

**VILLAGE OF NORTH AURORA  
TAX INCREMENT FINANCING GRANT PROGRAM GUIDELINES**

---

**I. INTRODUCTION**

The Village of North Aurora Tax Increment Financing Grant Program (NATIFGP) is designed to provide financial assistance to make property, building and signage improvements. The primary goal of NATIFGP is to achieve true improvement in appearance rather than support general maintenance. Under the program, applicants located within the designated target areas are eligible to apply for grant funds equal to 50 percent of the cost of improving their properties up to \$20,000.00 and up to \$10,000.00 for sign improvements that bring the signs into conformance with the Village's Sign Ordinance. A one-time reimbursement of \$1,000.00 is also available for architectural/engineering services.

**II. TARGET AREA**

Target improvement areas include existing structures currently zoned commercial and in current commercial use or planned for commercial use within the North Aurora Rt.31/Lincoln Highway TIF District and the United TIF District. Eligible residential demolition projects are not required to be located on property zoned commercial. Any and all improvements must meet all requirements of Village of North Aurora zoning, building and sign codes.

**III. TYPE OF ASSISTANCE**

Applicants may be eligible to receive: 1) matching funds equal to 50% of the project cost, up to a total Village of North Aurora contribution of \$20,000.00 per location; 2) one-time contribution of \$1,000.00 for the services of a State Certified/Licensed Architect and/or Engineer; 3) up to \$10,000.00 for sign improvements that bring signs into conformance with the Village's Sign Ordinance. There is not a required percentage match for the sign grant.

**IV. ELIGIBLE IMPROVEMENTS**

The program is geared to make building improvements ranging from minor repairs and painting to complete facade renovation and removal of visual blight. All facade improvements must be compatible with the architecture of the building. Eligible improvements include brick cleaning and tuck pointing, window and/or door replacement, awnings, restoration of original architectural features and other improvements promoting a positive appearance of the building and property, including signage. Roof repair will not be funded under the program. Awnings and canopies may be used as a design element if those features are compatible with the original building design and complement the building's architectural features. Construction and/or repair of mansard roofs and fixed shingle canopies may be an eligible cost under the program. Each eligible improvement shall be funded only once by the program.

Other eligible improvements include:

- Upgrading non-conforming signage to code compliance
- Landscaping
- Exterior lighting
- Parking area improvements
- ADA Handicap accessibility -ramps, doors, etc.
- Demolition of structures considered to be of visual blight
- Demolition of residential buildings considered non-conforming to the use, bulk and yard regulations of the Zoning Ordinance.

## **VI. INELIGIBLE PROJECTS**

It is not the purpose of the program to finance routine maintenance items. Ineligible improvements include improvements to the building interior (remodeling floor, office, or display spaces) or exterior maintenance work such as roof repairs/replacements. Building additions shall not be funded; however, such additions may be eligible for other TIF assistance.

## **VII. APPLICATION PROCESS AND ADMINISTRATIVE PROCEDURES**

1. Potential applicants shall receive a copy of the program guidelines and application form. The completed application should be submitted to the Community Development Director at 25 E. State St., North Aurora, IL 60542.
2. All applicants shall be in good standing with the Village of North Aurora, having no open Village Ordinance violations or defaults in payments to the Village. Any open Ordinance violations or defaults in payment will result in automatic disqualification.
3. At least two separate cost estimates shall be submitted with each application. Each estimate shall include a detailed scope of work to be completed and a breakdown of cost for such work. Funding will be based on the lowest reasonable estimate in conjunction with the scope of work provided. This determination may affect the applicant's selection of a preferred contractor. The applicant may not serve as his/her own contractor. Contractors with a history of Village Ordinance violations, defaults in payments owed to the Village will automatically be disqualified and a new estimate would be required in their place.
4. Applications will be reviewed by staff for compliance with all program guidelines. A site inspection will be completed by the Village of North Aurora Community Development Department staff to offer additional recommendations on building and/or site improvements and review the building and/or site for any violations to the property maintenance code, applicable building codes or Zoning Ordinance. If the application does not meet program eligibility, correspondence will be sent to the applicant indicating what items need to be addressed prior to the application being compliant. An appeal of any application denial by staff may be made to the Village Board. The applicant shall notify the Community Development Director in writing (by return receipt mail) with a request to appeal within ten (10) working days of receiving notice of the disapproved application.
5. If an application meets the program guidelines and sufficient funding is available for the proposed project, the completed application and a recommendation for grant award will be made to the Village Board.
6. The Village Board shall authorize execution of a grant agreement based on Community Development Department staff's site and building recommendations (if any), and any changes made by the Village Board regarding funding levels and scope of work.
7. No reimbursement shall be made for work initiated or completed prior to Village Board approval.
8. All required work shall be completed within two (2) years of Village Board approval.
9. Notice of any change orders for which the Applicant seeks reimbursement of costs must be given to the Village in writing, and the work must be approved by the Village in writing before the work is done to be eligible for reimbursement.

10. Applicants are required to submit a six (6) month progress report if the improvement is not completed within the initial six (6) months after application funding. If the improvement requires the full two (2) year maximum timeframe to complete, reports are due for every six (6) month period until final completion/submission of costs and supporting documentation.
11. After completion of the project, copies of all bids, contracts, invoices, lien waivers, and cancelled checks must be submitted to the Village. Village staff will inspect the work for compliance with Village codes and conformance with the design plans approved for the project. The Village shall make payment to the applicant in accordance with the Illinois Prompt Payment Act.

## **VIII. SELECTION CRITERIA**

Eligible applications will be considered on a first-come, first-served basis. If the amount of eligible requests exceeds the amount of funding available during the respective fiscal year, eligible requests may be earmarked for the following fiscal year. Reasonable accommodations may apply to eligible projects under extenuating circumstances, such as (but not limited to) seasonal conditions; redevelopment or remodeling caused by an act of God; or property acquisition.

## **IX. PREVAILING WAGE LAW (P.A. 96-0437 & 96-0058 as amended), WHEN APPLICABLE.**

All applicable laws, ordinances, and the rules and regulations of all authorities having jurisdiction over construction of the project shall apply to the contract throughout including the Illinois Prevailing Wage Act. The grantee or entity awarded funding will be required to submit certified payroll to the Village of North Aurora on a monthly basis for the work being performed under the grant and/or redevelopment agreement if said grant or redevelopment agreement funding is being used for the purchase of labor for the materials or services being rendered.

When a project is financed in whole or in portion with tax increment financing funds, that project falls under the purview of the Prevailing Wage Act and is considered a Public Work. In effect, the contractor selected to do the work must pay his/her employees the prevailing rate of wages for Kane County and supply certified payroll to the Village of North Aurora prior to reimbursement being issued. The Village of North Aurora will hold those records for a period of time as required by State Statute.

If contracts for specific work are separated for a project on a building and land owned by a private entity, then only that contract which will be partially financed with tax increment funds is subject to the prevailing wage requirement.

## **X. CORRESPONDENCE**
