

Orchard Gateway Reconstruction

Project Scope

The project includes pavement rehabilitation of Orchard Gateway Boulevard from Orchard Road to Randall Road. The scope also includes the installation of a traffic signal and roadway widening at the intersection of Hansen Boulevard and Orchard Gateway Boulevard. Additional work in the program may include storm sewer repair, curb repair/installation and sidewalk repair/installation.

Orchard Gateway Boulevard will be due for pavement rehabilitation based on the existing and expected deterioration. At the intersection of Hansen Boulevard and Orchard Gateway Boulevard there is an existing four-way stop which experiences heavy traffic volume and has had a significant amount of accidents the past few years. A traffic signal is warranted for this intersection which will help improve traffic flow as well as safety.

Estimated Cost

Construction costs are estimated at \$3.4 million and will be paid with Capital Projects Fund reserves, Motor Fuel Tax funds, and grants.
