermain Replacements

Location

Various

Project Scope

The Village annually reviews the condition of watermains and plans replacements based on the age and condition of existing watermains. Future replacement areas are still being identified as part of a water system master plan. Areas currently identified include: Aspen Ct. and Route 31 and Marvo St. valve replacement.

Justification & Comments

Watermains identified are close to the end of their useful lives and have a greater risk of failure.

Impacts on Operating Budgets

Normal replacement of aging watermains can lead to reduced emergency repair costs.

Project Name

Watermain Lining

Location

Clearwater Dr., Lovedale Ln., Offutt Ln.

Project Scope

The scope of the project includes the lining of the aged water main, replacement of water valves, fire hydrants, and restoration. To line the water main, an above grade temporary water service system is put in place by the contractor as they need to excavate access pits for televising, cleaning and then lining the water main.

Justification & Comments

The project has been approved for a grant from the Kane County Community Development Fund as a part of a Community Development Block Grant (CDBG).

Impacts on Operating Budgets

This project is not anticipated to significantly impact the annual operating budget and will prevent future watermain breaks.

River Crossing Water Main

Location

Fox River

Project Scope

Depending upon the outcome of a river crossing feasibility study and staff recommendations, the project could include the replacement of existing water mains, the installation of a new water main, or the lining of one or more of the existing water mains.

Justification & Comments

Study to determine method for replacement or rehabilitation of two of the Fox River water main crossings. The water mains crossing the Fox River are critical components of the water system as there are only three crossings total linking the east and west sides of the Village.

Impacts on Operating Budgets

This project is not anticipated to significantly impact the annual operating budget.

Project Description Worksheet

Project Number

CIP-25

Project Name

Water Well #9 Improvements

Location

Feltes Ln.

Project Scope

This project includes the pump and motor rehabilitation which is performed as recommended by diagnostic tests.

Justification & Comments

The pumps and motors in wells are pulled to the surface at regular intervals to perform maintenance and extend their useful life.

Impacts on Operating Budgets

Regular maintenance can help prevent future breakdowns and emergency repairs.

Project Name

East Treatment Plant Improvements

Location

Near Butterfield Road

Project Scope

Improvements scheduled for the East Treatment Plant include: replacement of poly tanks, flow meter replacement, and a HVAC unit.

Justification & Comments

These improvements are necessary to keep the treatment plant operating in a safe manner.

Impacts on Operating Budgets

This project is not expected to have a significant impact on future operating budgets.

Cost & Funding

Long-Term Capital Improvement Program

Project Description Worksheet

Project Number

CIP-28

Project Name

Central Water Tower

Location

Near Princeton Drive

Project Scope

This project entails the siting, engineering and construction of a new water tower. The additional water tower will improve the Village's fire flow capacity as well as the ability to store a sufficient supply of finished water. The additional storage of 750,000 gallons of water will increase the Village's storing capacity to 2.25 million gallons, allowing the Village to provide a 24 hour supply of water to users during an extreme event (current daily pumping is 1.8 million gallons per day).

Justification & Comments

The water tower will be painted with the same pattern that will be painted on the westside water tower which will feature the Village's new logo.

Impacts on Operating Budgets

The additional water tower will require electricity and other nominal operating costs estimated to be approximately \$10,000 a year. Approximately every 15-20 years inside/outside maintenance would be needed at approximately \$250,000.

Cost & Funding

CIP-29

Project Name

Water Tower Mixers

Location

East and West Towers

Project Scope

This project involves the installation of mixers in both the east and west water towers.

Justification & Comments

Installing mixers in the water towers will allow the Village to increase water levels within the towers without the water becoming stagnant. Increasing the water levels will result in increased water pressure.

Impacts on Operating Budgets

This project is not expected to have a significant impact on future operating budgets.

Long-Term Capital Improvement Program

Project Description Worksheet

Project Number

CIP-30

Project Name

East Water Tower Rehabilitation

Location

Near Butterfield Road

Project Scope

Periodically water towers need to be studied to determine the necessary maintenance operations need to be performed. The results of the study would provide recommendations on the necessary improvements which would primarily address the condition of interior and exterior coatings as well as preventive maintenance of mechanical systems.

Justification & Comments

Periodic maintenance is needed to extend the useful life of the water tower.

Impacts on Operating Budgets

This project is not expected to have a significant impact on future operating budgets.

Upgrade SCADA

Location

Various Facilities

Project Scope

The water system uses a computer system called SCADA to communicate between the wells, treatment plants, and water towers. This project would evaluate the existing system and provide recommendations to upgrade or overhaul the system, and then implement the proposed improvements.

Justification & Comments

An updated SCADA system would provide reliable and effective communications between wells, treatment plants, and water towers that would present system information to the operators so they could adjust, monitor, and troubleshoot the various components of the water system.

Impacts on Operating Budgets

This project is not expected to have a significant impact on future operating budgets.

Summary of Debt Obligations and Outstanding Debt

The Village of North Aurora is a non home rule municipality and is subject to a debt limitation by the State of Illinois of 8.625% of the Village's equalized assessed valuation (EAV). In addition, the Village must have all general obligation debt issuances that are to be repaid solely through property taxes approved by the voters in a referendum. General obligation debt that is to be repaid through an alternative source of revenue such as water revenues, motor fuel tax revenues or sales tax revenues but backed up by general obligation property taxes does not need voter approval through a referendum as long as the general obligation property tax debt service levies used to back such debt are abated annually and not extended.

General obligation alternative revenue source debt also does not count towards the Village's debt limitation as long as the property tax levies are abated annually. Debt which is not backed first by an alternate revenue source such as Debt Certificates count against the Village's debt limitation.

The Village's rate setting, taxable equalized assessed valuation for the levy year 2023 is \$709,828,618 which equates to a maximum debt limitation of \$61,222,718. The total outstanding debt of the Village as of May 31, 2024 is \$6,330,000. Of this amount, \$0 is applicable to the Village's debt limit, and the entire debt limitation is currently available to the Village. The \$6,330,000 of total debt outstanding is 0.9% of the 2023 taxable EAV.

The Village's current, underlying bond rating from Standard and Poor's is AA+ with a stable outlook. This rating was assigned in March, 2017 during prior to the issuance of the Village's 2017 General Obligation Alternate Revenue Source Bonds. The Village has held this rating since 2014.

Rating	Definition
AAA	Highest quality, minimal risk
AA+, AA, AA-	High quality, very low risk
A+, A, A-	Upper-medium quality, low risk
BBB+, BBB, BBB-	Medium quality, moderate risk
BB+, BB, BB-	Speculative quality, substantial risk
B+, B, B-	Speculative quality, high risk
CCC+, CCC, CCC-	Poor quality, very high risk
CC, C	Highly speculative quality, default imminent
D	Low quality, typically in default

Summary of Outstanding Debt Issuances

- General Obligation Refunding Bonds (Alternative Revenue Source), Series 2014**

Original Issue Amount: \$6,885,000

Original Issue Date: December 15, 2008

Date of Maturity: January 1, 2029

Purpose: Bonds were issued to advance refund the Village's outstanding Series 2008 general obligation alternate revenue source bonds that were originally issued in the amount of \$9,000,000 to substantially fund the construction of the new police station at Airport Road and Route 31. Principal and interest are being repaid by sales tax revenues transferred from the General Fund to the Police Station Debt Service Fund.

Summary of Debt Obligations and Outstanding Debt

- General Obligation Alternative Revenue Source Bonds, Series 2017**

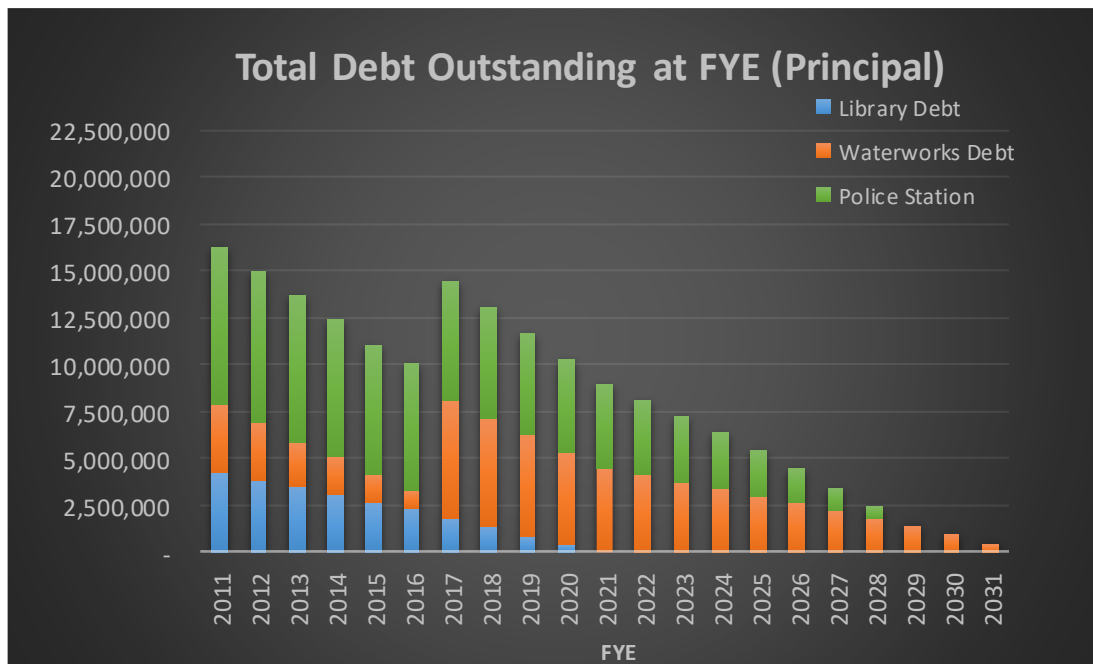

Original Issue Amount: \$5,800,000

Original Issue Date: April 4, 2017

Date of Maturity: January 1, 2032

Purpose: Bonds were issued to fund the construction of the two new deep wells, watermain replacement projects and construction of new water tower. Principal and interest are being repaid by billed water collections revenue from the Waterworks Fund.

The following chart provides a history of the total outstanding debt of the Village by type of debt at fiscal year end for the past fourteen fiscal years and until the final debt service payment on all current debt issuances. The Appendix section of this Budget contains the full principal and interest repayment schedules for all current debt issuance inclusive of interest rates.

<u>Debt Issuance Name</u>	<u>Debt Retired By</u>	<u>Original Issue Amount</u>	<u>Principal Outstanding as of May 31, 2024</u>	<u>Principal Due 24/25</u>	<u>Interest Due 24/25</u>	<u>Total Due 24/25</u>
GO Refund Series 2014	Sales Tax	\$6,885,000	\$2,940,000	\$550,000	\$88,200	\$638,200
GO Water Series 2017	Water	\$5,800,000	3,390,000	380,000	114,175	494,175
Total:			\$6,330,000	\$930,000	\$202,375	\$1,132,375

Future Debt Issuances During FY 2024-25

The Village is currently determining the funding source for a new Public Works facility. This budget does not assume the issuance of debt, however, a budget amendment may be necessary if the Village proceeds with the new facility.

Personnel Assumptions

The 2024-25 Budget uses the following personnel assumptions:

- 3.00% cost of living increase for non-union staff employees
- 4.25% contractual increase assumed for police officer bargaining employees.
- Contractual increase assumed for police sergeant bargaining employees to be determined.
- Contractual increase assumed for public works bargaining employees to be determined.
- Normal step movements for employees moving through grade.
- Health insurance assumed to increase 5.7% for HMO plan and decrease 0.8% for PPO plan as of July 1, 2024.
- Dental insurance assumed to increase 0.0% for HMO plan and 7.9% for PPO plan as of July 1, 2024.
- Illinois Municipal Retirement Fund (IMRF) for non-public safety employees projected at 10.20% of salary.
- Police Pension contributions assumed at \$1,852,530 based on the June 1, 2023 actuarial valuation.

General Fund – Legislative and Boards

Description

This division accounts for the compensation paid to the Village President, Board of Trustees, Village Clerk and Liquor Commissioner. The Village President and the six-member Board of Trustees are elected at-large to staggered four-year terms. The Board of Trustees typically meets twice a month as a Village Board where action items are voted upon, and as a Committee of the Whole for discussion on various issues. The Village also has established a Government Operations committee and Government Services Committee to meet about certain issues prior to discussion by the full board. The Village also has a North Aurora Days Committee and a Beautification Committee. Stipends to the Plan Commission and Police Pension Board are also paid here.

The Village Clerk is also elected and is responsible for taking minutes of all meetings of the Board and keeping required records and other documents. This division also accounts for codification and update of the Municipal Code in the legal account. The Legislative division also accounts for the legal services pertaining specifically to Board activities, Illinois Municipal League, Metro West expenditures, association dues and various meetings.

FY 2023-24 Significant Accomplishments

- ✓ Continued to oversee and provide staff direction on the Goals and Objectives of the Strategic Plan established under the five (5) categories of:
 1. Community Vitality
 2. Economic Development
 3. Efficient and Effective Delivery of Core Services
 4. Continue Maintenance and Capital Resource Planning for Village Infrastructure
 5. Revitalize the Route 31 Corridor and Create a Community Focal Point
- ✓ Met with local representatives – from state congressmen to local directors of other taxing bodies -- to discuss topics and projects related to the Village
- ✓ Held many community beautification contests
- ✓ Held more community events and activities to better connect with residents

FY 2024-25 Goals and Objectives

- Continue to provide leadership on community issues and items that come before the Board
- Continue to work on Committee leadership and encourage public participation in the community
- Continue to review proposed residential and commercial developments for conformity to Village's long-range plan
- Maintain quality of life and high level of services for residents taking into account economic and fiscal constraints
- Have Plan Commission continue to review cases that come before it in an expeditious fashion
- Continue to find new ways to connect with residents

General Fund – Administration/Information Technology Department

Description

The Village Administrator is responsible for the administration, management, and operation of the internal and day-to-day affairs of the Village. This includes overall coordination and implementation of Village Board policy and objectives, special projects and studies, personnel matters, the operations of the employees and departments of the village and all other internal affairs of the Village. The Village Administrator also coordinates the compilation of board packets including resolutions, ordinances and agendas, FOIA requests, social media and public information, information technology and collective bargaining.

The Village Administrator also investigates all complaints in relation to matters concerning Village services and follows up on those complaints by taking the appropriate action. The Village Administrator also advises and makes recommendations regarding changes to the current policies, rules, regulations, procedures, practices, and other such appropriate action from time to time in response to such complaints.

General Fund – Administration/Information Technology Department

FY 2023-24 Significant Accomplishments

- ✓ Continued strong relationship with federal and state lawmakers as well as other governmental agencies through on-going communication.
- ✓ Oversaw all operating departmental initiatives.
- ✓ Completed an update to the Village's Strategic Plan.
- ✓ Restructured staffing of the Administration department to better focus on goals of the Strategic Plan, such as economic development and community outreach.
- ✓ Successfully hosted many new community events, including a kite event and the Cuisine at the Crossroads food truck event.
- ✓ Continued to work with IDNR regarding the potential removal of the Fox River dam removal and the benefits and impact of such.

FY 2024-25 Goals and Objectives

- Proactively monitor goals and objectives of the Strategic Plan to track progress and results.
- Continue to improve the methods of distribution of information to residents via social media, website, and other platforms. **Strategic Goal Category: Core Services**
- Continue to work closely with Metro West to monitor state legislation that may affect the Village of North Aurora.
- Host additional special events and activities within the community. **Strategic Goal Category: Community Vitality**
- Continue to manage and provide oversight of Village operations and projects.

General Fund – Finance/Human Resources Department

Description

The Finance/Human Resources Department is responsible for the accounting, budgeting, and financial reporting of all Village funds; the establishment and monitoring of internal controls; the preparation and coordination of the annual budget process and long-term financial and capital planning processes; the preparation and coordination of the annual audit and tax levies; and responsible for operational areas of cash receipt collection, payroll,

employee recruitment, human resource requirements, collective bargaining support, employee benefit programs and pensions, accounts payable and accounts receivable and utility billing and collections. Finance also coordinates the investment of funds, recommendations on debt issuances, refundings and payment of debt obligations, and liability and workers' compensation insurance programs. The Finance Director also coordinates police pension accounting and financial reporting with the Police Pension Board and serves as Village Treasurer.

General Fund – Finance/Human Resources Department

FY 2023-24 Significant Accomplishments

- ✓ Received the Certificate of Achievement for Excellence in Financial Reporting for the 22nd consecutive year from the GFOA for the Annual Comprehensive Financial Report (ACFR) ending May 31, 2022.
- ✓ Received Distinguished Budget Presentation Award for the 18th consecutive year from the GFOA for the Village's FY 2023-24 Budget
- ✓ Received the Popular Annual Financial Reporting Award for the sixth consecutive year from the GFOA for the Popular Annual Financial Report (PAFR) ending May 31, 2022.
- ✓ Continued implementing wellness initiatives to improve employee well-being and work-life balance
- ✓ Maintained Village's underlying bond rating by Standard and Poor's of AA+
- ✓ Updated Village's Purchasing Policy to help streamline the purchasing process.
- ✓ Recruited and hired for several vacant and new positions during the year.
- ✓ Took advantage of the current high interest rates and purchased many new short-term fixed income securities.

FY 2024-25 Goals and Objectives

- Receive the Certificate of Achievement for Excellence in Financial Reporting from the GFOA for the ACFR ending May 31, 2024. **Strategic Goal Category: Financial**
- Receive unmodified opinion on the annual financial statements and have minimal auditor initiated entries.
- Receive the Distinguished Budget Award from the GFOA for the FY 2024-25 Budget. **Strategic Goal Category: Financial**
- Continue on-going monitoring revenue and expenditure trends to ensure the Village's strong fiscal position is maintained through current budget year and beyond. **Strategic Goal Category: Financial**
- Monitor state and federal legislation affecting Village finances, employee pensions and benefits, and State action affecting state-shared revenues. **Strategic Goal Category: Financial**
- Continue to research and implement new wellness programs and provide employee communications on various programs
- Develop and issue a long-term capital improvement plan to address future capital needs

General Fund – Finance/Human Resources Department

General Fund – Police Department

Description

It is the mission of the North Aurora Police Department to work in partnership with the citizens of North Aurora toward providing a safe environment and enhancing the quality of life consistent with the values of the community. We are committed to creating an atmosphere of safety and security in North Aurora. We obtain this by putting community first, working with the residents to achieve our goals and address issues as they arise.

The Police Department continues to maintain high standards for our employees. This is accomplished by continued training and development for each employee. The department ensures that we are accountable and transparent to the people we serve. This department continues to seek out new and innovative methods to provide the most effective and efficient policing services to our community.

The Department saw a number of retirements and promotions in Fiscal Year 2023-24. Deputy Chief Buziecki, Sergeant Daniel Cyko, Officer Greg Manko, and Officer Paul Ivanyi all retired from their respective positions. Detective Sergeant Michael Quinn was sworn in as Deputy Chief on October 16, 2023. Detectives Michael Robinson and Kyle Jensen were promoted to the position of sergeant. The Police Department also filled two new civilian roles: Community Service Officer and Police Management Analyst.

General Fund – Police Department

FY 2023-24 Significant Accomplishments

- ✓ Hired and implemented a new Community Service Officer position to assist with duties and responsibilities that do not require the services of a sworn police officer.
- ✓ Maintained one in-house social worker three days per week to assist with mental health/quality of life issues for residents and staff.
- ✓ Continued prosecuting DUI arrests using a local prosecution system.
- ✓ Continued local prosecutions with the adjudication system.
- ✓ Hired and implemented a new Police Management Analyst position to provide administrative support to command staff.
- ✓ The comfort dog supported the community with over 100 visits to schools, events, and other locations in the first 12 months of the program, in addition to internal staff support.
- ✓ In partnership with the North Aurora Fire Department, staff designed and instructed the first North Aurora Teen Public Safety Academy, to educate, build engagement in the community and introduce potential career options.
- ✓ With the assistance of Emergency Management Agency volunteers, free educational courses on Disaster preparedness were offered to the community.
- ✓ Implementation of a Bicycle Patrol Program to efficiently assist the community, as well as to increase visibility and outreach efforts.
- ✓ Improved drone program versatility and efficiency through a streaming service to allow multiple users to view flights, as well as a blanket certificate of authorization specific to the Village of North Aurora through which allows for simpler access to airspace.
- ✓ Redesign and launch of the new Police and Citizens Together (PACT) program to allow residents and business owners to reach out to the police department with questions and concerns regarding their neighborhood.

FY 2024-25 Goals and Objectives

- Ensure our agency provides the best quality service to the residents and visitors of North Aurora. **Strategic Goal Category: Core Services**
- Explore expanded use of technology for mandated officer training. **Strategic Goal Category: Core Services**
- Continue to explore state, federal, and foundational grant opportunities. **Strategic Goal Category: Core Services**
- Develop a new police patch/logo for the department and roll out to the public. **Strategic Goal Category: Core Services**
- Explore partnership options with school districts to expand North Aurora's School resource officer program. **Strategic Goal Category: Core Services**
- Continue to enhance community outreach and education through programs and informational seminars in harmony with the Community and Board Relations Coordinator. **Strategic Goal Category: Core Services**

General Fund – Police Department

- Continue to explore alternative records management systems that will comply with local and federal mandates. **Strategic Goal Category: Core Services**
- Expand traffic enforcement assignments to improve safety and visibility in the community. **Strategic Goal Category: Core Services**

General Fund – Community Development Department

Description

The Community Development Department is responsible for the enforcement of the adopted Village of North Aurora Building Codes, Zoning Ordinance, Sign Ordinance and Subdivision Control Ordinance through the issuance of building permits, processing of annexations, zoning and development requests and active code enforcement.

The Building and Zoning Division is responsible for the maintenance of the Village of North Aurora Building and Zoning Ordinances as well as issuing building permits. The Building and Zoning Division staff reviews the applications for completeness, plat of survey, and blueprints or drawings, to ensure compliance with local, state, and national standards. These include:

Adopted Building Codes:

- 2021 International Building Code (IBC)
- 2021 International Residential Code (IRC)
- 2021 International Existing Building Code (IEBC)
- 2020 National Electrical Code (NEC)
- 2021 International Mechanical Code (IMC)
- 2021 International Fuel Gas Code (IFGC)
- 2021 International Property Maintenance Code (IPMC)
- 2021 International Swimming Pool & Spa Code (ISPSC)

State Required Codes:

- Illinois Plumbing Code
- Illinois Energy Conservation Code
- Illinois Accessibility Code

The North Aurora Code Enforcement Division promotes and maintains a safe and desirable living and working environment for North Aurora residents and business owners. Through education and enforcement, code enforcement staff helps to maintain the quality of the community. Enforcement is accomplished by routine inspections, responding to complaints and most importantly, working in partnership with residents and business owners of the community. Typical issues addressed by Code Enforcement include:

- Exterior Property Maintenance

General Fund – Community Development Department

- High Grass/Weeds
- Noise Complaints
- Open Storage
- Private Property Parking Complaints
- Water Conservation
- Zoning Complaints
- Inoperable Vehicles on Private Property

The Planning Division assists developers, property owners, and business owners to process requests for various development proposals. These include annexation, rezoning, planned developments, special uses, variances and subdivisions. The Planning Division is also a point-of-contact for existing and prospective businesses to facilitate governmental assistance programs available to ensure economic vitality in the community. The Planning Division provides regular review to ensure compliance with regard to:

- Village of North Aurora Comprehensive Plan
- Village of North Aurora Zoning Ordinance
- Village of North Aurora Sign Ordinance
- Village of North Aurora Subdivision Control Ordinance
- Annexation Agreements
- Boundary Agreements
- Approved Planned Unit Developments

FY 2022-23 Significant Accomplishments

- ✓ Acquired the property located at 40 Monroe and subsequently demolished the on-site building and structures.
- ✓ Coordinated an agreement with the North Aurora Fire District to swap properties on Block One. Managed the entitlement and plan review process to get the new fire station under construction.
- ✓ Completed the update to the Village's building permit fee schedule.
- ✓ Completed the update to the Village's Comprehensive Plan.
- ✓ Adopted the 2021 International Code Council Building and Property Maintenance Codes.
- ✓ Amended the Zoning Ordinance with regard to commercial vehicles in residential districts.

FY 2023-24 Goals and Objectives

- Update the Zoning Ordinance to modernize the list of uses and coordinate use standards.
- Begin researching online permitting systems / software.
- Update and modernize applications.
- Update staff certifications and continuing education credits.

General Fund – Community Development Department

General Fund – Public Works Department

Description

The division accounts for the activities and operations of the Public Works division as it pertains to services provided to the community including minor street repair and reconstruction, storm sewer maintenance and the maintenance of all Village owned property, parks, and buildings, traffic signals and signs, parkway tree maintenance, fall leaf pickup, vehicle repair and maintenance, street sweeping, sidewalk maintenance and repair and the purchasing of necessary equipment and materials. It also includes contracted snow removal, road side mowing, and building maintenance.

Public Works employees provide public services such as primary snow removal, curb and sidewalk repair, tree trimming, minor sewer main and structure repair, traffic sign installation, leaf pickup and right-of-way tree maintenance. Some of the services that are contracted include parkway tree trimming, removal and replacement, mosquito abatement and supplemental snowplowing. The Public Works Division provides the community with the highest level of services in the most efficient manner possible by utilizing in-house resources and private consulting contractors.

General Fund – Public Works Department

FY 2023-24 Significant Accomplishments

- ✓ Completed the Tree Inventory locating and cataloging over 10,000 trees.
- ✓ Completed the sidewalk leveling project in the Timber Oaks subdivision.
- ✓ Trimmed approximately 700 trees in the Chesterfield subdivision.
- ✓ Presented the multi-year street maintenance program to the Village Board for discussion and consideration of future improvements.
- ✓ Continuing to work to identify connectivity concerns on the pedestrian network to improve accessibility for all users.
- ✓ Performed sidewalk leveling in the Timber Oaks Subdivision.
- ✓ Deforested the remaining half of the wooded area between Sharon and Oberweis
- ✓ Replaced the streetlights in the Police Department parking lots with LEDs.
- ✓ Installed holiday lighting and decorations at Riverfront Park and assisted in the set-up and clean-up for special events.
- ✓ Removed and replaced approximately 100 dead or dying parkway trees.
- ✓ Completed and submitted the 2022-2023 Annual Facilities Inspection Report (AFIR) for the Environmental Protection Agency's (EPA) National Pollutant Discharge Elimination System (NPDES) program.
- ✓ Completed approximately 3,600 JULIE locates facilitating construction and development projects performed by Village staff, private construction companies, and utility companies.
- ✓ Collected a total of 2,590 cubic yards of leaves during leaf collection program which was the second most collect in the history of the program.
- ✓ Spread approximately 2,400 tons of salt.
- ✓ Moved the Lincoln Highway mural and Gazebo to the Police Department grounds.

FY 2024-25 Goals and Objectives

- Identify and implement operational efficiencies to more effectively accomplish Departmental Goals. **Strategic Goal Category: Core Services**
- Identify opportunities to integrate the Village GIS system into operations including the use of GIS (Geographic Information System) software, GPS (Global Positioning System) equipment and tablets to more efficiently perform JULIE locates of Village owned infrastructure. **Strategic Goal Category: Core Services**
- Identify opportunities to implement technology into operations more cost effectively and efficiently deliver services to citizens. **Strategic Goal Category: Core Services**
- Utilize the IUOE Local 150 training facility to provide opportunities for Public Works employees to safely operate heavy equipment and obtain their CDL drivers licenses requirements. **Strategic Goal Category: Core Services**
- Continue research on adaptive uses and partnerships for the silo on the Fox River. **Strategic Goal Category: Community Vitality**
- Assist residents with drainage concerns by assessing alternatives and providing stormwater management solutions. **Strategic Goal Category: Core Services**
- Communicate the progress of infrastructure projects and provide advance notice to residents of detours routes and road construction activities that create travel delays. **Strategic Goal Category: Core Services**

General Fund – Public Works Department

- Continue the parkway tree trimming program alongside the 2024-25 road program project.
- Removal and replacement of 100 parkway trees throughout the village.
- Continue our village wide traffic signage replacement/updating program.
- Continue to promote the Overhead Sewer program to residents with qualifying circumstances and interested in participation.
- Continue to develop and update Public Works policies to communicate Village operations to stakeholders.

General Fund – Non-Departmental and Transfers

Description

These divisions account for expenditures that are non-specific to a particular department, such as the 4th of July fireworks, beautification initiatives, community outreach and events, and sales tax rebates paid to developers as part of an economic incentive agreement.

Transfers out of the General Fund to another Fund are made as required by bond ordinance for debt payment such as the police station general obligation alternate revenue refunding source bonds, as additional monies from one-time revenues to support capital projects, or as deemed necessary to support operations or activities in another fund.

Motor Fuel Tax Fund

Description

The Motor Fuel Tax (MFT) Fund accounts for the Village's per capita share of motor fuel taxes distributed by the State and the road maintenance programs that are eligible to be funded with the revenues. The MFT revenues which are allocated to this fund are received monthly from the State of Illinois. The State collects a tax of 19 cents per gallon on gasoline and 21.5 cents per gallon on diesel fuel. A portion of this tax revenue is then allocated to all municipalities in the State based on their total municipal population as a percentage of the total municipal state population. Starting in 2019, the Village began receiving additional MFT allotments from new taxes enacted by the State through the Transportation Renewal Fund.

Motor Fuel Tax expenditures are restricted to programs identified by the State. All expenditures of MFT funding is appropriated through resolution by the Village Board and approved by the Illinois Department of Transportation. In addition, a supplemental "high-growth" distribution is also allocated to the Village pending the Village's continued designation as a "high-growth" municipality. Rebuild Illinois Funds have a greater restriction on them than regular MFT funds, as improvements must meet certain useful life criteria.

The Village funds several street maintenance programs through this fund. Some of the programs funded include crack filling/routing, road salt, street lighting and maintenance, LED conversion, biannual pavement striping and at times a portion of the annual road improvement program. Motor Fuel Tax is also eligible to leverage federal funding sources including Surface Transportation (STP) and Illinois Transportation Enhancement Program (ITEP).

Public Works West-Side Salt Barn

Motor Fuel Tax Fund

FY 2023-24 Accomplishments

- ✓ Managed salt supplies and inventories and retained competitive pricing from the State.
- ✓ Completed pavement striping project

FY 2024-25 Goals and Objectives

- Maintain a healthy fund balance to leverage federal Surface Transportation Project funds for larger road projects like the Orchard Gateway Reconstruction and Oak Street rehabilitation projects. **Strategic Goal Category: Infrastructure**
- Complete crack sealing project **Strategic Goal Category: Infrastructure**
- Procure road salt through State purchase program **Strategic Goal Category: Core Services**

Route 31 TIF Fund

Description

The Route 31 TIF Fund was established August 12, 2002 to account for the additional incremental property tax revenues generated by the Route 31 TIF District and the redevelopment expenditures and reimbursements. The TIF District was amended during FY 2005-06 to include additional parcels of property. It was amended a second time in FY 2009-2010 to add several other properties to the district. Tax increment financing is permitted under the Tax Increment Allocation Redevelopment Act of the

State of Illinois. The Village prepared a comprehensive “Action Plan” to guide the development and redevelopment of the Route 31 TIF District area. Based upon the findings of a comprehensive TIF districting evaluation, all of the Route 31 TIF parcels north of I-88 were disconnected from the Route 31 TIF in 2021. The remainder of the Route 31 TIF District consist all of the TIF parcels located south of I-88.

A number of redevelopment projects have initiated within the TIF District that the Village has provided financial assistance for through the use of the incremental property taxes generated by the redevelopment activity. These include facade and rehabilitation improvements to numerous

businesses. The map to the left shows the current boundaries of the Route 31 TIF District, as amended.

FY 2023-24 Significant Accomplishments

- ✓ Transferred \$925,000 of surplus funds to the United TIF to fund property purchases for redevelopment.

FY 2024-25 Goals and Objectives

- Continue to promote TIF Façade Grant Program
- Explore meaningful opportunities to utilize funds prior to the expiration of the Route 31 TIF

United TIF Fund

Description

The United 31 TIF Fund was established July, 2021 to account for the additional incremental property tax revenues generated within the Redevelopment Area. The United TIF District consists primarily of those parcels located north of I-88 that were disconnected from the Route 31 TIF District and the parcels within the North Lincolnway and Sperry TIF Districts, which were dissolved prior to the adoption of the United TIF District. The United TIF District also includes parcels that have historically not been located in any TIF district, but were considered as potential targeted areas for development or gentrification.

While a number of redevelopment projects have completed within the boundaries of the United TIF through actions of the Route 31, Sperry and North Lincolnway TIF Districts, the Village will continue to provide financial assistance for through the use of the incremental property taxes generated within the Redevelopment Area. The map to the left shows the current boundaries of the United District.

FY 2023-24 Significant Accomplishments

- ✓ Acquired the property located at 40 N. Monroe and subsequently demolished the on-site building.
- ✓ Executed an agreement with the North Aurora Fire District to swap properties on Block One

FY 2024-25 Goals and Objectives

- Commence construction of intersection improvements at Route 31 and Airport Road
- Continue to install sidewalk segments where needed

TAX INCREMENT FINANCING DISTRICTS

Insurance Fund

Description

The Insurance Fund accounts primarily for the Village's costs associated with the provision of liability, workers' compensation, property and other coverages. Presently the Village utilizes the Illinois Municipal League Risk Management Association (IMLRMA) which provides these coverages to the Village. The Village also funds payment of unemployment contributions to the State through this fund as well as payments for miscellaneous expenditures relating to accidents or other liability claims.

Revenues are provided by an annual property tax levy dedicated to this fund and contributions from other funds for their share of the cost of coverage. Administration and Finance have primary responsibility for the Village's risk management program with support and input from each department.

FY 2022-23 Significant Accomplishments

- ✓ Continued research into other insurance coverage options to ensure Village is receiving best value
- ✓ Conducted employee trainings on a variety of topics throughout the year

FY 2023-24 Goals and Objectives

- Continue to identify areas of risk and recommend ways to minimize claim potential
- Facilitate targeted safety training programs
- Continue benchmarking and research to ensure coverage costs provide the best value **Strategic Goal Category: Financial**

Tourism Fund

Description

The primary activity in this fund is to account for the proceeds of the 3% hotel/motel tax to this fund. The Village remits 90% of the revenues generated by the tax to the Aurora Area Convention and Tourism Bureau to promote the Village of North Aurora and its events.

This fund also accounts for the revenues and expenditures related to the annual North Aurora Days festival in August of every year. Expenditures for North Aurora Days include live musical entertainment, fireworks, and other festivities. The North Aurora Days Committee coordinates the event and receives revenues from sponsorships from local businesses, vendor fees and other donations.

FY 2024-25 Goals and Objectives

- Assist the North Aurora Days Committee with the coordination of events, planning, sponsorships and the overall collection and disbursement of monies associated with the event. **Strategic Plan Goal: Community Vitality**

Special Service Areas Fund

Description

This fund accounts for the Village's property tax levies and expenditures for active Special Service Areas (SSA) that the Village has established. During the annual property tax levy process, the Village reviews each special service area and determines how much money will be levied for each area based on the lawn maintenance contracts and the amount that will need to be raised over time to support major rehabilitation projects or other maintenance issues. Many of the special service areas exist so that the Village can raise funds to effectuate maintenance projects in the event that the homeowner's association fails to meet the needs of the subdivision.

FY 2024-25 Goals and Objectives

- Monitor mowing maintenance contracts of common areas within the SSA's.
- Continue developing a solution for pond and drainage issues in Oak Hills SSA.
- Oversee maintenance of wetland areas for the North Aurora Town Centre SSA.
- Continue accumulating funds to initiate fence repairs for the Willow Lakes SSA.
- Continue accumulating funds for retention pond improvements for the Waterford Oaks SSA.

Sanitary Sewer Fund

Description

The Sanitary Sewer Fund accounts primarily for the Village's annual inflow/infiltration program for the sanitary sewer system. Although Fox Metro provides for the treatment of sewerage, the Village owns and is responsible for maintaining and replacing any sanitary sewer lines for sewerage conveyance which are 14 inches in circumference or smaller. Fox Metro maintains and replaces sanitary sewer lines above that size. This fund also covers the cost of maintenance of some temporary and permanent lift stations in the Village.

Revenues are provided through a sanitary sewer permit/connection fee. In addition, the Village collects a sanitary sewer collection fee through the Village's water billing process.

FY 2023-24 Significant Accomplishments

- ✓ Evaluate the current sanitary sewer system maintenance procedures.
- ✓ Completed the Cherrytree sanitary sewer extension.
- ✓ Utilize the Vactor/Jetter truck to perform regularly scheduled maintenance in known problem areas.

FY 2024-25 Goals and Objectives

- Identify future capital projects for the sanitary sewer system and develop cost estimates of the improvements
- Increase awareness the Overhead Sewer Grant Program through the Village website and social media and inform residents of the additional 15% funding available from Fox Metro
- Keep looking and researching ways to upgrade the sanitary sewer system by eliminating inflow/infiltration (I/I).

Sanitary Sewer Fund

- Continue to participate in quarterly meetings with Fox Metro Reclamation District
- Utilize GIS (Geographic Information System) and GPS (Global Positioning System) equipment to create accurate sanitary system utility atlases. **Strategic Goal Category: Core Services**
- Update the sanitary sewer atlas online as development occurs.
- Partner with Fox Metro to verify that as-built sanitary sewer information is shared between agencies
- Identify areas within the system to improve connections and rehab infrastructure. **Strategic Goal Category: Infrastructure**

Capital Projects Fund

Description

This fund accounts for capital projects and capital improvements that the Village funds with various revenues. The Village implemented effective January 1, 2004 a 0.50% non home rule sales tax that was approved by the voters of the Village via referendum in 2003. This sales tax is not applicable to sales of food, drugs and titled vehicles per State Statutes. The Village also has had in effect since 2004 various utility taxes allocated to this fund and committed for roads, infrastructure and capital projects. The natural gas tax is based on gross charges and the electricity tax is based on a tiered-rate of kilowatt hours used (equivalency). Funding for capital projects is frequently supplemented by impact fees, grants/contributions or transfers of excess funds from the General Fund. The Village regularly updates its long-term road program to determine which streets and related infrastructure may be in need for either reconstruction or resurfacing and is the primary purpose of the dedicated capital project funding in place.

Expenditures that the Village accounts for in this fund include the recurring annual road program, major road improvement projects, village facility improvements, right-of-way projects, sidewalk improvements and other capital/public improvements.

FY 2023-24 Significant Accomplishments

- ✓ Assembled a design team of civil engineers and architects for the design of the Public Works Facility
- ✓ Completed Phase 1 engineering for the Orchard Gateway reconstruction project partially funded with STP funds. **Strategic Goal Category: Infrastructure**
- ✓ Completed the 2023 Street Improvement Program (2.8 miles) for \$2,164,939 **Strategic Goal Category: Infrastructure**
 - Pine Creek Drive from Butterfield Rd to Feltes Ln.

Capital Projects Fund

- Chesterfield Lane from Graham Rd to Dead End
 - Carpenter Court from Chesterfield Ln to Dead End
 - Hamilton Lane from Chesterfield Ln to Chesterfield Ln
 - Flynn Court from Chesterfield Ln to Dead End
 - Graham Road from Pine Creek Dr to Dead End
 - Stewart Avenue from Pine Creek Dr to Mitchell Rd
 - Erickson Court from Stewart Ave to Dead End
 - Thompson Avenue from Pine Creek Dr to Stewart Ave
 - Gorham Court from Thompson Ave to Dead End
 - Harding Court from Thompson Ave to Dead End
 - Johnson Court from Stewart Ave to Dead End
 - Schneider Court from Stewart Ave to Dead End
 - Chestnut St from Banbury Rd to Hickory St
 - Locust St from Banbury Rd to Hickory St
 - Spruce St from Banbury Rd to Hickory St
- ✓ Complete the traffic signal improvements at Randall and Dogwood-Ritter to include pedestrians signals **Goal Category: Infrastructure and Core Services**
- ✓ Construct the Tanner Trails Unit 6 storm sewer conveyance system to Lake Run Creek. **Strategic Goal Category: Infrastructure**

FY 2024-25 Goals and Objectives

- Review and update long-term road, sewer, and watermain capital improvement schedule taking into account significant resurfacing projects that need to be undertaken in the future and using updated information from the last PCI study. **Strategic Goal Category: Financial**
- Evaluate the road network in consideration of all modes of transportation improving access to all individuals where feasible. **Strategic Goal Category: Infrastructure**
- Partner with other governmental agencies to improve trail connectivity throughout the region.
- Continue/finish with the design development stage for the new Public Works Facility and move to construction documents then go out for bid
- Complete Phase 2 engineering for the Orchard Gateway reconstruction project partially funded with STP funds. **Strategic Goal Category: Infrastructure**
- Complete the 2024 Street Improvement Program (3.3 miles) **Strategic Goal Category: Infrastructure**
 - Ridge Rd from Route 25 to Banbury Road
 - Dead end of Anna St entire cul-de-sac
 - Hickory St from Butterfield Rd to Andrew Ln
 - Sharon from Banbury going West approximately 225 feet.
 - Laurel Dr from April Ln going North approximately 110 feet.
 - Harmony Ct from Walnut Dr to Dead End
 - Silver Trail from Oak St to Dead End
 - White Oak Dr from Oak St to Foxhill Ln
 - Oak Hill Court from White Oak Dr to Dead End
 - Greenview Court from White Oak Dr to Dead End
 - Pinehill Dr from Foxhill Ln to the Dead End of Foxhill Ct

Capital Projects Fund

- Fieldside Ln from Pinehill Dr to Hearthstone Ln
- Foxhill Court from White Oak Dr to Dead End
- Foxhill Dr From White Oak Dr to 150 feet west of Hidden Creek Ln
- Parkside Court from Foxhill Dr to Dead End
- Creekside Court from Foxhill Dr to Dead End
- Prairie Court from Pinehill Dr to Dead End
- Windstone Dr from Oak St to Hearthstone Ln
- Hearthstone Ln from Windstone Dr to the Dead End

Police Station Debt Service Fund

Description

This fund was established January, 2009 to account for the future principal and interest payments related to the \$9,000,000 General Obligation Alternate Revenue Source, Series 2008 bond issuance for partial funding of the construction of the new Village police station at Route 31/Airport Road. The Village issued the bonds on December 15, 2008. The Village pledged sales tax revenues for bond repayment, backed by the Village's general obligation taxing authority. Per the bond covenants, the Village must transfer sales tax revenue monthly from the General Fund to the Police Station Debt Service Fund for annual principal and interest payments on the bonds.

Interest is due July 1 and January 1 and principal is due January 1. Final principal payment is due January 1, 2029. In the fall of 2014 the Village conducted a competitive sale and completed an advanced refunding of the 2008 alternate bonds, realizing substantial savings off the remaining outstanding bonds.

Waterworks Fund

Description

This fund accounts for the activities related to the provision of water to North Aurora customers. Operations related to the Water Division of the Public Works Department are accounted for in this Fund as well as the staffing, water billing, collection and customer service activities of the Finance Department. The Water Division works to maintain and improve water service infrastructure while simultaneously planning for future water demand. The Water Division also assists the Finance Department with water billing issues and coordination of meter readings, finals, etc. North Aurora's water supply is currently derived from six deep wells (#4, #5, #6, #7, #8, #9) and travels through a 110-mile network of distribution water main after it has been treated for excess radium at the two treatment facilities.

The water system also includes one 500,000 gallon elevated storage tank and one 1,000,000 gallon elevated storage tank. The Water Division maintains this infrastructure along with 1,360 fire hydrants, 1,950 valves and approximately 6,000 service connections and water meters.

Over the last several years, the Village completed the drilling of two new wells (wells #8 & #9) and the development (design and installation of the pumps and

Waterworks Fund

motors) of these wells was completed in the fall of 2020. The plan for an additional 500,000 to 1,000,000 gallon water tower is under further review as the Village awaits completion of the Water Flow Model Study. These additions, along with our ongoing distribution improvements, will provide the necessary quantity and the highest quality of water for our residents and businesses.

The Village regularly conducts an analysis to determine if Water fund revenues are sufficient to meet short and long-term operating, capital, and debt service expenditures. Water rates are increased from \$4.26 to \$4.79 per 1,000 gallons effective June 1, 2024, separate from a \$16.00 bi-monthly base charge that includes the 1st 3,000 gallons used. Future rate increases may be necessary to continue funding future operations and capital improvements of the water system.

FY 2023-24 Significant Accomplishments

- ✓ Provided in depth, proper training to staff in order for them to operate/monitor SCADA system during evenings and weekends.
- ✓ Continued to utilize a Geographic Information System (GIS) and Global Positioning System (GPS) equipment to create accurate water system utility atlases. **Strategic Goal Category: Core Services**
- ✓ Hired and trained one (1) new Water Laborer/Operator to provide adequate staff for proper system maintenance.
- ✓ Replace water main on Spruce, Locust and Chestnut streets between Hickory and Banbury Rds thus eliminating lead service lines in that area.
- ✓ Purchased new Neptune cloud based meter reading system hardware and software. (Still working to integrate this with our current billing system).
- ✓ Hired a consultant to administer our Lead Service Line Inventory and replacement program as required by the Illinois Environmental Protection Agency (IEPA). **#Strategic Goal Category: Infrastructure**
- ✓ Replaced Well #5's pump and maintained motor. Converted Well 5 above ground discharge into pitless adapter and installed new raw water main below grade, demolished old well house and installed updated electrical controls and flow meter. **#Strategic Goal Category: Infrastructure**

FY 2024-25 Goals and Objectives

- Continue working on the Water Works System Master Plan, which will be comprised of multiple studies and will help identify critical needs for the water system's future, and be an aid in strategic decision making. **Strategic Goal Category: Core Services**
- Continue working with the consultant to develop the mandated initial Lead Service Line Replacement Plan, due to IEPA in April of 2024.
- Continue replacement of machinery and equipment upgrades at the two water treatment facilities and remote well sites. **#Strategic Goal Category: Infrastructure**
- Continue to provide training to Water Division employees in an effort to perform in house repairs, maintenance and to operate and monitor SCADA system. **Strategic Goal Category: Core Services**
- Upgrade existing SCADA system to increase resiliency and reliability. **#Strategic Goal Category: Infrastructure**

Waterworks Fund

- Continue to work with consultant (EEI) to complete a full water service line material inventory.
- Pull and service pump and motor for Well #6. **#Strategic Goal Category: Infrastructure**
- Complete upgrading to new Neptune cloud based meter reading system by integration with billing software (update to cloud based version).
- Continue the engineering phase for the construction of a new central water tower and move forward with the bidding process. **Strategic Goal Category: Infrastructure**

Vehicle and Equipment Fund

Description

The Vehicle and Equipment Fund was established in 1998 to accumulate funds for the replacement of vehicles and related equipment. Every year during the budget process the schedule of vehicles for replacement is updated to ensure that accurate vehicle lives and replacement costs are included in the replacement schedule.

Each department then transfers their contributions on a monthly basis throughout the year. Planning for the replacement of vehicles in this manner eliminates the financial impact that replacing an expensive vehicle or several vehicles at once will have on a department's operating budget and fund in any given year. This Fund also accounts for the purchase of major equipment, IT infrastructure and software and items, increasing the scope of long-term planning done for equipment purchase and replacement and providing financial stability to the Village's operating budgets.

Vehicle and equipment replacement is based on the condition, number of miles/hours of use, maintenance history and projected future maintenance costs as well as an analysis of the type of vehicle replacement that is needed, and if other options exist for not replacing the vehicle. Replaced vehicles can sometimes be repurposed to a less intensive use in order to extend the life of the asset. Projections of new or replacement IT or equipment replacement are also done to ensure funds are available for those purchases in the future.

FY 2023-24 Significant Accomplishments

- ✓ Ordered a new 5-Yard Dump Truck with Hook Lift System Plow Truck for the Public Works Streets division
- ✓ Purchased two new Ford F-350 trucks for the Public Works Streets division
- ✓ Replaced four (4) Ford Explorer police squads with Dodge Durango squads
- ✓ Purchased Flock Safety Cameras
- ✓ Purchased portable truck scales for the Police Department
- ✓ Replaced Grumman van with an enclosed service truck for the Public Works Water division
- ✓ Purchased a new Backhoe/Loader for the Public Works Water division

FY 2024-25 Goals and Objectives

Strategic Goal Category: Core Services

- Outfit four (4) new Dodge Durango police squads and place into service
- Purchase a virtual reality training system for the Police department
- Purchase a new audio and camera security system for Riverfront Park
- Upgrade the audio visual system for the Police department
- Purchase other identified equipment and technology to maintain or increase efficiencies and effectiveness

Police Pension Trust Fund

Description

The Police Pension Trust Fund accounts for revenues and expenditures associated with the provision of retirement, disability, and other pension benefits for sworn police personnel through a single-employer defined benefit pension plan. Benefits provided to sworn police personnel are governed by Illinois State Statutes. The Police Pension Board, which consists of two active pension members, one retired pension member, and two individuals appointed by the Village, is responsible for administering the pension funds, with advice and assistance provided by the Finance Director/Treasurer.

The Village is responsible for determining, on an annual basis through an actuarial study, the actuarially determined contribution (ADC) that the Village must contribute to the fund in order to provide monies for future pension costs. The annual contribution to be provided by the Village is the amount necessary to provide for the annual requirements of the pension fund plan, and an amount necessary to ensure that the minimum funding goals specified by State statute are met. Effective January 1, 2011 the minimum funding goals were modified by State legislation to be 90% funded by 2040 (previous amortization schedule was 100% by 2033), however, the Village has elected a 100% funding goal by 2040 as part of its Pension Funding Policy. Legislation was passed by the State in 2019 which transfers management of the pension fund investments to the new state-wide Illinois Police Officers' Pension Investment Fund (IPOPIF). The transfer of investments was completed in early October 2022. Benefit administration continues to be governed by local Police Pension Board.

FY 2023-24 Significant Accomplishments

- ✓ Completed the annual actuarial valuation.

FY 2024-25 Goals and Objectives

- Assist the Pension Fund Board of Trustees with pension benefit administration.
- Continue to monitor future developments at the State level regarding further pension consolidation efforts.

Manufacturers	390,945	5.5%
TOTAL	\$ 7,108,871	100.0%

The sales tax chart below shows calendar year 2013 through 2022 total 1% sales tax collections by category for the three largest tax generators.

Glossary

Abatement: A partial or complete cancellation of a property tax levy imposed by the Village.

ACH (Automated Clearing House): A system used for direct debit from a customer's checking account to pay for Village water charges.

Accrual Basis: A basis of accounting utilized by proprietary fund types and pension trust funds where revenues and additions are recorded when earned and expenses and deductions are recorded at the time liabilities are incurred.

Annexation: The incorporation of land into an existing Village with a resulting change in the boundaries of that Village.

Annual Comprehensive Financial Report: A report prepared by units of government that include an introductory section, a financial section and a statistical section. This report is often submitted for review to the GFOA as a submission to their Certificate of Achievement award which is the highest form of recognition in governmental financial reporting.

APWA (American Public Works Association): An association representing Department Heads and other employees of Public Works, Water, Sewer and other utilities across the nation.

Assessed Value: A valuation set upon real estate or other property by the Township Property Appraiser as a basis for levying taxes.

Audit: A systematic collection of sufficient, competent evidential matter needed to attest to the fairness of the presentation of the Village's financial statements. The audit tests the Village's account system to determine whether the internal accounting controls are both available and being used.

Balanced Budget: A balanced budget is a budget in which revenues and reserves meet or exceed

expenditures. The Village will sometimes use cash reserves or fund balance to finance a significant capital improvement or capital project. This use of reserve to finance a capital project will convey the impression that the budget is not balanced when in fact the financing of a capital project with cash reserves was the result of good financial planning. Reserves may also be used on a limited basis to fund operations for a fixed amount of time during recessions or local economic downturns.

Bond: A written promise to pay a specified sum of money, called face value or principal, at a specified date in the future, called maturity date, together with periodic interest at a specified rate.

Bonding: The act of borrowing money to be repaid, including interest, at specified dates.

Bond Refinancing: The payoff and re-issuance of bonds, to obtain better interest rates and or bond conditions.

Budget: A comprehensive financial plan of operations for a given time period.

Capital Assets: Assets of a long term character which are intended to continue to be held or used with a value typically over \$10,000. Examples of capital assets include items such as land, buildings, machinery, vehicles and other equipment.

Capital Improvements/Expenditures: Major projects that typically involve the construction of or improvement/repair to buildings, roads, water, sewer, sanitary sewer, and other related infrastructure.

Capital Project Fund: A fund established in order to account for the financial resources and costs associated with the construction of major capital facilities or other major capital improvements.

Glossary

Cash Management: The management of cash necessary to pay for government services while investing temporary cash excesses in order to earn interest revenue. Cash Management refers to the activities of forecasting the inflows and outflows of cash, mobilizing cash to improve its availability for investment, establishing and maintaining banking relationships, and investing funds in order to achieve the balance of the highest interest and return, liquidity and minimal risk with these temporary cash balances.

CDBG (Community Development Block Grant): A series of grant programs administered by the U.S. Department of Housing and Urban Development which provide funding for communities based on economic need, size or other variables for revitalization, infrastructure improvements and other purposes.

Census: An official population count of all or part of a municipality by the federal government. An official census count determines the amount of revenues that the Village receives from the State for certain major revenue sources.

CERT (Community Emergency Response Team): A volunteer program under the Citizens Corps Council umbrella which provides assistance to first responders during community emergencies or other needs.

Charges for Service: User charges for services provided by the Village to those specifically benefiting from those services.

Component Unit: A component unit is a legally separate organization that a primary government must include as part of its financial reporting entity for fair presentation in conformity with GAAP. The Messenger Public Library used to be a component unit of the Village of North Aurora but recent changes to GAAP mean that the Library no longer meets the definition for inclusion in the reporting unit, even though the

Village is responsible for the repayment of the Library's debt and approval of annual tax levy.

Comprehensive Plan: An official public document adopted by the local government as a policy guide to decisions about the physical development of the community. It is a general long range physical plan.

Debt: A financial obligation from the borrowing of money.

Debt Service: The payment of principal and interest on borrowed funds.

Decouple: A term used to describe a situation where, for example, the State of Illinois may decide to disconnect its income tax rules and exemptions from the federal income tax rules and exemptions.

Deficit: Most commonly used to describe an excess of expenditures over revenues for a fiscal year. However, deficits are often planned for due to the use of accumulated monies for capital or other projects. In addition, municipalities often have accumulated cash balances which they intend to use to fund expenditures for a given fiscal year.

Department: An organizational unit responsible for carrying out a major governmental function, such as Police or Public Works.

Depreciation: The decrease in value of physical assets due to use and passage of time.

Draft Budget: The preliminary budget document distributed to the Village Board and available for inspection by the public.

Enterprise Fund: Used to account for operations that are financed and operated in a manner similar to private business enterprises - where the

Glossary

costs of providing goods or services are financed or recovered primarily through user charges.

(EAV) Equalized Assessed Value: The value of property resulting from the multiplication of the assessed value by an equalization factor to make all property in Illinois equal to one-third of its market value. The EAV of property is one-third of the market value.

Expenditures: Payment by the Village for goods or services that the Village has received or will receive in the future.

FICA (Federal Insurance Contributions Act): Monies paid to the federal government to fund for future social security benefits as may be defined by the government in future years. This expenditure account in

Fiduciary Funds: Funds that are used to account for activities benefitting other individuals or outside agencies in a fiduciary or custodial capacity.

Fiscal Year (FY): Any consecutive twelve-month period designated as the budget year. The Village's budget year begins on June 1 and ends May 31 of the following calendar year.

Forecast: The projection of revenues and expenditures usually for a time period that is greater than one year based on clearly defined assumptions and predictions related to future events and activities.

Franchise Agreement: An agreement between the Village and a utility setting forth the terms and conditions under which a utility, such as a cable company, may provide a service to residents. A franchise agreement often provides compensation to the Village for the use of the public right-of-way by the utility company.

Full-Time Equivalent (FTE): A method of determining the total number of employees in

terms of each position's number of hours when compared to a full-time employee. Full-time positions have a FTE of 1.00. A part-time position that works 60% of the hours that a full-time position would work would have a full-time equivalency of 0.60.

Fund: A set of accounts to record revenues and expenditures associated with a specific purpose.

Fund Balance: The difference between assets and liabilities reported in a governmental fund. Changes in fund balances are the result of the difference of revenues to expenditures. Fund balances increase when revenues exceed expenditures and decrease when expenditures exceed revenues. Fund balance is often used to describe the total available financial resources in a governmental fund. For Proprietary Fund-types, fund balance is typically defined as the difference between current assets and current liabilities. This equivalent is also known as Unrestricted Net Assets (see term for details). In the Water Fund, Beginning Net Assets is also equivalent to Unrestricted Net Assets.

GASB (Governmental Accounting Standards Board): An independent organization which has ultimate authority over the establishment of Generally Accepted Accounting Principles (GAAP) for state and local government. GASB members are appointed by the Financial Accounting Foundation (FAF), however the GASB enjoys complete autonomy from the FAF in all technical and standard-setting activities.

GAAP (Generally Accepted Accounting Principles): Uniform minimum standards and guidelines for financial accounting and reporting. They govern the form and content of the financial statements of an entity. GAAP encompass the conventions, rules and procedures necessary to define accepted accounting practice at a particular time. They include not only broad guidelines of general application, but also

Glossary

detailed practices and procedures. GAAP provide a standard by which to measure financial presentations. The primary authoritative body on the application of GAAP to state and local governments is the Governmental Accounting Standards Board (GASB).

General Fund: The general operating fund of the Village. It is used to account for all financial resources except those required to be accounted for in another fund. Most services provided by the Village including police protection, street maintenance and snow plowing, engineering, administration, and building and zoning are accounted for in this fund.

GFOA (Government Finance Officer's Association): An organization representing municipal finance officers and other individuals and organizations associated with public finance.

GIS (Geographic Information System): A collection of information regarding parcels of land typically organized by property lines.

G.O. Bonds (General Obligation Bonds): Bonds that are backed by the "full faith and credit" of a municipality. The taxing power of the Village is pledged in the covenant of one of these bond issues. An Alternate Source Revenue General Obligation first pledges a revenue source other than property taxes before the imposition of property taxes.

Goal: A long-term or short-term desirable development.

Government Fund Types: Funds that account for a government's "governmental-type" activities. These funds are the general fund, special revenue funds, debt service funds and capital projects funds.

Grant: Funds received by the Village which are designated for specific projects.

Home Rule Municipality: A home rule municipality may exercise any power and perform any function pertaining to its government and affairs including, but not limited to, the power to regulate for the protection of public health, safety, morals and welfare; to license; to tax; and to incur debt, unless preempted by the State of Illinois. A municipality is designated as a home rule municipality if its population reaches 25,000 or if the designation of home rule is approved by voters via a referendum.

ICMA (International City/County Management Association) and ILCMA (Illinois City/County Management Association): The professional and educational organization for chief appointed managers, administrators, and assistants in cities, towns, counties, and regional entities throughout the world. Since 1914, ICMA has provided technical and management assistance, training, and information resources to its members and the local government community. The management decisions made by ICMA's nearly 8,000 members affect more than 100 million individuals in thousands of communities; from small towns with populations of a few hundred to metropolitan areas serving several millions.

IDFPR (Illinois Department of Financial and Professional Regulation): An agency of the State of Illinois responsible for, among other things, ensuring that the Village of North Aurora is complying with all state laws and requirements related to the locally-administered Police Pension Trust Fund.

IEPA (Illinois Environmental Protection Agency): Provides low-interest loans to eligible local governments to improve drinking water infrastructure.

IMLRMA (Illinois Municipal League Risk Management Association): An association of

Glossary

municipalities providing property, liability, auto and workers' compensation coverages since 1981.

IMRF (Illinois Municipal Retirement Fund): State retirement system established for municipal employees other than sworn fire or sworn police personnel. Defined-benefits are based on the number of years of service and the FRE (final rate of earnings).

Interfund Transfer: A transfer of funds or assets from one fund to another without equivalent flows of assets in return and without a requirement for repayment.

Internal Service Fund: A fund-type used by state and local governments to account for the financing of goods and services provided by one department to another department, and to other governments, on a cost-reimbursement basis.

IPELRA (Illinois Public Employment and Labor Relations Association): Organization dedicated to best practices in labor management and contract negotiation.

IPWMAN (Illinois Public Works Mutual Aid Network): Mutual aid network of Public Works agencies organized to respond to an area or community that has experienced an emergency situation and has exhausted responder resources.

KDOT: Kane County Department of Transportation

Kilowatt-Hour: A kilowatt hour is a unit of measure used to describe the amount of electricity used by a homeowner, business, or other entity for a defined period of time. State law now requires that the utility tax imposed by the Village for electricity be based on the number of kilowatt-hours used instead of the gross charges.

L.E.A.D.S. (Law Enforcement Agencies Data System): Statewide, computerized, telecommunications system, maintained by the Illinois State Police, designed to provide the Illinois criminal justice community with access to computerized justice related information at both the state and national level.

Levy: (Verb) To impose taxes, special assessments or service charges for the support of governmental activities, usually based on the assessed value of property. (Noun) The total amount of property taxes imposed by the Village for a specific year.

Liability: Debt or other legal obligations arising out of transactions in the past which must be liquidated renewed or refunded at some future date.

Liquidity: The amount of cash and easily sold securities a local government has at one time.

Major Fund: A classification given to a fund when the fund's total assets, liabilities, revenues or expenditures/expenses is equal to or greater than 10% of the total Governmental Fund or Enterprise Fund total of that category (whichever category the fund belongs to) *and* 5% of the total Governmental and Enterprise total combined for that category. The General Fund is always classified as a Major Fund. Funds which do not pass this test are considered a Nonmajor Fund.

Modified Accrual Accounting: A basis of accounting used by Governmental Fund types in which revenues are recorded when collectable within the current period or soon enough thereafter to be used to pay liabilities of the current period, and, expenditures are recognized when the related liability is incurred.

MFT (Motor Fuel Tax): The Motor Fuel Tax is a tax on fuel consumption imposed and collected by the State. Distribution of the tax to municipalities

Glossary

is based on the municipality's certified population. North Aurora's MFT revenue is recorded in a separate fund due to the restrictions on the type of expenditures that North Aurora may fund with MFT revenues.

MIU (Meter Interface Unit): A device attached to the outside of a structure that is wired to the water meter and allows the meter read to be transmitted via radio.

MPLS (Multi-Protocol Labeling Switch): The MPLS Fractional 1.5 mbps T1 connects the Village's Microsoft Exchange Server which is located at 200 S. Lincolnway, to the Village Hall to create one Village-wide email network. In addition, the MPLS carries information related to the Village's Local Access Network (LAN) such as working files and folders. The MPLS is also used to carry phone traffic between the police facility and Village Hall.

Municipality: A term used to describe a unit of government in Illinois such as a city, Village or town.

Non Home Rule Municipality: A municipality that can only take action specifically allowed to take by State Statues.

Nonmajor Fund: A classification given to a fund when the fund's total assets, liabilities, revenues or expenditures/expenses is not equal to or greater than 10% of the total Governmental Fund or Enterprise Fund total of that category (whichever category the fund belongs to) *or* is not equal to 5% of the total Governmental and Enterprise total combined for that category. Funds which do pass this test are considered Major Funds.

NPDES (National Pollution Discharge Elimination System): The NPDES is the U.S. Environmental Protection Agency's permit programs controls water pollution by regulating point sources that discharge pollutants into waters of the United

States. One program of the NPDES is the SSO (Sanitary Sewer Overflow) program designed to regulate and reduce occasional unintentional discharges of raw sewage from municipal sanitary sewers into the water systems, which happen in almost every system. These types of discharges are called sanitary sewer overflows (SSOs). SSOs have a variety of causes, including but not limited to severe weather, improper system operation and maintenance, and vandalism. EPA estimates that there are at least 40,000 SSOs each year.

OTB (Off-Track Betting): The Village has an off-track betting tax of 1% of gross proceeds for any off-track betting facilities in North Aurora.

PACT (Police and Citizens Together): A police department initiative which aims to improve communication between the police department and the public it serves.

Pension: Future payments made to an eligible employee after that employee has left employment or retired. Pensions for police officers' are based on the number of years of service working for the Village and the employee's salary at the time the employee either left employment or retired.

Per Capita: Per capita is a term used to describe the amount of something for every resident living within the Village per the official population of the Village. For example, the Village receives annually approximately \$103 a year per capita from the State as its share of the State income tax revenue.

Performance Indicators: Specific quantitative (can be defined in numerical terms) and qualitative (cannot be counted, use of measures that require descriptive answers) measures of work performed as an objective of the department.

Glossary

Portfolio: A list of investments for a specific fund or group of funds.

Private Sector: Businesses owned and operated by private individuals, as opposed to government-owned operations.

PTLL: An acronym which stands for Property Tax Extension Limitation Law which simplified are a set of laws which restrict the amount most non home rule municipalities can increase property taxes by inflation, plus an allowance to extend the rate on new construction.

Public Hearing: An official forum called for the purpose of soliciting input from residents, businesses, and other stakeholders regarding a topic, plan or document. Illinois State law requires municipalities to hold a public hearing on the budget for the coming fiscal year before the budget is approved by the Board.

Property Tax: A tax based on the assessed value of real property.

Proprietary Fund Types: The classification used to account for a Village's ongoing organizations and activities that are similar to those often found in the private sector (i.e., enterprise and internal services funds). All assets, liabilities, equities, revenues, expenses and transfers relating to the government's business and quasi-business activities are accounted for through proprietary funds.

Referendum: The submission of a proposed public measure, law or question, which has been submitted by legislature, convention or council, to a vote of the people for ratification or rejection.

RFP (Request for Proposal): A document used to request specific information from vendors regarding the scope of goods or services they can provide to meet a specific need of the Village as

well as their proposed cost of providing those goods or services.

Restricted Net Assets: The portion of net assets that is held for a specific purpose. The Village would typically restrict assets for debt service.

Revenues: Funds or monies that the government receives. It includes such items as tax receipts, fees from specific services, receipts from other governments, fines, forfeitures, grants, shared revenues, interest income and other financing sources.

Special Revenue Funds: Funds used to account for revenues derived from specific taxes or other earmarked revenue sources which, by law, are designated to finance particular functions or activities of government and which therefore can not be diverted to other uses.

(SSA) Special Service Area: An area of property legally designated by the Village which provides a means for the Village to levy and raise property taxes only from those properties within the area for services that specifically benefit the area subject to taxation. The Village has a total of twenty-nine Special Service Areas of which twenty have a separate property tax currently levied.

STP (Surface Transportation Program): Provides flexible funding that may be used by States and localities for projects to preserve and improve the conditions and performance on any Federal-aid highway, bridge and tunnel projects on any public road, pedestrian and bicycle infrastructure, and transit capital projects, including intercity bus terminals.

Sworn: A term used to describe police personnel who are hired by the Police Commission.

Tax Levy: The total amount of property taxes to be requested by the Village based on the budget

Glossary

for the year. This tax levy is then submitted to the County who determines based on the “tax cap” laws what the total tax extension is allowed to the Village.

Tax Rate: The amount of property tax levied or extended for each \$100 of assessed valuation.

TIF (Tax-Increment Financing): A redevelopment tool available for use by municipalities where the Village’s cost of providing assistance with capital improvements, public improvements and development or redevelopment of properties within the legally designated area are funded by the future incremental property taxes generated by the development.

TIF District: An area of property within the Village legally defined by a municipality that meets all the necessary requirements to be eligible for TIF.

Trust Funds: Funds used to account for assets held by the Village benefitting other entities or individuals in a trustee capacity also benefitting private organizations or other governments.

Unrestricted Net Assets: That portion of net assets that is neither restricted nor invested in capital assets (net of related debt). Unrestricted net assets are typically used as the “fund balance” equivalent for Proprietary Funds.
