spring, maintenance to be completed at Village Hall, Riverfront Park, and North Aurora Police Station will include edging, trimming of bushes and mulching in the spring around all plants. In addition to this initial maintenance, bushes shall be trimmed one additional time midway through the 30 week schedule. Weed killer along with weed and feed shall be applied 3 times per year. Notification of these applications shall be provided to the Public Works Director or his designee 24 hours in advance of the application operation. All chemical applications shall be performed by licensed individuals.

Any damage to the contractors' equipment and any damage occurring from lawn mowers or other equipment will be the responsibility of the contractors for repair and replacement.

### **Equipment and Vehicles**

The equipment and vehicles used by the contractor shall be in good repair and made available to inspection by the Village upon request. All equipment should have the necessary safety features to complete the mowing. Individuals performing the work shall have adequate training and personal protection equipment to safely complete work outlined in the scope above. All vehicles shall be clearly labeled with the contractor's name.

### **Locations**

All lawn mowing locations have been described in a list and illustrated on maps, both are contained within these specifications. ~~Included in the list is the approximate acreage.~~ The Contractor is responsible for visiting all the areas as certain areas have steep slopes and rough terrain. The numbered descriptions below correspond to the table in the **Schedule of Prices**. The maps attached in **Exhibit A** further clarify the locations of the proposed work.

If the Contractor deviates from the established mowing schedule the Contractor is required to contact the Village of North Aurora 24 hours before each day's work begins.
