

The Village of North Aurora is requesting from qualified vendors to provide the implementation services of an enterprise intranet solution based on Microsoft SharePoint and OneDrive. This RFP is designed to solicit responses from vendors in order to assist the Village in delivering a SharePoint/OneDrive infrastructure, security, and assessment of current on-premise file structure and assistance with migration from a on-premise to cloud based file system. Additionally, the Village intends to utilize SharePoint as a Village wide document management system. Migration of all files from on-premise to SharePoint must be incorporated into the document management system.
